Herefordshire Council

Agenda

Audit and Governance Committee

Date:	**Wednesday 27 September 2023**
Time:	**3.00 pm**
Place:	**Conference Room 1, Herefordshire Council Offices, Plough Lane, Hereford, HR4 0LE**
Notes:	Please note the time, date and venue of the meeting. For any further information please contact: **Jen Preece, Democratic Services Officer** Tel: 01432 261699 Email: jennypreece@herefordshire.gov.uk

If you would like help to understand this document, or would like it in another format, please call Jen Preece, Democratic Services Officer on 01432 261699 or e-mail jennypreece@herefordshire.gov.uk in advance of the meeting.

Agenda for the meeting of the Audit and Governance Committee

Membership

Chairperson	**Councillor David Hitchiner**
Vice-chairperson	**Councillor Aubrey Oliver**
	Councillor Chris Bartrum
	Councillor Frank Cornthwaite
	Councillor Peter Hamblin
	Councillor Robert Highfield
	Councillor Mark Woodall

Agenda

Pages

HOW TO SUBMIT QUESTIONS

Deadline for receipt of questions is 9.30 am on Friday 22 September 2023.

Questions must be submitted to councillorservices@herefordshire.gov.uk. Questions sent to any other address may not be accepted.

Accepted questions and the response to them will be published as a supplement to the agenda papers prior to the meeting. Further information and guidance is available at www.herefordshire.gov.uk/getinvolved

10.	**WORK PROGRAMME** To consider the work programme for the committee.	145 - 148
11.	**DATE OF NEXT MEETING** Tuesday 24 October 2023, 2pm.	

The public's rights to information and attendance at meetings

Please take time to read the latest guidance on the council website by following the link at www.herefordshire.gov.uk/meetings and support us in promoting a safe environment for everyone. If you have any queries please contact the governance support team on 01432 261699 or at governancesupportteam@herefordshire.gov.uk

We will review and update this guidance in line with Government advice and restrictions. Thank you for your help in keeping Herefordshire Council meetings safe.

You have a right to:

- Attend all council, cabinet, committee and sub-committee meetings unless the business to be transacted would disclose 'confidential' or 'exempt' information.

- Inspect agenda and public reports at least five clear days before the date of the meeting. Agenda and reports (relating to items to be considered in public) are available at www.herefordshire.gov.uk/meetings

- Inspect minutes of the council and all committees and sub-committees and written statements of decisions taken by the cabinet or individual cabinet members for up to six years following a meeting.

- Inspect background papers used in the preparation of public reports for a period of up to four years from the date of the meeting (a list of the background papers to a report is given at the end of each report). A background paper is a document on which the officer has relied in writing the report and which otherwise is not available to the public.

- Access to a public register stating the names, addresses and wards of all councillors with details of the membership of cabinet and of all committees and sub-committees. Information about councillors is available at www.herefordshire.gov.uk/councillors

- Have access to a list specifying those powers on which the council have delegated decision making to their officers identifying the officers concerned by title. The council's constitution is available at www.herefordshire.gov.uk/constitution

- Access to this summary of your rights as members of the public to attend meetings of the council, cabinet, committees and sub-committees and to inspect documents.

Recording of meetings

Please note that filming, photography and recording of this meeting is permitted provided that it does not disrupt the business of the meeting.

Members of the public are advised that if you do not wish to be filmed or photographed you should let the governance services team know before the meeting starts so that anyone who intends filming or photographing the meeting can be made aware.

The reporting of meetings is subject to the law and it is the responsibility of those doing the reporting to ensure that they comply.

The council may make a recording of this public meeting or stream it live to the council's website. Such recordings form part of the record of the meeting and are made available for members of the public via the council's YouTube channel.

Public transport links

The Herefordshire Council office at Plough Lane is located off Whitecross Road in Hereford, approximately 1 kilometre from the City Bus Station.

The location of the office and details of city bus services can be viewed at:
www.herefordshire.gov.uk/downloads/file/1597/hereford-city-bus-map-local-services-

Herefordshire Council

The Seven Principles of Public Life

(Nolan Principles)

1. Selflessness

Holders of public office should act solely in terms of the public interest.

2. Integrity

Holders of public office must avoid placing themselves under any obligation to people or organisations that might try inappropriately to influence them in their work. They should not act or take decisions in order to gain financial or other material benefits for themselves, their family, or their friends. They must declare and resolve any interests and relationships.

3. Objectivity

Holders of public office must act and take decisions impartially, fairly and on merit, using the best evidence and without discrimination or bias.

4. Accountability

Holders of public office are accountable to the public for their decisions and actions and must submit themselves to the scrutiny necessary to ensure this.

5. Openness

Holders of public office should act and take decisions in an open and transparent manner. Information should not be withheld from the public unless there are clear and lawful reasons for so doing.

6. Honesty

Holders of public office should be truthful.

7. Leadership

Holders of public office should exhibit these principles in their own behaviour and treat others with respect. They should actively promote and robustly support the principles and challenge poor behaviour wherever it occurs.

Herefordshire Council

Guide to the Audit and Governance Committee

The Audit and Governance Committee comprises seven members of the council and may also include an independent person who is not a councillor but is appointed by council and has the same voting rights as other members of the committee.

Councillor David Hitchiner (Chairperson)	Independents for Herefordshire
Councillor Aubrey Oliver (Vice-Chairperson)	Liberal Democrats
Councillor Chris Bartrum	Liberal Democrats
Councillor Frank Cornthwaite	Conservative Party
Councillor Peter Hamblin	Conservative Party
Councillor Robert Highfield	Conservative Party
Councillor Mark Woodall	The Green Party

The Audit and Governance Committee is responsible for proving assurance on the council's audit, governance (including risk management and information governance) and financial processes in accordance with the functions scheme.

The committee shall:

(a) review and examine, and where required in depth examine, matters relating to internal audit, external audit, risk management, governance, assurance statement, anti-fraud and anti-corruption arrangements as well as any other function to meet the Council's audit committee requirements

(b) enhance and promote the profile, status and authority of the internal audit function and to demonstrate its independence

(c) contribute towards making the authority, its committees and departments more responsive to the audit function

(d) review compliance with the relevant standards, code of conduct, codes of practice and corporate governance policies

(e) act within the Council's Constitution.

Herefordshire Council

Minutes of the meeting of the Audit and Governance Committee held in Conference Room 1, Herefordshire Council Offices, Plough Lane, Hereford, HR4 0LE on Monday 31 July 2023 at 10.00 am

Committee members present in person and voting:	**Councillors: Chris Bartrum, Frank Cornthwaite, Peter Hamblin, Robert Highfield, David Hitchiner (Chairperson), Aubrey Oliver (Vice-Chairperson) and Mark Woodall**

Others in attendance:	B Baugh (Democratic Services Officer), J Davies (Principal Auditor, South West Audit Partnership), L Davis (Head of Prevention and Support), I Halstead (Assistant Director, South West Audit Partnership), K Lloyd (Performance Team Lead), A Lovegrove (Director of Resources and Assurance), A Pitt (Director of Strategy and Performance), Claire (Director of Governance and Law), J Preece (Democratic Services Officer), P Stoddart (Cabinet Member Finance and Corporate Services) and P Wride (Head of Practice Management)

16. APOLOGIES FOR ABSENCE

No apologies for absence were received.

17. NAMED SUBSTITUTES (IF ANY)

There were no substitutes.

18. DECLARATIONS OF INTEREST

No declarations of interest were made.

19. MINUTES

RESOLVED:

That the minutes of the meeting held on 23 June 2023 be confirmed as a correct record and signed by the chairman.

20. QUESTIONS FROM MEMBERS OF THE PUBLIC (Pages 13 - 14)

A question received from a member of the public and the response given, including a supplementary question and the response, attached as Appendix 1 to the minutes.

21. QUESTIONS FROM COUNCILLORS

No questions had been received from councillors.

22. INTERNAL AUDIT ANNUAL OPINION 2022/23

The Assistant Director (AD) for South West Audit Partnership (SWAP) presented the report on Internal Audit Annual Opinion 2022/23. The purpose of the annual report was outlined; attention was drawn to Appendix A - Internal Audit Annual Opinion 2022/23. The following key areas were highlighted:

Activity and outcomes during the year

1. 47 reviews were delivered as part of the 2022/23 rolling Internal Audit Plan.

2. 80% of internal audit reports gave a substantial or reasonable assurance opinion.

3. 6 out of 8 strategic risks had good or ‘some’ audit coverage, the opinion was there had been effective audit coverage throughout the year.

4. There were no areas of significant corporate risk reported.

5. Five themes were highlighted to the committee:

   I. Financial controls and budgetary management

   It was highlighted that, although generally the Council operated effectively with commitment accounting and validating payments, there were a few isolated cases within some service teams where this was not the case and SWAP would be offering awareness training to those departments.

   II. Grant Administration

   The lack of consistent practices and knowledge of Grant Administration were highlighted. Cases were isolated to some service areas and not widespread. SWAP would support the Council by offering training to those departments.

   III. Oversight of regulator actions

   Whilst the actions identified by key regulators were picked up and the council monitored those effectively, it was reported that some actions from smaller regulators had slipped through the net.

   Internal Audit would look to promote assurance mapping across the Council. SWAP was currently engaging with the Council’s Performance Team to support the real time tracking of known actions through its audit management system.

   IV. Counter Fraud and Risk Management

   The overall opinion was that these were working effectively and outstanding actions had generally been implemented although it was highlighted that some improvement was needed around some of the long-term actions.

   V. Prevention and detection of fraud

   The Council had demonstrated effective control and had been able to protect public funds from fraud.

Taking into account the five themes highlighted, it was the AD’s overall opinion for the year that generally the Council had sound systems of governance, risk management and internal controls however there was some scope for improvement in some areas.

In response to committee questions, it was noted:

1. The AD said that it was difficult to put an indicator about the level of internal control but indicated that it was in line with the previous performance and similar to that of other authorities.

2. In a query raised around external regulatory assessment, it was explained that these related to recommendations from regulators at a service level. An example was given with regard to the Registration Services report which identified a failure to address a number of recommendations made in an inspection by the General Register Office and where there had been no particular oversight or tracking from a managerial point of view and therefore no oversight as to if these recommendations had been implemented.

3. It was confirmed that the Council and SWAP had their own individual counter fraud teams that worked in unison. It was highlighted the Council's counter fraud team were working very successfully in preventing and detecting fraud.

4. The fraud baseline assessment demonstrated that the council was performing well but it was acknowledged that measuring the impact of fraud was difficult where there were issues around the lack of records. It was important to note that the council was actively rectifying the issues and making sure controls were put in place to ensure protection from fraud. The Section 151 Officer informed the committee that a report on Anti-Fraud, Bribery and Corruption Policy would be included on their agenda for the October 2023 meeting and this would look at the overall position of the council working with SWAP and a range of other partners.

5. Training had started with those service areas where it had been identified that there was a lack of grant knowledge. The training set out the expectations of SWAP in terms of the gold standard for grant administration. SWAP welcomed feedback from those sessions and hoped that the training would improve the process. In response to a question whether committee members could undertake this training, it was highlighted that this was training specifically directed as those dealing with grant administration, but offered to provide feedback that was received out of the training and provide committee members with assurance that any issues were being addressed.

6. Indication that training had been effective would be the receipt of effective grant submissions.

7. In most cases grants had been successful however there had been a few occasions where grants had been returned.

Resolved

That the report and the assurance provided by the annual opinion report be noted.

Action(s)

2023/24-003 SWAP be invited to provide the committee with an overview of the training provided and to provide assurance of the effectiveness of that training.

23. INTERNAL AUDIT - "LIMITED" OPINION REPORTS Q1 2023/24

The Principal Auditor, South West Audit Partnership (SWAP) introduced the report. Attention was drawn to the 'Registration Service: Final Report – February 2023' document at appendix A of the report.

It was highlighted that:

1. 17 recommendations had not been followed up following the General Registration Office (GRO) report submitted to the council in February 2022.

2. The Registration Service had been transferred to the Law and Governance directorate in July 2022 and the Head of the Practice Management was tasked with managing the service.

3. As part of the GRO's recommendations, an Internal Audit had been requested and undertaken with the main focus being to review the progress of the 17 recommendations. It was noted that the review also included a review on actions taken from recommendations made from an internal review carried out in October 2021.

4. Limited assurance was issued following the findings of that audit. The priorities within the appendix were highlighted.

The Head of the Practice Management (HOPM) provided the committee with an update on the actions taken. A written summary was included at Appendix D. The following points were highlighted:

- There was still work to be done but there was more assurance that the processes and staff training were in place to ensure that the department was able to carry out the work the GRO expected the council to do.

- It was noted the GRO had attended the service twice since January 2022 and they were much happier with the progress made and would be revisiting in 2 weeks' time.

In response to committee questions it was noted:

1. The morale of staff was described as 'up and down' but, with the recruitment of further staff and with the development and support provided over the last six months, it was thought that it was generally improving. The changes being made were seen to be helping staff in their day job and in turn provided the public with a better service. The addition of the online appointment booking system in December 2023 would vastly improve the management of the high volumes of calls and emails received from the public.

2. Shropshire Council had undertaken the quarterly checks for the backlog of 2 years up to March 2023. Herefordshire Council were just completing the quarterly check for the end of June 2023. It was highlighted that these checks did take up a large amount of time especially with new staff. However the checks had to be kept up and, with the additional staff recruited, the service would have more capacity in conducting these. The council would have conducted 4 quarterly checks by July 2024.

3. It was considered that the removal of the cash payments element had significantly reduced risk but systems to monitor income still needed to be put in place; to allow, for example, the tracing of individual payments to specific certificates so these could be seen in budget reports. It was thought this would be addressed in the next couple of months. The Assistant Director, South West Audit Partnership highlighted the need for constant awareness, checking and monitoring by the service, and SWAP would assist. The Assistant Director indicated his satisfaction with the initial management response.

4. The HOPM said that record keeping previously had been so incomplete that the potential for fraud to have taken place was there but, as there was no way of tracking through the system, it would have been difficult to find if this had occurred.

5. It was confirmed the GRO had conducted a previous review in 2017 and aspects from that report had also not been picked up until the HOPM took over the service July 2022.

6. It was noted that officers used daily 'banking sheets' to record the number of certificates issued which would equate in terms of money taken, but there is no facility for these to be inputted into the Business World system and therefore would not be pulled through on budget reports.

The Principal Auditor (SWAP), drew attention to the 'HC Housing Solutions Team Financial Processes: Final Report – March 2023' document at appendix C of the report.

It was highlighted that, following an audit of the homelessness prevention grant where some control weakness were identified, the Director of Community Wellbeing agreed an internal audit be undertaken into the financial processes within the Housing Solutions team. The audit findings led to a limited assurance opinion, the priority actions within the appendix were highlighted.

The Head of Prevention and Support Services (HOPSS) provided the committee with an update on the actions taken. A written summary was included at Appendix E.

The following points were highlighted:

- Providers had been set up with business accounts which would reduce the need for spend on procurement cards, however it was noted that when emergency housing was needed and a provider was not set up on the system, a procurement card would need to be used.

- The interim Housing Solutions Manager had put in place management overview and approval of individual spend on the procurement cards.

- Although very few homelessness loan payments were made, seven loans payments were made in 2022/23. Registered Providers would now need to provide invoices. Imprest accounts may still be needed for smaller "one-off" suppliers as it may be difficult for them to supply invoices in the timescales required.

- Authorisation for Imprest accounts now required two signatories via email detailing the requestor and approvers in all cases.

- The review into process and procedure notes were in progress but operational and personnel matters had slowed progress on completing this action, which was a priority within the service leads' service delivery plan with a timescale for completion of 30 September 2023.

- With regard to staff resources a revised structure, focused on resilience, would be implemented by the newly appointed Acting Head of Housing.

- It was noted the cash Imprest and cheque book accounts had not yet been formally closed, but both continue not to be used and the actions would be completed by 31 August 2023.

- The Housing Service Lead had ascertained the mandatory costs associated with void works and the Directorate Accountant had added an account/ analysis code for that budget.

In response to committee questions, it was noted:

1. Assistant Director for (SWAP), confirmed that he was not aware of any other services within the council where money was being spent without any oversight. It was highlighted there were managerial processes for procurement cards and resilience, validation and authorisation controls were in place. The internal audit and the council would continue to monitor this situation.

2. The Section 151 Officer explained that there was a clear trail for the allocation of procurement cards across the council and that officers had to authorise and code their own spends through an automated system to which managers would then have oversight of the overall spend. It was identified that managers would not see every transaction and that decisions were delegated to those officers.

3. In relation to the Housing Solutions Team and the concerns raised with procurement cards, the HOPSS advised that although there had been no management overview and approval of individual spend on procurement cards until now, no one officer had acted alone and that there had always been more than one individual involved in the process.

4. The Assistant Director (SWAP), confirmed a project was ongoing looking at procurement cards specifically across the whole of the council looking at the fraud controls and there is a data analytical process which he would look to bring back to the committee to provide further reassurance that controls are working effectively.

5. In a response to a question concerning the setup of business accounts, the HOPSS confirmed that invitations to tender were sent to local providers of temporary accommodation and to those the council knew might be interested. The process was undertaken by the procurement team and there were certain requirements that needed to be met in order to enter into a framework agreement. The framework agreement was an open agreement and providers could still join. It was confirmed that there was a list of those providers that could be viewed.

Resolved:

That the report and the mitigations to the risks outlined in the internal audit reports on Registration Services and Housing Solutions - Financial Processes be noted.

Action(s)

2023/24-004 SWAP to provide the committee with findings from the project work being undertaken around procurement cards across the council.

24. UPDATE ON INTERNAL AUDIT RECOMMENDATIONS

The Performance Team Lead (PTL) provided the committee with an update on the progress made in the council's response to audit recommendations made by SWAP in their audit reports issued before April 2023. It was highlighted that:

- The Housing Solutions report was not included within this report as this was reported during April 2023.

- The updates on the recommendation could be found at Appendix A to the report.

- Of the 30 recommendations that were previously reported to the committee as overdue: 15 recommendations had since been completed; 1 deferred; and 14 remained outstanding.

- Of the recommendations due for completion between October 2022 and March 2023, it was highlighted that 19 of the 36 remain outstanding.

- Of the future recommendations, 75% of these were on track to be completed; it was noted that from previous forecasts it was expected that these would be completed when the report was brought back to committee in six months' time. It was highlighted to the committee that when next reported the "future recommendations" would appear as those "due in the period" and the quantity would be increased as it would include audits published between now and the end of September.

- It was highlighted that focus needed to be on ensuring that those historical recommendations were acted on or at least changes had taken place within the service that mean that the recommendations are no longer relevant. To ensure that completion rates did improve in the future, recommendations were to be included in the new service business plans and it was expected this would result in higher completion rates which would be reported back to the committee.

In response to committee questions it was noted:

1. The committee were informed of the current process of tracking and the progression of recommendations made from audit reports. It was highlighted there had been some circumstances where reports had not been circulated to the wider audience and therefore the PTL has undergone discussions with SWAP to obtain access to their real time tracking audit management system which should ensure recommendations were recorded and responded to in a timely manner. It would also assist SWAP with having access to the council's progress updates which would aid them in future follow-up reports. It was stressed that the council would still monitor and report internally.

2. The Assistant Director, South West Audit Partnership gave the committee members an overview of the audit management system which they would be providing the Council as part of the ongoing partnership.

3. The Section 151 Officer explained that the impact of the Covid 19 pandemic had been the main cause for so many of the recommendations having slipped.

Resolved:
That; the status of current audit recommendations be noted.

There was a short adjournment.

25. CORPORATE RISK REGISTER

The Director of Strategy and Performance (DOSP) introduced the report and highlighted the following:

- The Corporate Risk Register incorporates the key risks across the whole organisation.

- There were currently 16 corporate risks and 73 directorate risks.

- The committee were informed that the directorate risk registers were reviewed on a monthly basis with the relevant service and corporate directors which then reported into the corporate risk register should any risks need escalating; risks scored 16-25 would be escalated.

- With regard to development work on the approach to strategic risk, it was highlighted that more work needed to be undertaken on the risk register surrounding the aggregation of risks, understanding of accountability and action planning. It was reported that the corporate leadership team would challenge and have more ownership of the risks in the corporate register.

- The senior management team would undertake training, to be provided by the council's insurance company, within the next couple of months.

- The corporate risk register and the directorate risk registers were appended to the report.

In response to committee questions, it was noted:

1. The DOSP confirmed that service directors had overall responsibility of their individual directorate registers to ensure that risks were de-escalated, removed and added when applicable, risk scores were regularly reviewed and scores, controls and future mitigating activity were updated where necessary.

2. All service areas would identify their own individual risks and those key risks to the council that needed oversight would be captured within the relevant risk register. It was highlighted that reporting could be made clearer with demonstrating where it is a strategic risk, a service risk or a financial risk and what the mitigation actions were and the impact those had on the council.

3. There was a need to consider whether Council's decision on Friday 28 July 2023 to renew Herefordshire Council's commitment to taking action to tackle the climate and ecological emergency was addressed appropriately in the risk registers, along with any further work necessary to identify other risks related to this.

4. Following a question surrounding cross-departmental risks, it was confirmed that these would be included in the strategic risk register.

5. In response to a question about the management of risk in circumstances where a risk owner position was vacant, the DOSP confirmed that the directorate leadership team would have oversight and ultimately the service directors had overall responsibility for their directorate register to ensure that those risks had oversight, mitigation in place, and were monitored in an effective way.

6. The DOSP offered to circulate the Risk Management Plan to members of the committee.

7. The cabinet member finance and corporate services offered his support in reviewing the risk register.

8. The Section 151 Officer confirmed there was still work to be done around the risk register and acknowledged concerns raised around Cyber Attacks (CS.09) being de-escalated from the corporate risk register.

9. The Section 151 Officer confirmed in response to a query around Wetlands (EE.13) that the £1m of the LEP grant money had been spent.

10. It was noted that Phosphates (EE.28) was a significant issue for the County but was only mentioned in the context of Neighbourhood Development Plans and a request was made to the DOSP as part of her review to look into what other risks could be associated with phosphates.

11. The Chairperson made observations on the de-escalation of Highway Condition (EE.20) from the register.

12. The notice to terminate the lease at The Maltings Car Park (EE.56) was noted.

13. The Chairperson made the observations about the ‘risk management’ sections included in council reports and considered that improvements could be made to the wording of those sections.

14. In response to a question surrounding what ‘de-escalating’ from the register meant, the DOSP advised there could be a number of reasons why a risk could be de-escalated, such as mitigating actions could have been put in place. It was explained that, if a risk was de-escalated from the corporate risk register, it would remain in the directorate risk register.

15. The Chairperson, noting that a number of items within the risk registers were of interest to the committee, suggested that the committee undertake a ‘deep dive’ into selected risks to provide assurance that the risk management framework was being applied appropriately.

Resolved

That:

a) the status of the council’s corporate risk register be noted; and

b) the Director of Strategy and Performance be invited to review risk descriptions and to explore whether risks had been addressed appropriately in terms of: the climate and ecological emergency; phosphates; risks identified by the auditors; and cyber security.

Actions(s)
2023/24-005 The Risk Management Plan to be circulated to committee members.

2023/24-006 The committee to undertake a ‘deep dive’ into a risk example, following the ‘Approach to strategic risk management update’ report due to be considered at the November 2023 meeting.

26. ANNUAL REPORT ON CODE OF CONDUCT

The Director of Governance and Law / Monitoring Officer introduced the report. The principal points were raised:

- A correction was identified to paragraph 8 of the ‘Key considerations’ section, it was highlighted that independent persons had offered support to councillors who had received complaints against them during the year 2022/23. It was noted that going forward the Independent Persons would be contacted before bringing a report to the committee to ensure that accurate reporting was made; it was important for councillors to be assured that this support was available to them.

- It was highlighted there had been disruption with the timeliness of reporting to the committee. This was due to the number of complaints being received but largely due to turnover of new staff and the disruption this created with the handing over of processes. Further strengthening was being implemented within the team with the recruitment of a permanent Governance Lawyer and the Deputy Monitoring Officer would be leading on and assisting with investigations.

- It was confirmed that Cornwall Council were no longer assisting with investigations of complaints which was felt to have created confusion and had led to delays.

- A dedicated Code of Conduct inbox had been created, meaning that delays should not be incurred in complaints due to being double or triple handled.

- The standards panel had identified improvements and made recommendations; some of which have been implemented during the review year. Mainly on operational matters around improving and giving full reasons for decisions and sign posting complainants to where else they could go if it did not fall under the members code of conduct.

In response to committee questions, it was noted:

1. It is a duty of the Monitoring Officer under legislation, rather than the role of Herefordshire Council, to investigate a complaint about a parish councillor, if it meets the criteria. Law dictates that the views of an independent person (IP) were sought. If a parish councillor was found to be in breach of the code, it would be directed back to the parish council to deal with independently.

2. There was no specific time limit in which to deal with code of conduct complaints but ideally they would be dealt with as efficiently as possible for the complainant and the relevant councillor; times would vary depending on the complexity of the complaint, the number of witnesses involved and the timeliness of replies. It was noted that reporting on the average elapsed time of cases and percentages of councillors where they had complied with sanctions would be included in future reports to the committee. An action was recorded to provide specific details on the 12 cases still open from 2020/21, as recorded in the table at paragraph 19 of the report.

3. Each case was dealt with on a particular set of facts and the council must remain neutral and not be seen to be assisting a complainant if their complaint did not fall under the members' code of conduct, but there could be circumstances where other routes could be suggested, such as contacting the district auditor or the local clerk.

Resolved

That:

a) the annual report on code of conduct complaints be noted; and

b) reporting on the average elapsed time of cases and percentages of councillors where they had complied with sanctions be included in future reports to the committee.

Action(s)

2023/24-007 The Monitoring Officer to provide specific details on the 12 cases still open from 2020/21, as recorded in the table at paragraph 19 of the report.

Update provided:

The spreadsheet is a snapshot in time at year end, and so some of the complaints might have only been open for days or weeks at this point – for instance, 6 cases were received in the period Jan-Mar 21 and I would not expect these to have been completed by year end. We cannot see from our background data the reasons why 12 cases were open at year end, but during 2020/21 the Council was still operating an appeals process, and this led to complaints being outstanding for significantly longer as it allowed subject members and complainants to appeal decisions to a Standards Panel. Complaints do not expire due to time, and any case open at year end would simply continue until it is finalised.
Going forward it will probably be more helpful if I reported on complaints closed within the year, because for example a number of complaints could come in on the 31 March.

27. WORK PROGRAMME

The work programme for the committee was considered. The following adjustments were noted:

- The paper requested on Ash Dieback, particularly in relation to the role of Balfour Beatty Living Places in handling potential risks, had not yet been circulated to members and the Chair requested that this be escalated to officers, with a report be brought to the committee in September 2023.

- The report on independent committee members would be allocated to the September 2023 meeting, subject to officers being in a position to meet the required deadlines for publication.

- The ‘Approach to Strategic Risk Management Update’ report would be moved to the November 2023 meeting.

RESOLVED:

That, subject to the identified adjustments, the updated work programme be agreed.

28. DATE OF NEXT MEETING

Wednesday, 27 September 2023 at 3pm.

The meeting ended at 12.12 pm **Chairperson**

Audit and Governance Committee, 31 July 2023

Agenda item 5 – Questions from members of the public, plus supplementary question and response

Public Question

From: Ms Reid, Hereford

The rate of children in care in Herefordshire is about twice its Statistical Neighbours' average (LAIT).

Per FOI2022/01890 the average weekly costs for each child in care were:

- Fostering: £315
- Fostering agencies: £890
- Children's homes: £5,066

The Corporate Risk Register includes an "Extreme" (red) risk of "Sufficiency Strategy" (CRR.60). If the number of children in care is reduced, sufficiency is mitigated.

My supplementary question (23/6/2023, A&G) mentioned actions to reduce the number of children in care:

- Reunification of children with families
- Early Help
- FGCs

The response included:

> "we will take your comments into account"

The Corporate Risk Register report (31/7/23, A&G) recommends that:

> "The committee determine any recommendations it wishes to ensure effective risk management."

Will the committee consider on 31 July 2023 updating "Further actions required" of CRR.60 to include actions to reduce the number of children in care?

Response to Public Question

As you have recorded the committee will take your comments into account. The process is that the risk will be reviewed and considered by the directorate, and details of mitigating actions will be added as appropriate. If the risk score is 16 or greater, the update will appear on the updated Corporate Risk Register when next presented to the Committee. The Committee is very much aware of the risks to the Council in this area, as is the whole of the Council, the Cabinet and the Scrutiny Committee. We are all seeking to do the best for children on the County.

Supplementary Question

I consider my public question was not answered as the response does not indicate either "No" or "Yes" to whether the committee will consider updating the register.

The rate of children in care in Herefordshire about twice its Statistical Neighbours' average and the costs are high (on average for <u>each</u> child):

- Fostering: over £16,000 pa
- Fostering agencies: over £46,000 pa
- Children's homes: over £260,000 pa

If the number of children in care is reduced (eg by reunification of children with their families), placements sufficiency (eg foster placements) is mitigated.

The committee may make recommendations to “ensure effective risk management” and the Corporate Risk Register is presented to today’s committee meeting. Therefore, please would the committee consider in this meeting updating “Further actions required” of CRR.60 (“Sufficiency strategy”) on the register include actions to reduce the number of children in care?

<u>Response to supplementary question</u>

CR60 relates to the Development of a Sufficiency Strategy to ensure that there is sufficient accommodation of different types for our looked after children and young people. The risk relates to the need to obtain best value from our accommodation providers. As such the actions you request do not relate to the strategy and it is unnecessary for the service area to make the change. Your point about the numbers of children in care has been noted and the service area is aware. As detailed in the Children’s Improvement Plan, work is ongoing to ensure that the right children are in our care for the right amount of time.

Herefordshire Council

Title of report: Independent Member Appointment to Audit & Governance Committee

Meeting: Audit and Governance Committee

Meeting date: Wednesday 27 September 2023

Report by: Head of Strategic Finance

Classification

Open

Decision type

This is not an executive decision

Wards affected

(All Wards);

Purpose

The purpose of this report is to seek Members' views on the appointment of an Independent Member to the Audit & Governance Committee.

Recommendation(s)

That:

(a) The Committee note the information provided on the appointment of an Independent Member to the Audit Committees;

(b) The Committee considers the skills and experience required in an Independent Member;

(c) Nominates the Chair and at least 2 further members of the Committee to perform the recruitment and interview of the Independent Member; and

(d) Delegates to those members of the Committee authority to make recommendation to full Council to appoint the Independent Member.

Alternative options

1. At present there is no statutory requirement to determine that local authorities must appoint independent co-opted members. The Committee may opt not to recommend an independent

Further information on the subject of this report is available from
Rachael Hart Tel: 01432 383775, email: Rachael.Hart@herefordshire.gov.uk

member. With increased national focus on public accountability, effective governance and the role of Audit Committees, an appointment of an independent member would support a culture of transparent decision making and accountability.

Key considerations

2. The role of the council's Audit & Governance Committee ('the Committee') is to provide independent assurance on the adequacy of the risk management framework together with the internal control of the financial reporting and annual governance processes. The Committee's full range of functions are recorded in Part 3 paragraphs 3.5.8 to 3.5.16 of the Constitution.

3. The Local Audit and Accountability Act 2014 (the 2014 Act) abolished the Audit Commission and introduced a new statutory audit regime for local government to replace the previous arrangements.

4. In June 2019, The Secretary of State for Housing, Communities and Local Government asked Sir Tony Redmond to undertake an Independent Review into the Oversight of Local Audit and the Transparency of Local Authority Financial Reporting. The purpose of this review was to examine the effectiveness of local audit and its ability to demonstrate accountability for audit performance to the public. The findings of the Redmond Review fall into three main topics:

    - Local audit arrangements;
    - Governance arrangements;
    - Financial reporting

5. The Review recommended that local authorities appoint at least one independent member to Audit Committees to ensure they have the necessary expertise to carry out their role effectively and, following the review, strengthened guidance was developed by the Chartered Institute for Public Finance and Accountancy (CIPFA).

6. The updated CIPFA Guidance for Audit Committees in Local Government, issued in 2022, supports the Redmond Review recommendation, and states:

    > "The audit committees of local authorities should include co-opted independent members in accordance with the appropriate legislation. Where there is no legislative direction to include co-opted independent members, CIPFA recommends that each authority audit committee should include at least two co-opted independent members to provide appropriate technical expertise."

7. The Constitution currently permits Council to appoint an additional independent person to the 7 member Committee. The independent person is permitted to take part in all deliberations of the Committee but can only vote where the Committee is making an advisory decision and cannot vote (but can take part) where the Committee is discharging a function. Nevertheless, it is expected that the appointment of a suitable qualified and experienced independent member will bring specialist knowledge and insight to the workings and deliberations of an Audit Committee which, when partnered with the knowledge of working practices and procedures of existing Members will provide:

    - An effective independent assurance of the adequacy of the risk management framework.
    - Independent review of the Authority's financial and non-financial performance.

- Independent challenge to and assurance over the Authority's internal control framework and wider governance processes.
- Oversight of the financial reporting process.
- bring additional knowledge and expertise to the committee
- reinforce the political neutrality and independence of the committee
- maintain continuity of committee membership where membership is affected by the electoral cycle/group appointments.

8. The appointment of the Independent Member must be made by Full Council. The recommendation is that a recruitment process is commenced and that interviews are undertaken by 3 members of the Committee and the Chair shall make the recommendation to Full Council.

Community impact

9. The council's code of corporate governance commits the council to managing risks and performance through robust internal control and strong public financial management and to implementing good practices in transparency, reporting, and audit to deliver effective accountability. By ensuring robust management responses to identified risks, the council will be better able to meet its corporate plan priority to secure better services, quality of life and value for money.

Environmental Impact

10. Herefordshire Council provides and purchases a wide range of services for the people of Herefordshire. Together with partner organisations in the private, public and voluntary sectors we share a strong commitment to improving our environmental sustainability, achieving carbon neutrality and to protect and enhance Herefordshire's outstanding natural environment.

11. Whilst this is a decision on back office functions and will have minimal environmental impacts, consideration has been made to minimise waste and resource use in line with the Council's Environmental Policy

Equality duty

12. Under section 149 of the Equality Act 2010, the 'general duty' on public authorities is set out as follows:

A public authority must, in the exercise of its functions, have due regard to the need to –

(a) eliminate discrimination, harassment, victimisation and any other conduct that is prohibited by or under this Act;

(b) advance equality of opportunity between persons who share a relevant protected characteristic and persons who do not share it;

(c) foster good relations between persons who share a relevant protected characteristic and persons who do not share it.

13. The public sector equality duty (specific duty) requires us to consider how we can positively contribute to the advancement of equality and good relations and demonstrate that we are paying ‘due regard’ in our decision making in the design of policies and in the delivery of services. As this is an annual opinion report, we do not believe that it will have an impact on our equality duty.

Resource implications

14. Any costs associated with the recruitment, selection, appointment and subsequent disbursements to any independent panel members would need to be contained from within existing revenue service budgets.

Legal implications

15. Although there is no legislative requirement to have an Audit & Governance Committee, the functions have been delegated to the Committee under the Local Government Act 1972 as a committee of council. Its purpose is defined in Part 3 of the Constitution and it is to give assurance to elected members and the public about the governance, financial reporting and performance of the Council.

16. Section 102(3) of the Local Government Act 1972 stipulates that a committee which discharges a function of the Council can include co-opted members. Section 13(1) of the Local Government and Housing Act 1989 provides that a co-opted member of a committee established under the Local Government Act 1972 as a committee *discharging the functions of the Council* must be a non-voting member. However, it is possible in certain circumstances to for a co-opted member to have voting rights on the Committee where the items are discussed on advisory basis under section 102(4) of the Local Government Act 1972.

17. The role and function of the Audit & Governance Committee, as set out in the Constitution fulfils both an advisory role and also discharges some functions of the Council (approving terms of reference and strategy for internal audit, review and approval of annual statements of accounts and approval of the Annual Governance statement). Therefore, whilst co-opted members can be appointed to the Committee, they could not be given voting rights where functions are being discharged. Therefore, they are able to be fully involved on the Committee for all matters but where an item is to discharge a function, then their involvement would be in a consultative manner, with their views being taken into account by voting members of the Committee.

18. As the independent member has the ability to vote on advisory items (not discharging a function) they are considered to be a co-opted member for the purposes of s27(4) of the Localism Act 2011 and would be required to register their private interests and comply with the Council’s Code of Conduct.

Risk management

19. Subject to appropriate recruitment procedures and adherence to an approved Person Specification, this appointment would augment the Audit & Governance Committee’s independence, provide additional expertise and provide an opportunity for the community to play an enhanced role in the governance of the council.

September 2020

The Rt Hon Robert Jenrick MP

Secretary of State for Housing, Communities and Local Government
Ministry of Housing, Communities & Local Government
2 Marsham Street
London, SW1P 4DF

Dear Secretary of State,

In June 2019, I was asked to undertake an independent review of the effectiveness of local audit and the transparency of local authority financial reporting. I am grateful for the opportunity given to me by ministers to conduct this Review. Whilst conducting the Review my guiding principles have been accountability and transparency. How are local authorities accountable to service users and taxpayers and how are auditors accountable for the quality of their work; and how easy is it for those same individuals to understand how their local authority has performed and what assurance they can take from external audit work.

This report sets out my conclusions. It makes detailed proposals for a new organisation with the clarity of mission and purpose to act as the system leader for the local audit framework; and for a standardised statement of service information and costs, compared to the annual budget, that is aimed at taxpayers and service users.

As I conducted my work, it became clear that the local audit market is very fragile. The current fee structure does not enable auditors to fulfil the role in an entirely satisfactory way. With 40% of audits failing to meet the required deadline for report in 2018/19, this signals a serious weakness in the ability of auditors to comply with their contractual obligations. In addition, the ambition of attracting new audit firms to the local authority market has not been realised. Without prompt action to implement my recommendations, there is a significant risk that the firms currently holding local audit contracts will withdraw from the market.

It will be possible to achieve part, but only part, of what needs to be done without legislation. However, it is important to emphasise that to fully achieve the vision set out in the Review, primary legislation will be essential. Only this can give the new organisation the tools it needs to do its job and to rebuild the sustainability of the local audit market.

I should like to thank:

- First, all those stakeholders who have engaged with the Review and responded to the Review's Call for Views;
- Second, the excellent team which has supported the Review's work: Ollie Hulme, Joe Pilgrim, Beth Addison and Gareth Caller; and
- Third, all the members of the Review's advisory group: Lynn Pamment, Maggie McGhee, Professor Laurence Ferry, Catherine Frances, Vicky Rock, Richard Hornby and Mark Holmes. This formidable group provided much wise guidance and counsel, as well as lively challenge and debate, for which I am hugely grateful.

Responsibility for the Review's conclusions and recommendations, is however, mine and mine alone.

Sir Tony Redmond

Sir Tony Redmond

Contents

Executive Summary

- This Review has examined the effectiveness of local audit and its ability to demonstrate accountability for audit performance to the public. It has also considered whether the current means of reporting the Authority's annual accounts enables the public to understand this financial information and receive the appropriate assurance that the finances of the authority are sound. It is important to note that this Review encompasses not only principal local authorities but also PCCs, Fire and Rescue Authorities, Parish Councils and Meetings and Drainage Boards.

- The Review has received 156 responses to the Calls for Views and carried out more than 100 interviews. Serious concerns have been expressed regarding the state of the local audit market and the ultimate effectiveness of the work undertaken by audit firms. This is not to say that the audits are carried out unprofessionally but there remains a question of whether such audit reports deliver full assurance on the financial sustainability and value for money of every authority subject to audit. A particular feature of the evidence submitted relates to concern about the balance of price and quality in the structure of audit contracts.

- A regular occurrence in the responses to the calls for views suggests that the current fee structure does not enable auditors to fulfil the role in an entirely satisfactory way. To address this concern an increase in fees must be a consideration. With 40% of audits failing to meet the required deadline for report in 2018/19, this signals a serious weakness in the ability of auditors to comply with their contractual obligations. The current deadline should be reviewed. A revised date of 30 September gathered considerable support amongst respondents who expressed concern about this current problem. This only in part addresses the quality problem. The underlying feature of the existing framework is the absence of a body to coordinate all stages of the audit process. Although there is some scope to effect alterations to the individual roles, appropriately fulfilled with the existing framework, this would not achieve the overriding objective of providing a coherent local audit function which offers assurance to stakeholders and the public in terms of performance and accountability of the local authority and the auditor.

- Consequently, a key recommendation is to create a new regulatory body responsible for procurement, contract management, regulation, and oversight of local audit. It is recognised that the new body will liaise with the Financial Reporting Council (FRC) with regard to its role in setting auditing standards. The engagement of audit firms to perform the local audit role would be accompanied by a new price/quality regime to ensure that audits were performed by auditors who possessed the skills, expertise and experience necessary to fulfil the audit of local authorities. These auditors would be held accountable for performance by the new regulator, underpinned by the updated code of local audit practice. A further recommendation is to formalise the engagement between local audit and Inspectorates to share findings which might have relevance to the bodies concerned.

- The Regulator would be supported by a Liaison Committee comprising key stakeholders and chaired by the Ministry of Housing, Communities and Local Government (MHCLG). The new regulatory body would be small and focused and would not represent a body which has the same or similar features as the Audit Commission.

- The report recognises that local audit is subject to less critical findings in respect of audit procurement and quality relating to smaller authorities. However, the recommendations include a review by Smaller Authorities' Audit Appointments (SAAA) of current arrangements relating to the proportionality of small authority audits together with the process for managing vexatious complaints where issues have been raised by those bodies which have experienced such challenges.

- Governance in respect of the consideration and management of audit reports by authorities has also been examined in considerable detail. Based on evidence presented, there is merit in authorities examining the composition of Audit Committees in order to ensure that the required knowledge and expertise are always present when considering reports, together with the requirement that at least an annual audit report to be submitted to Full Council. This demonstrates transparency and accountability from a public perspective which is currently lacking in many authorities.

- The issue of transparency is of equal relevance to the current presentation and publication of the annual accounts. Given that the feedback from practitioners and other key stakeholders revealed that current statutory accounts prepared by local authorities are considered to be impenetrable to the public, it is recommended that a simplified statement of service information and costs is prepared by each local authority in such a way as to enable comparison with the annual budget and council tax set for the year. This would enable Council taxpayers and service users to judge the performance of the local authority for each year of account. The new statement would be prepared in addition to the statutory accounts, which could be simplified. All means of communicating such information should be explored to achieve access to all communities.

- The outcome of this Review is designed to deliver a new framework for effective local audit and an annual financial statement which enables all stakeholders to hold local authorities to account for their performance together with a robust and effective audit reporting regime.

- Aside from the additional costs arising from a fee increase, the resource implications of the new regulatory body would amount to approximately £5m per annum after taking into account the amount related to staff subject to transfer under the TUPE arrangements.

- Implementation of recommendations contained in this Review would, in part, require regulatory or legislative change but it is important to note that many of the issues identified in this report require urgent attention, given the current concerns about local audit demonstrated in this Review.

Recommendations

The recommendations of this Review are as follows:

External Audit Regulation

1. A new body, the Office of Local Audit and Regulation (OLAR), be created to manage, oversee and regulate local audit with the following key responsibilities:
    - procurement of local audit contracts;
    - producing annual reports summarising the state of local audit;
    - management of local audit contracts;
    - monitoring and review of local audit performance;
    - determining the code of local audit practice; and
    - regulating the local audit sector.

2. The current roles and responsibilities relating to local audit discharged by the:
    - Public Sector Audit Appointments (PSAA);
    - Institute of Chartered Accountants in England and Wales (ICAEW);
    - FRC/ARGA; and
    - The Comptroller and Auditor General (C&AG)

    to be transferred to the OLAR.

3. A Liaison Committee be established comprising key stakeholders and chaired by MHCLG, to receive reports from the new regulator on the development of local audit.

4. The governance arrangements within local authorities be reviewed by local councils with the purpose of:
    - an annual report being submitted to Full Council by the external auditor;
    - consideration being given to the appointment of at least one independent member, suitably qualified, to the Audit Committee; and
    - formalising the facility for the CEO, Monitoring Officer and Chief Financial Officer (CFO) to meet with the Key Audit Partner at least annually.

5. All auditors engaged in local audit be provided with the requisite skills and training to audit a local authority irrespective of seniority.

6. The current fee structure for local audit be revised to ensure that adequate resources are deployed to meet the full extent of local audit requirements.

7. That quality be consistent with the highest standards of audit within the revised fee structure. In cases where there are serious or persistent breaches of expected quality standards, OLAR has the scope to apply proportionate sanctions.

8. Statute be revised so that audit firms with the requisite capacity, skills and experience are not excluded from bidding for local audit work.

9. External Audit recognises that Internal Audit work can be a key support in appropriate circumstances where consistent with the Code of Audit Practice.

10. The deadline for publishing audited local authority accounts be revisited with a view to extending it to 30 September from 31 July each year.

11. The revised deadline for publication of audited local authority accounts be considered in consultation with NHSI(E) and DHSC, given that audit firms use the same auditors on both Local Government and Health final accounts work.

12. The external auditor be required to present an Annual Audit Report to the first Full Council meeting after 30 September each year, irrespective of whether the accounts have been certified; OLAR to decide the framework for this report.

13. The changes implemented in the 2020 Audit Code of Practice are endorsed; OLAR to undertake a post implementation review to assess whether these changes have led to more effective external audit consideration of financial resilience and value for money matters.

Smaller Authorities Audit Regulation

14. SAAA considers whether the current level of external audit work commissioned for Parish Councils, Parish Meetings and Internal Drainage Boards (IDBs) and Other Smaller Authorities is proportionate to the nature and size of such organisations.

15. SAAA and OLAR examine the current arrangements for increasing audit activities and fees if a body's turnover exceeds £6.5m.

16. SAAA reviews the current arrangements, with auditors, for managing the resource implications for persistent and vexatious complaints against Parish Councils.

Financial Resilience of local authorities

17. MHCLG reviews its current framework for seeking assurance that financial sustainability in each local authority in England is maintained.

18. Key concerns relating to service and financial viability be shared between Local Auditors and Inspectorates including Ofsted, Care Quality Commission and HMICFRS prior to completion of the external auditor's Annual Report.

Transparency of Financial Reporting

19. A standardised statement of service information and costs be prepared by each authority and be compared with the budget agreed to support the council tax/precept/levy and presented alongside the statutory accounts.

20. The standardised statement should be subject to external audit.

21. The optimum means of communicating such information to council taxpayers/service users be considered by each local authority to ensure access for all sections of the communities.

22. CIPFA/LASAAC be required to review the statutory accounts, in the light of the new requirement to prepare the standardised statement, to determine whether there is scope

to simplify the presentation of local authority accounts by removing disclosures that may no longer be considered to be necessary.

23. JPAG be required to review the Annual Governance and Accountability Return (AGAR) prepared by smaller authorities to see if it can be made more transparent to readers. In doing so the following principles should be considered:
    - Whether "Section 2 – the Accounting Statements" should be moved to the first page of the AGAR so that it is more prominent to readers;
    - Whether budgetary information along with the variance between outturn and budget should be included in the Accounting Statements; and
    - Whether the explanation of variances provided by the authority to the auditor should be disclosed in the AGAR as part of the Accounting Statements.

1. Introduction

1.1 The Local Audit and Accountability Act 2014 (the 2014 Act) introduced a new Audit regime for local government to replace the previous arrangements, under which the Audit Commission performed that role. This Review examines the effectiveness of local audit as now practised.

1.2 The purpose of the Review is to test not only the impact of external audit activity in local government but also to look, critically, at how this helps to demonstrate public accountability, particularly to service users and council taxpayers. In a similar context the brief of the Review extends to the issues of transparency in financial reporting of local authorities, with attention being directed towards whether the annual accounts and associated published financial information can be readily understood by the public.

1.3 The framework for local audit encompasses procurement, contract management and delivery, the code of audit practice and regulation and accountability for performance. All of these aspects of local audit have been examined in depth. Whilst the focus of this Review is on local audit and public accountability there are a number of related factors which have contributed to the shape and nature of the findings. Such matters include: the breadth and complexity of International Financial Reporting Standards (IFRS); the role of the sponsoring department (MHCLG); and the current state of the local audit market. Local authorities include Councils, Police and Crime Commissioners (PCCs), Fire and Rescue Authorities (FRAs), and National Parks Authorities. NHS bodies are not local authorities and are outside the scope of this Review.

1.4 It is also important to emphasise that the Review includes the functions of Police and Fire Services as well as Parish Councils and Drainage Boards and due regard has been paid to the specific requirements of these bodies, as appropriate.

1.5 Substantial evidence has been collated from the ‘Call for Views’ and individual stakeholder meetings and this has formed the basis of the Report’s findings. The co-operation received from all interested parties including local government practitioners, audit firms, professional accounting bodies, academia and the media and the general public has been much appreciated. All parties who have participated in the Review share a desire to ensure local audit is effective and that public accountability is seen to be achieved. The approach to the Review has sought to harness those valuable contributions.

1.6 Attention has been paid to the findings of the Brydon and Kingman Reviews as well as the study carried out by the Competition and Markets Authority (CMA). Each of these reviews offers an insight into the principles and practices of auditors in the corporate sector, which have relevance to the public sector, including local government.

1.7 While testing the quality of outcomes has been a key feature of this approach, attention has been directed towards the governance arrangements in the way in which audit reports are managed and reported. The focus here has been on the level of public awareness of audit findings. Current practices relating to the annual publication of financial information have also been reviewed with an emphasis on the transparency, access and intelligibility of such reports.

1.8 In examining options for change to the current local audit arrangements, account has also been taken of the potential resource implications of any new initiative or development contained in the recommendations.

Sir Tony Redmond

Sir Tony Redmond

2. The direction and regulation of local audit

2.1 Introduction

2.1.1 The direction and regulation of local audit must be structured as to enable public accountability to be served. Each stage of the local audit process must adhere to this and remain consistent throughout. Ultimately, the direction and regulation of audit must be coherent, consistent in quality monitoring and fulfil the public accountability principle. The test, therefore, is whether the current arrangements deliver that, or can be altered to achieve that, or whether a new structure for the local audit regulatory framework needs to be put in place.

2.1.2 Public Interest Reports may be seen as relating to the local community's serious concern, but these are rarely used. In any event, council taxpayers are entitled to know the outcome of the annual statutory audit whether it be positive or negative.

2.2 Overview of the Regulatory Framework

2.2.1 The 2014 Act split the responsibilities formerly carried out by the Audit Commission between a range of bodies. **Figure 2.1** summarises the entities that have a significant role or influence on the accounting, audit and governance framework within which local authorities operate.

2.2.2 Currently there are six different entities with a statutory role in overseeing and/or regulating elements of the local authority accounting and audit framework. This framework is further complicated by the fact that different elements apply to different sectors. The elements of the audit framework undertaken by the C&AG, FRC and the ICAEW apply jointly to the local authorities and NHS bodies in England. However, whereas PSAA is the appointing body for 98% of local authority audits, NHS bodies do not have an appointing body and as such appoint their own auditors. By comparison the accounting framework applies to local authorities in England, Scotland, Wales and Northern Ireland, but not to the NHS.

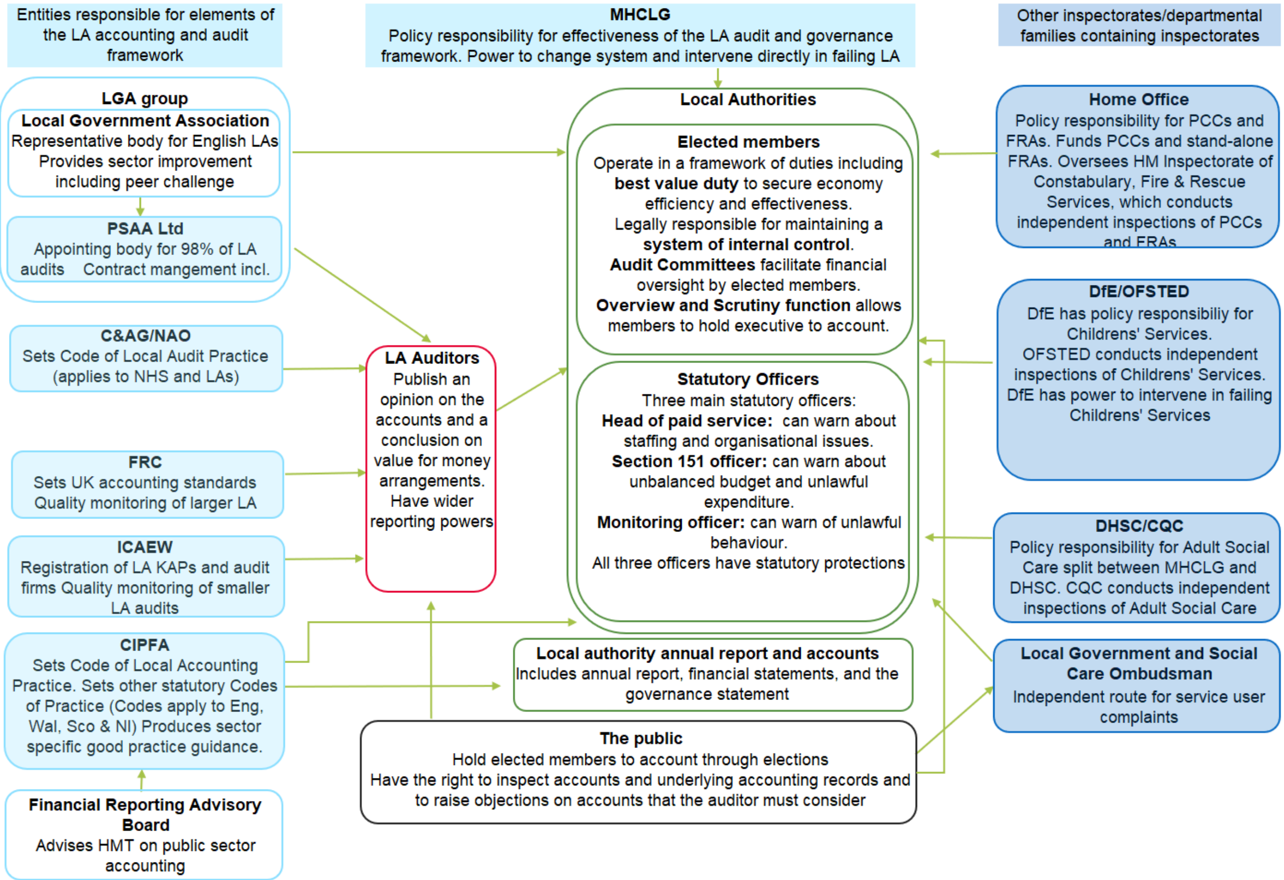
2.2.3 Another challenge is that the local authority sector is not the main focus for some of the regulatory bodies; specifically:

- The C&AG and National Audit Office's (NAO's) responsibilities relate mainly to holding central government departments to account on behalf of Parliament.
- The vast majority of the FRC's and the ICAEW's work relates to the private sector, and in the FRC's case, to regulating the audit and corporate governance arrangements within listed companies known as Public Interest Entities ("PIEs").

2.2.4 Finally, none of the six entities with responsibility for the different elements of the framework has a statutory responsibility, either to act as a system leader or to make sure that the framework operates in a joined-up and coherent manner. Although various ad hoc forums have been set up to share information, it is not clear how the membership and remit of these has been agreed. As a result, the lack of co-ordination and the lack of a system leader is widely recognised as a weakness in the framework by most of the stakeholder groups.

Figure 2.1

The Local Authority Governance, Audit and Accounting Framework 2018-19



Notes

1. Adapted from Figure 1 in NAO report *Local Authority Governance* (Jan 2019)
2. There are other statutory officers in local authorities, but between them, the three listed have overall responsibility for effective goverance
3. Arrows show the influences on local authority governance arrangements
4. In a Police and Crime Commissioner or Fire and Rescue Authority, the Commissioner is the sole elected member; in a Mayoral Combined Authority, the mayor is the sole
5. Audit Committees are mandatory in PCCs, stand-alone FRAs and mayoral combined authorities. They are not mandatory for other LAs.
6. ICAS also has the power to act as a registering body for KAPs and audit firms. However, following mergers, no firms active in England are currently registered with ICAS.
7. MHCLG part funds the LGA's sector improvement work

2.3 Functions of the bodies responsible for the framework

PSAA Ltd

2.3.1 One of the original objectives behind the 2014 Act was to widen participation in the local audit market by allowing local authorities to appoint their own auditors. Once the Act had passed, it became clear that the auditor appointment provisions in the 2014 Act were onerous and there was little appetite amongst local authorities to appoint their own auditors. As a result, MHCLG ran a tender exercise to identify an entity which would act as an appointing person for local authority audits.

2.3.2 PSAA, a new company set up by the Local Government Association (LGA), was the only bidder and accordingly was designated as an appointing person under legislation. Under the transitional arrangements, PSAA was given the responsibility of managing the framework contracts let by the Audit Commission in 2012 and 2014, and during the period to 2017-18 producing a report summarising the results of local authority and NHS audits.

2.3.3 Category 1 Authorities[1] were given the choice of opting in or out of the PSAA arrangements. Most (currently 98%) chose to opt in.

2.3.4 In 2017 PSAA let the new local audit framework contracts, active from the 2018-19 financial year. PSAA's current responsibilities[2] are:

- To perform the functions of an appointing person for local authority audits;
- To take steps to ensure that public money is properly accounted for and protected;
- To oversee the delivery of consistent high quality and effective audit services; and
- To ensure effective management of audit contracts.

More detail on the contracting process and on audit quality is contained in **Chapters 3 and 4** respectively.

The C&AG and the NAO

2.3.5 The C&AG is responsible for laying the Code of Local Audit Practice in Parliament. The C&AG is supported in this work by a small Local Audit Code and Guidance (LACG) team, which is part of the NAO. The LACG team is responsible for the preparation, maintenance and publication of the C&AG's Code of Audit Practice and supporting guidance to auditors. LACG undertakes the full range of activities associated with these responsibilities including:

- providing a point of contact to address significant issues raised by auditors and other stakeholders that may require the update of the Code of Audit Practice or issuing guidance to auditors; and
- facilitating timely engagement with, and advice to, auditors and other stakeholders to facilitate consistency of approach on significant issues – for example, through convening and providing secretariat support to a Local Auditors Advisory Group.

2.3.6 The 2014 Act provides the C&AG with the power to issue guidance to auditors which may explain or supplement the provisions of the Code of Audit Practice. The Act requires auditors to have regard to such guidance. The NAO maintains a series of Auditor Guidance Notes (AGNs) to support auditors in their work and facilitate consistency of approach between auditors of the same types of entity. The 2015 Code is supplemented by seven AGNs. These apply equally across local government and the NHS. The AGN on value for money arrangements is supplemented by sector specific supporting information.

2.3.7 The 2014 Act gives the C&AG the responsibility for undertaking value for money investigations on local government. However, the C&AG does not have the power to make recommendations directly to local authorities. This means that when a value for money study finds that one or more local authorities have breached either the letter or the spirit of the statutory framework, the accompanying recommendations must be addressed to MHCLG or Treasury, if they relate to the Public Works Loan Board, as the responsible central government departments.

[1] "Category 1 authority" means a relevant authority that either— (a) is not a smaller authority; or (b) is a smaller authority that has chosen to prepare its accounts for the purpose of a full audit in accordance with regulation 8 of the Smaller Authorities Regulations
https://www.legislation.gov.uk/uksi/2015/234/pdfs/uksi_20150234_en.pdf

2.3.8 The main roles of the C&AG and the NAO are to support Parliament in holding government to account, through auditing the accounts of government departments and arms-length bodies and undertaking value for money investigations. When the NAO undertook the 2019 study on Local Authority Governance, which included work on local authority audit, the team did not include the Audit Code within the scope of the review. This was to avoid the risk of self-review. As a result, the findings of that report could not take account of an element of the governance framework.

The Financial Reporting Council

2.3.9 The FRC is responsible for issuing standards and guidance to auditors for use in the UK. The suite of standards is known as *International Standards on Auditing (UK)*, and apply equally to audits of local authorities and entities in other sectors.

2.3.10 During the transitional arrangements operating from 2015-16 to 2017-18, the FRC had no formal responsibility for assessing the quality of local authority audit. PSAA took the decision to contract the FRC to undertake six quality assurance reviews of local authority audits, with coverage of at least one from each firm. In practice, the FRC conducted quality assurance reviews of seven audits in both 2016-17 and in 2017-18. This is because the FRC's methodology requires them to re-review all audits that received an unsatisfactory quality assurance review score in the prior year. The results of these quality reviews are discussed in **Chapter 4**.

2.3.11 From 2018-19, the FRC has taken on statutory responsibility for quality assurance reviews of the 230 larger local authority audits. It treats the NHS and local government bodies as a single population and, to maintain equivalence with their coverage of the audit of PIEs, look to cover at least 5% of that population in each year. For 2018-19, the sample included 3 NHS bodies and 12 local authorities. Because some of the audits originally selected for quality review were not complete when the FRCs Audit Quality Review team conducted its fieldwork, these had to be replaced with other audits. The results of the 2018-19 quality assurance reviews are expected to be available in the Autumn of 2020.

2.3.12 The methodology adopted for quality assuring audits in local authority sector is broadly equivalent to that of the Public Interest Entities sector. The review team focuses on what is on the audit file and assesses the extent to which that complies with the applicable quality framework. The document review is supplemented by meetings with the audit team and the Chair of the Audit Committee.

2.3.13 Formal client communications are included within the scope of the quality review. However, ongoing liaison between auditors and local authorities would be assessed only if included on the audit file.

2.3.14 Unlike for PIE audits, the FRC does not have the power to fine audit firms if the quality of their local authority audits proves to be deficient. However, all of the firms active in the market indicated that they are very conscious of the reputational damage of a poor rating from the FRC for one of their local authority audits.

2.3.15 FRC is of the view that the perception that it focuses mainly on asset valuations understates the scope of their quality reviews. It also believes that if a focus on asset and pension valuations is inappropriate, this is the responsibility of the partnership between CIPFA (England, Northern Ireland and Wales) and the Local Authority (Scotland) Accounts Advisory Committee (LASAAC) known as CIPFA/LASAAC to resolve, through modifications to the Accounting Code.

2.3.16 The FRC is in the process of being reconstituted as the Audit Reporting and Governance Authority (ARGA) in line with the recommendations made in the Kingman Review. Sir Donald Brydon also recently published a report that made a number of recommendations to develop corporate auditing as a profession. As the FRC and the Department for Business, Energy & Industrial Strategy (BEIS) consider these recommendations, there is a risk of divergence between the focus and methodologies used to quality assure external audit engagements. Managing this interaction will require ongoing engagement.

ICAEW

2.3.17 The ICAEW has two statutory functions. Since 2015 it has been responsible for maintaining the register of audit firms and Key Audit Partners (KAP) authorised to sign off local authority audits; and since 2018-19 it has been responsible for quality assurance reviews of the 313 smaller local authority audits. The framework for approving firms and partners is tightly controlled by legislation.

2.3.18 Like the FRC, the ICAEW treats local authorities and NHS bodies as a single population for quality assurance review purposes. The 2018-19 quality assurance process is ongoing. ICAEW has selected 15 audits for quality assurance review, split roughly two thirds local government and one third health. The results of this quality assurance review process are not yet available.

2.3.19 Similarly to the FRC, the ICAEW quality assurance reviews focus on what is on the audit file and assesses the extent to which that complies with the applicable quality framework. The methodology used to assess the audits of English local authorities is the same as is used to assess audits undertaken by the Auditor General for Wales. This methodology does not require review teams to meet with Audit Committee chairs. As with the FRC, the ICAEW does not have any powers to fine or otherwise sanction auditors whose audits do not meet appropriate quality standards.

2.3.20 ICAEW and the FRC liaise to make sure that all audits fall within one or other of their sample populations and use, broadly, the same quality ratings. Both use well established methodologies to arrive at those ratings.

CIPFA

2.3.21 CIPFA has a dual role. It has been given the statutory responsibility for producing many of the finance related codes of practice that local authorities are required to observe. At the same time, it is a professional institute that represents the majority of accountants working in the local government sector, including most CFOs.

2.3.22 The Accounting Code is prepared by a small secretariat employed by CIPFA who report to the CIPFA/LASAAC Accounting Code Board ("CIPFA/LASAAC"). CIPFA/LASAAC is responsible for preparing, maintaining, developing and issuing the Code of Practice on Local Authority Accounting for the United Kingdom. Its membership primarily comprises accounts preparers representing the different types of authorities in England, Scotland, Wales and Northern Ireland, the Supreme Audit Institutions, and a representative of one of the external audit firms active in the sector in England. The FRC along with representatives of MHCLG and the Scottish, Welsh and Northern Irish governments have observer status on CIPFA/LASAAC.

2.3.23 In England CIPFA/LASAAC is supported by a CIPFA facilitated Local Authority Accounting Panel, which focuses on local government accounting and financial reporting issues and produces guidance for practitioners.

2.3.24 The Accounting Code could be characterised as long and complex. Part of the reason for this is the challenge of writing a Code that covers four countries, each of which has its individual statutory framework with a different set of statutory adjustments and disclosures. In addition to this, CIPFA has taken the decision to draft a highly prescriptive Code that provides detailed guidance on the correct accounting for each class of transactions. An alternative approach would be to draft a principles-based Code, which requires local authorities to comply with generally accepted accounting practice ("GAAP") and only provides detailed guidance where GAAP is adapted or interpreted, specifically for the local authority context. **Chapter 7** covers the accounting framework in more detail.

Assessment of whether an existing body could act as the system leader

2.3.25 The detailed analysis of the bodies responsible for the framework supports the conclusion reached in Sir John Kingman's Independent Review of the Financial Reporting Council:

"*The structure is fragmented and piecemeal. Public sector specialist expertise is now dispersed around different bodies. The structure means also that no one body is looking for systemic problems, and there is no apparent co-ordination between parties to determine and act on emerging risks*"[2]

2.3.26 The Kingman Review recommended that the fragmented structure be resolved by designating a single body as the system leader. When asked whether an existing body or a new body would be best placed to take on the role of a system leader, 82% of respondents expressed a preference for a single regulatory body. Many stakeholders who were interviewed also agreed. The other suggestions made were either that the C&AG or the FRC should take the role of system leader.

2.3.27 The C&AG clearly has the relevant experience and expertise to take on such a role. However, taking on responsibility for an element of a framework that is the policy responsibility of a government department could significantly increase the risk of a conflict of interest with the C&AG's main responsibility, which, as already stated, is to hold government departments to account on behalf of Parliament.

[2] https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/767387/frc-independent-review-final-report.pdf

2.3.28 As the regulator for the audit profession in the UK, the FRC will continue to have an important role in setting standards for all external auditors, including those working in local public audit. However, the FRC's main focus is corporate sector external audit, and to be fully effective the system leader for local public audit will need to demonstrate detailed expertise and a clear focus on that sector.

2.4 Interactions with other inspectorates

2.4.1 There are a number of other inspectorates who cover the local authority sector. Ofsted and the CQC assess the effectiveness of children's services and adult social care respectively in authorities with those statutory responsibilities; HM Inspectorate of the Constabulary and Fire and Rescue Services (HMICFRS) undertakes independent inspections of PCCs and FRAs covering both service delivery and financial planning; the Local Government and Social Care Ombudsman (LGSCO) looks at individual complaints against councils, all adult social care providers in both public and private sector, FRAs, and some other organisations providing local public services; and the Independent Office for Police Conduct performs the same function for PCCs.

2.4.2 Evidence suggests that where a local authority receives an "Inadequate" rating for its children's services, the auditor as a general rule qualifies the value for money conclusion. For example; when PSAA published its summary report on the results of 2017-18 audit work, it listed 32 qualified Value for Money (VfM) opinions; half of these were due to an "inadequate" Ofsted rating[3]. The auditor's value for money conclusion remains qualified until a future Ofsted inspection finds that children's services are no longer "Inadequate". Local authorities questioned the benefits of including Ofsted judgements in the audit report. The circumstances supporting an "inadequate" Ofsted rating are fully explained in a detailed and publicly available report. In the light of this there is a question as to how qualifying the VfM opinion solely for this reason fully reflects the governance arrangements within the authority that could be brought to the attention of elected representatives and other key stakeholders. When asked whether a value for money opinion should be qualified solely because a local authority has received an inadequate Ofsted opinion or a similar opinion from another inspectorate, 97% of respondents thought that it should not. There is no evidence of reports by other inspectorates leading to modifications to the auditor's opinion.

2.4.3 We have been told by external audit firms and local authorities that external auditors utilise inspectorate reports on a case by case basis. There is little evidence of any additional dialogue between external audit and other inspectorates to discuss inspectorate reports or take into consideration any improvements that a local authority may have made since an inspectorate rating had been issued. This is a change from practice since prior to 2015, where external auditors and inspectorates liaised much more frequently. Whilst external audit firms were broadly in agreement that there should be engagement with inspectorates, many felt that the current arrangements were sufficient.

[3] Report on the results of auditor's work (Oct 2018) – list of qualified opinions will not include LAs where the 2017-18 audit was concluded after the PSAA report was published.

2.4.4 Whilst recognising that each inspectorate focuses on a different area, there is a question as to whether more liaison may add value. Many examples of service delivery and financial failures are underpinned by weaknesses in governance and senior leadership. Given this, it may be valuable for the auditor or an inspector that has concerns, to find out if those concerns are reflected in other areas of a local authority's business or indicative of wider financial resilience issues.

2.5 The role of MHCLG

2.5.1 The Ministry of Housing, Communities and Local Government (MCHLG) has a statutory role in regulating and monitoring the financing and service delivery of local government. The Accounting Officer within the Department has responsibility for overall expenditure control within local authorities given the funding regime under which the sector operates. In addition, he has policy responsibility for the effective operation of the local authority audit and accounting framework.

2.5.2 Support to the Accounting Officer in fulfilling these responsibilities is split between two directorates:

- Local Government Finance; and
- Local Government and Communities (formerly Local Government Policy)

Local Government Finance

2.5.3 This Directorate covers payments to local authorities through the grant system, has responsibility for business rates and council tax policy, oversees borrowing, capital and fiscal arrangements and is responsible for assessing the financial sustainability of local government. When a local authority experiences financial difficulty, it is the Local Government Finance Directorate that usually leads the government response. It also provides the MHCLG representation on CIPFA's accounting panels.

Local Government and Communities

2.5.4 This Directorate has overall responsibility for MHCLG's local government assurance framework as set out in the Accounting Officer's system statement. Regular advice is given to the Accounting Officer on whether the framework for which he is responsible is operating effectively.

2.5.5 The directorate includes a team that maintains a view of local authorities where concerns exist about financial resilience, service delivery or officer/member conduct issues. In appropriate circumstances this may lead to statutory interventions into local authorities or, alternatively, statutory support. Qualified audit opinions are considered a part of this view.

2.5.6 Another team has responsibility for the local audit policy framework, the 2014 Act and the Accounts and Regulations 2015, managing relationships with PSAA, SAAA, NAO, ICAEW, Institute of Chartered Accountants of Scotland (ICAS) and FRC insofar as their activities relate to the local audit framework and logging Public Interest Reports.

2.5.7 In 2014 the team responsible for local audit set up a Local Audit Delivery Board to support implementation of the 2014 Act. In 2018, it became the Local Audit Monitoring

Board, with revised terms of reference and expanded membership. The Board comprises representatives of relevant departments and framework bodies to facilitate sharing of information about the operation of the framework. This Board is a consultative body, that holds meetings in private and has no formal powers or remit.

2.5.8 In viewing these roles from a local authority perspective, it is clear that MHCLG provides a national oversight of the financing of local government, capital and revenue spending, accounting arrangements and financial resilience. This work is substantial and seeks to offer assurance regarding the financial stability of individual local authorities and it includes, within its brief, responsibility for testing adherence to legislation and regulations governing local audit.

2.5.9 The responsibility for regulating local audit sits elsewhere yet MHCLG has a key role in offering assurance about the financial health of local authorities. The intelligence network and information flow relating to accounting and audit reporting on financial sustainability should reach MHCLG in a structured, timely and coordinated fashion. Given the strategic roles that the Department and The Accounting Officer carry it is crucial that systems and procedures are in place to enable this to happen. Clarity, coherence and consistency in fulfilling the Department's role are key to helping to ensure effective local audit.

3. Procurement of local audit

3.1 Statutory framework and eligibility criteria

3.1.1 In order to bid for a local authority audit, both audit firms and every individual responsible for signing off an audit opinion, typically but not always a KAP, needs to be pre-approved either by ICAEW or ICAS. Eligibility criteria are set out in Schedule 5 to the 2014 Act. These criteria stipulate that it is impossible to bid for local authority audits unless both the firm and each nominated KAP has recent experience of undertaking local authority audits. It is difficult for new entrants to enter the local authority market as a consequence of these criteria as audit firms not currently in the market are unable to gain the relative knowledge and expertise that would be required to become a KAP.

3.1.2 Despite the high barriers to entry, since 2016 there has been a 7% increase in the number of KAPs eligible to sign off local authority Audits. Firms active in the market continue to register new KAPs. 39% of KAPs currently registered were not KAPs in 2016, with the firms with a smaller market share being responsible for much of this increase. However, the headline KAP figure is slightly misleading. The number of KAPs has declined by 13% once those who are working for firms who do not currently hold contracts with PSAA are excluded.

Figure 3.1

Number of Key Audit Partners registered with ICAEW

Firm	2016	2020
BDO	5	7
EY	13	16
GT	32	26
Mazars	4	10
KPMG	22	23
Deloitte	6	8
Total KAPs (Firms holding contracts with PSAA)	76*	67*
Cardens	0	1
Moore Stephens	2	0
PWC	12	9
Scott-Moncrieff	0	3
Total KAPs	96	103

** Deloitte did not hold any PSAA contracts in 2016. KMPG does not currently hold any PSAA contracts.*

3.1.3 There is a risk that the Competition and Markets Authority: Statutory Audit Services Market Study[4] recommendation to implement an operational split between the Big Four's audit and non-audit businesses, to ensure maximum focus on audit quality will further reduce the number of KAPs qualified to sign off local authority audits. KAPs may be responsible for a mixture of external audit, internal audit and consultancy engagements. If required to choose between specialisms, there is, of course, no guarantee that they will opt for external audit.

[4] See Annex 5 for a more detailed analysis of the potential impacts of the CMA, Kingman and Brydon recommendations for local audit.

3.2 The 2017 procurement process

3.2.1 As detailed in **Chapter 2**, PSAA took over the administration of the bulk audit contracts let by the Audit Commission in 2014. These ran from 2015-16 to 2017-18. They comprised five lots let on a regional basis. In 2017 PSAA ran a new procurement to contract for local authority audits for the period 2018-19 to 2022-23.

3.2.2 PSAA chose to split lots by market share rather than on a regional basis. The reason for this was a concern that some regions could prove less popular with bidders than others. They also checked for potential conflicts of interest. Five lots comprising between 40% and 5% of the total market were let, each for a period of five years. No firm could win more than one lot. A sixth lot with no guaranteed work was let, with the aim of providing some resilience in the market.

3.2.3 Local authorities were notified of the lot to which they had been allocated and were given the opportunity to request transfer to a different lot; for example, if they were in a shared service arrangement with an authority in a different lot. Seven local authorities asked for their audit to be transferred to a different lot. Five of these requests were accepted.

3.2.4 Of the nine firms registered to undertake local authority audits seven bid for one or more lots. One firm decided not to bid and a second was excluded from the bidding process by PSAA because it felt the firm was too small to have a realistic chance of submitting a competitive bid.

3.2.5 Assessment of audit firms was split 50:50 between price and quality, compared to the final Audit Commission procurement which was done on a price quality ratio of 60:40. The team assessing quality scores was not given sight of the price each firm had bid. In addition, PSAA asked an ex-District Auditor working for the LGA to quality assure the assessors' quality scores. The assessment of quality was based solely on the tender documents submitted. Past performance was not considered.

3.2.6 One of the firms bid at a much higher price point than the other firms. This generated such a low "price" score that it was effectively impossible for its quality score to make up sufficient difference to win a lot.

3.2.7 Although the headline quality price ratio was 50:50, as highlighted in **Figure 3.2**, many of the questions included in the quality score do not directly relate to factors impacting audit quality.

3.2.8 Four firms bid for the largest two lots (including the firm who priced themselves out of the market); and six for the remaining four lots. Each successful firm was eliminated from consideration for each smaller lot, leaving only two firms from which to choose when awarding Lot 5.

3.2.9 After excluding the firm that priced itself out of the market, the firms awarded the five contracts were those with the highest quality scores. The firm with the highest quality score won the largest lot; the second highest quality score the second highest lot; and there was a marginal difference between the quality scores for the other successful firms.

Figure 3.2: Audit Quality Questions – PSAA tender document

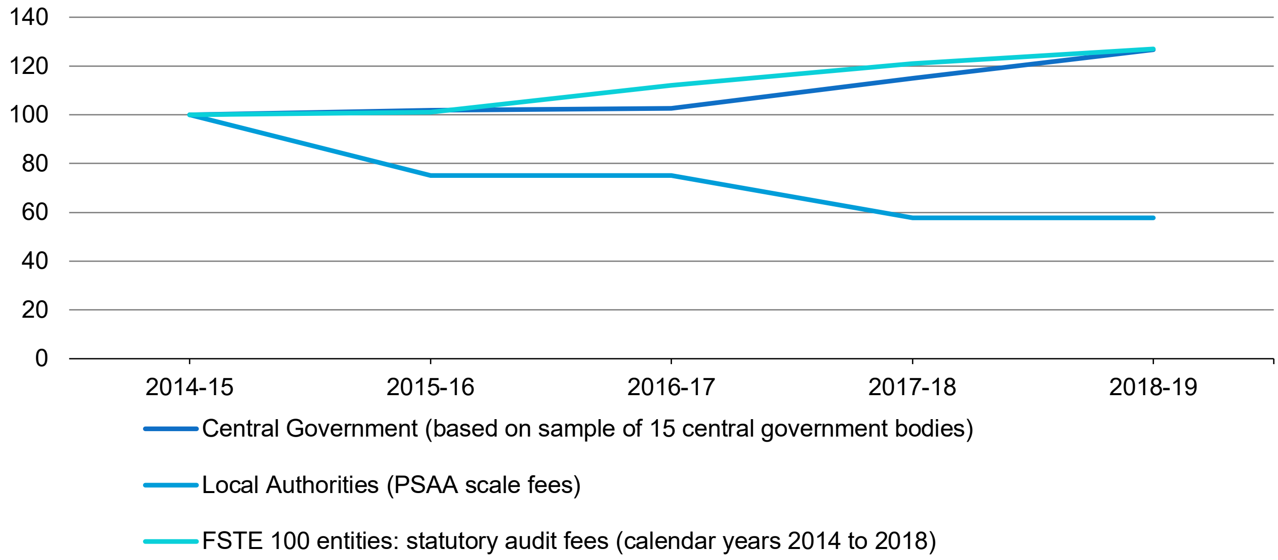
Question number	Question	Weighting	Maximum weighted score
1.1 and 1.2	Confirmation of information in SQ Response; and other declarations; Guarantee (if applicable) and completed, unqualified Form of Tender	N/A	N/A
2.1	Identifying and addressing risks and issues and engaging with different stakeholders	0.5	5
2.2	Continuing professional development	0.2	2
3.1	Providing a clearly articulated audit plan to address the risks identified, and arrangements for carrying out the planned work effectively	1	10
3.2	Information assurance	N/A	N/A
4.1	Quality assurance arrangements to ensure that local audits are undertaken to a consistently high standard	0.6	6
5.1	Schedule of staff	N/A	N/A
5.2	Details of resourcing	0.5	5
5.3	Details and role of Contact Partner	0.3	3
6.1	Selection of a team to work on an individual audit	0.5	5
6.2	Arrangements for discharging statutory reporting responsibilities under the Local Audit and Accountability Act 2014, managing authority and public expectations	0.4	4
7.1	Arrangements to ensure a smooth transition for audits of local government bodies transferring between audit firms	0.5	5
8.1	Opportunities to be commenced and completed	0.3	3
8.2	Other economic, social and environmental initiatives to be undertaken	0.2	2
Overall quality score			50
Price	Ranking of Bid Rate %	1	50%
Overall score (quality and price combined)			

Questions 2.1, 3.1 and 4.1 are direct indicators of quality.

3.2.10 Lot six was designed to provide spare capacity in the market. However, this has not worked as intended, in part because mergers mean that the firm that won Lot 6 no longer exists.

3.2.11 As demonstrated by **Figure 3.3**, audit fees in the local authority sector have dropped significantly at the same time that audit fees in other sectors have significantly risen. As well as the overall external audit fee paid by the sector declining in cash terms it has also dropped as a percentage of net current expenditure of local authorities, from 0.05% in 2014-15 to 0.04% in 2018-19. Within the sector there are further variations with PCCs and Local Authority Pension Funds typically paying much lower audit fees as a percentage of net expenditure than other types of local authorities.

Figure 3.3
Sector by sector comparison of change in audit fees over time



Notes

1 2014/15 base 100

3.3 Translating bids into audit fees paid by LAs

3.3.1 PSAA told the Review that the scale fee paid by individual LAs under the current contracts has been calculated by taking the total annual fee paid to external auditors under the contract and adding PSAA's margin; comparing the total amount paid to the total amount paid under the 2014 contracting process; and applying the percentage reduction in total amount paid equally across all local authority audits.

3.3.2 The Audit Commission adopted the same approach for allocating fees to individual local authorities when it let the 2012 and 2014 contracts. This means that no assessment of the amount it would cost to audit each local authority based on their level of audit risk has been made in the past ten years.

3.3.3 Since 2010, there have been changes to the major powers and duties of local authorities and to the business environment within which they operate. Individual local authorities will have been impacted by these changes to differing extents. As a result, there is no guarantee that the fee paid by each local authority accurately reflects the risk profile or amount of audit work required for their external audit.

3.3.4 88% of local authorities who responded to the Call for Views think that the current procurement process does not drive the right balance between cost reduction, quality of work, volume of external auditors and mix of staff undertaking the work.

3.3.5 Audit fees for those local authorities who have opted out of the PSAA arrangements have changed in a way similar to fees for those who have opted in.

3.4 Fee variations and contract management

3.4.1 When an auditor requests a fee variation, this must be agreed by PSAA[5]. In practice, PSAA may challenge fee variations by asking for more information from the firm but expects the auditor and the local authority to come to an agreement as to the additional fee to be paid. PSAA records and monitors this activity. It may also facilitate a conversation between the auditor and local authority in the case of disagreement.

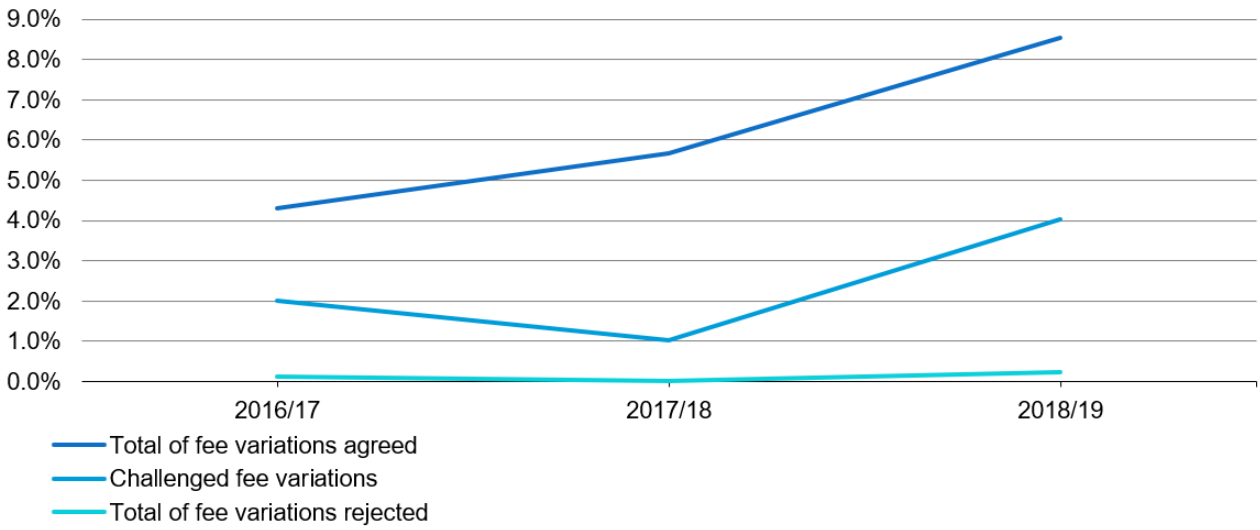
3.4.2 As demonstrated by **Figure 3.4** the number and size of fee variation requests have increased over time. Fee variation requests are often received some months after audits are completed, which means it is difficult to assess the true level of fees paid by the sector. As delayed audits are more likely to generate issues that require more work and thereby attract fee variations, and some firms are not always prompt in submitting fee variations, there are likely to be some requests outstanding relating to 2017-18 and 2018-19 audits.

3.4.3 Audit firms consider the fee variation process to be unsatisfactory. They have raised concerns that the scope to claim fee variations is not sufficient to meet their costs. Increasing the scale fee, to reflect changes in regulatory requirements is for practical purposes not possible under the current arrangements.

3.4.4 The majority of local authorities' representatives who offered a view on fee variations also considered them to be unsatisfactory. A concern, which has been raised by a not insignificant number of authorities, is the fact that fee variation requests are not always supported by any evidence of additional work done. Some local authorities passed examples to the Review of auditors, representing more than one audit firm, refusing to provide evidence to support a requested fee variation.

Figure 3.4

Fee variations as a percentage of total scale fees



Notes

1 Transitional arrangements in 2016-17 & 2017-18, PSAA contract in 2018-19.

2 Some fee variation requests for 2018-19 audits still to be received and agreed.

[5] https://www.psaa.co.uk/wp-content/uploads/2019/12/PSAA-fee-variation-process.pdf

3.4.5 Some local authorities questioned why they have been asked to join a call with a significant number of a firm’s technical experts, most of whom do not contribute to the discussion, when they need to resolve technical accounting issues. They have questioned whether the costs of these calls are factored into later fee variation requests.

3.4.6 Fee variations can be submitted at any time which increases uncertainty for local authorities. In addition, some local authorities have claimed that they were led to believe by their auditors that they would refuse to sign off their accounts until they agreed a fee variation.

3.4.7 Finally, some authorities have also claimed that they are being asked to fund the costs of additional audit fieldwork because auditors have not resourced the planned audit visit properly and as a result, need to conduct additional audit testing. It has not been possible to assess whether this is happening or how widespread is the practice.

3.4.8 For the 2019-20 audit cycle, PSAA has taken steps to manage fee variations more proactively. Rather than wait for fee variations to be submitted, PSAA has asked all of the firms active in the market to estimate the additional fee required to ensure that their audit work and audit files meet current quality standards. Four of the firms have suggested that an increase of between 15% to 25% on the scale fee is required with the fifth firm requesting an increase of 100% on the scale fee. PSAA informed local authorities that it expects audit firms to provide fee variation information at the earliest possible opportunity, and that PSAA has emphasised this to the firms in its recent auditor communications. PSAA is currently in the process of reviewing how each firm’s standard audit testing programmes have changed over the past three audit cycles to identify whether the increases requested are justified. PSAA will use this work to enable it to provide reassurance to audited bodies that extra work has been validated.

3.4.9 Some local authorities have suggested that PSAA has an incentive to approve fee variations as they are funded through making a margin on audit fees. This is not correct. Because PSAA calculates its margin on a total system cost, it is not possible for local authorities to calculate how much of each audit fee or fee variation is due to PSAA. However, as a not for profit company, PSAA has no incentive to claim more funding than it is entitled to. The company's Articles of Association requires PSAA to return surpluses to the sector. In late 2019, under the transitional arrangement, a distribution of the surplus funds of £3,500,000 (9.3% of the 17-18 scale fee £37.6m) was approved by the Board to be returned to the sector, apportioned between local authorities on a scale fee basis. This might be interpreted as an effective transfer of funds from LAs charged fee variations to those who have not been charged variations.

3.4.10 Some LAs have stated through interviews, that PSAA’s role is opaque and that they feel that they have no route to challenge audit fees that they feel are unfair or to raise concerns relating to poor quality or delayed audits. The contract provides no mechanism for individual LAs to complain about the service they receive from their auditors.

3.4.11 PSAA states that its role as defined under statute does not include active contract management and it does not currently have the expertise to do so. However, in the *Local Audit (Appointing Person) Regulations 2015* the additional functions of appointing person include requirements to:

"monitor compliance by a local auditor against the contractual obligations in an audit contract… [and] resolve disputes or complaints from— (aa)local auditors, opted in authorities and local government electors relating to audit contracts and the carrying out of audit work by auditors it has appointed."[6]

3.4.12 During the transitional period implementing the new arrangements (2015-16 to 2017-18), there was a Memorandum of Understanding (MoU) between MHCLG and PSAA, which required PSAA to fulfil its statutory functions. When the MoU expired MHCLG did not renew it.

4. Audit performance

4.1 Introduction to local authority audit

4.1.1 Auditors of local authorities provide two audit opinions. These are:

- A financial audit opinion; and
- An opinion on the effectiveness of the systems in place to meet the best value duty (known as the 'value for money' opinion).

Scope of financial audit opinion

4.1.2 The purpose of a financial audit is to form an opinion on a set of financial statements. Financial audits are required to be conducted in accordance with International Standards on Auditing – UK (ISAs). The auditor is required to certify whether the financial statements are free from *material* misstatement and are properly prepared in accordance with the relevant accounting and legislative framework. For local authorities, the relevant accounting framework is the Code of Accounting Practice prepared by CIPFA.

4.1.3 In a local authority context, the audit opinion covers the financial statements, the Collection Fund Account and the Housing Revenue Account. It does not cover the narrative statement or annual governance statement. These are covered by what is known as a 'negative assurance' or 'consistent with' opinion. The auditor is required to read these statements to confirm that there is nothing inconsistent or misleading based on what is reported in the accounts and their understanding of the business. If these statements contain information which is misleading or inconsistent, auditors should insist that the relevant sections are appropriately reworded or removed. If not, no further work is required.

4.1.4 Materiality is a key concept in financial audits. Errors or misstatements are material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions that users take on the basis of the financial statements. Auditors are not required to take account of individual users, but do need to assess them as a group.

4.1.5 Auditors do not test every transaction supporting a set of financial statements. Instead they split the financial statements into groups of transactions with similar characteristics and assess the risks of material misstatement for each. The amount and types of audit testing for each of these areas is informed by this risk assessment.

4.1.6 It therefore follows that the key factors in delivering a quality audit are understanding the needs of the users of the accounts; and undertaking an effective risk assessment informed by a proper awareness of the business.

Scope of value for money opinion

4.1.7 The framework for the value for money opinion is set out in the NAO's Statutory Code of Audit Practice, published in April 2015.[7] ISAs do not apply to VfM audits.

[7] https://www.nao.org.uk/code-audit-practice/wp-content/uploads/sites/29/2015/03/Final-Code-of-Audit-Practice.pdf

4.1.8 The 2015 Audit Code requires auditors to:
"undertake sufficient work to be able to satisfy themselves as to whether, in the auditor's view, the audited body has put arrangements in place that support the achievement of value for money. In carrying out this work, the auditor is not required to satisfy themselves that the audited body has achieved value for money during the reporting period."

4.1.9 The Audit Code goes on to say:
"Ultimately, it is a matter for the auditor's judgement on the extent of work necessary to support their conclusion on value-for-money arrangements".

4.1.10 The Audit Code requires documentation of the overall conclusion, consideration of risk and of the planned response and work done to address significant risks. If there are no significant risks, the Code does not explicitly require documentation of work done.

Changes introduced by the 2020 Code of Audit Practice

4.1.11 In 2020, the C&AG published a new Code of Local Audit Practice. This is effective from the 2020-21 financial year. The main changes made are in respect of the value for money opinion and supporting work and have been broadly welcomed by auditors and those local authorities who have so far expressed a view.

4.1.12 The binary audit opinion on whether appropriate arrangements are in place has been replaced by a commentary on:

- *Financial sustainability: how the body plans and manages its resources to ensure it can continue to deliver its services;*
- *Governance: how the body ensures that it makes informed decisions and properly manages its risks; and*
- *Improving economy, efficiency and effectiveness: how the body uses information about its costs and performance to improve the way it manages and delivers its services.*

In addition, the updated Code will explicitly require auditors to document clearly the work that they have done to support their findings.

4.1.13 The consultation on the supplementary statutory guidance issued by the NAO to support the new Code closed on 2 September 2020. Once this guidance is finalised auditors will need to consider the factors including the following:

- whether a revised risk assessment is required;
- how to design an approach that moves away from obtaining evidence to support a binary audit opinion, to one that generates information to support a commentary on the arrangements in place.
- whether additional or different types of audit testing will be required, and how to structure and produce the new narrative reports.

Other statutory duties and powers

4.1.14 In addition, auditors of local authorities have other statutory powers and duties. These are:

- The power to issue a Public Interest Report at any time;
- The power to issue statutory recommendations to management, copied to the Secretary of State;
- The power to issue an advisory notice setting out potential illegal expenditure;
- The power to apply to the Courts to have unlawful expenditure disallowed;
- The duty to consider qualifying whistleblowing disclosures; and
- The duty to respond to objections raised by electors or other relevant persons.

The Audit Code includes guidance on the scenarios that might give rise to use of these powers and duties. Use of the powers along with the work required to support reports, recommendations and responses to objections is a matter of judgement.

4.2 Defining audit quality

4.2.1 Audit quality is a key determinant of audit performance and this must be seen, not only as a measure against agreed standards and principles, but also whether the output of an audit is seen to meet the legitimate expectations of council taxpayers and other users of accounts.

4.2.2 Financial audit is fundamental to these requirements to give assurance to the reader that the accounts are properly prepared and fairly reflect the council's financial position and use of resources.

4.2.3 Value for money audit should be designed to provide the reader with assurance that the systems in place for use of resources in an effective and efficient way are adequate and appropriate, and that the local authority plans will deliver financial resilience in the immediate and medium term.

4.2.4 The effectiveness of audit also depends on the usefulness, impact and timeliness of auditor reporting. Consideration of Public Interest Reports and Statutory Recommendations is relevant here. Finally, the effectiveness of audit also depends on the Authority's response to audit recommendations. This is a wider definition than that currently used by regulators. Ultimately, regulators consider a local authority financial audit to be of acceptable quality if the audit opinion is supported by sufficient and appropriate evidence and if the work complies with auditing standards, relevant legislation and the Code of Audit Practice. As VfM audit is not covered by auditing standards, the regulators focus principally on whether the audit complies with the Code of Audit Practice.

4.2.5 Nevertheless, the effectiveness and usefulness of local audit has to be measured alongside the assessment of quality. The Review has considered the extent to which the auditors of local authorities:

- Meet the contract specification;
- Demonstrate sufficient understanding of the local authority environment through identification and testing of key financial audit and value for money risks;

- Deliver audits in a cost-effective way;
- Make balanced and considered recommendations; and
- Issue reports and make recommendations in timely fashion.

4.3 Assessing Audit Quality

Meeting the Contract Specification

4.3.1 The contract between PSAA and audit firms largely follows standard terms and conditions. It requires providers of audit services to deliver audits in accordance with statutory obligations and appropriate professional standards. These are discussed below.

4.3.2 The contract is supplemented with a Statement of Responsibilities published, on the PSAA website, which is intended to set out the engagement between PSAA and the appointed auditors. The contract requires audit firms to familiarise themselves with this statement. In accompanying text on their website, PSAA makes clear that the responsibilities of auditors are derived from statute, principally, the 2014 Act and from the NAO Code of Audit Practice and nothing in the Statement is meant to vary those responsibilities.

Demonstrating an understanding of the local authority environment

4.3.3 Feedback received from interviews with local authorities is that KAPs tend to be knowledgeable, skilled and experienced. However, the amount of time devoted to the audit has become more limited in recent years. Anecdotal evidence on the accessibility of KAPs varies. Local authorities largely stated that the senior partners were brought in to resolve significant issues, so were not often visible during the course of the audit. This matched many audit firms' comments that senior partners were brought in for the specific and more complex issues. Most local authorities commented that this was reasonable, and as expected, but some felt that it was difficult to secure input from their KAP on specific issues. Some local authorities commented that during 2018-19 audits, the visibility of both the audit team and KAP had declined somewhat compared to prior years.

4.3.4 As demonstrated by the responses in **Figure 4.1,** despite valuing KAPs, many local authorities had a negative opinion of the overall knowledge and expertise of their audit teams. The two areas of particular concern were:

- the knowledge and continuity of working level audit staff; and
- whether audit work always covered the most important areas of the accounts from a financial resilience and service user perspective.

4.3.5 There is a question as to whether external audit could make more use of the knowledge and expertise of internal audit in developing sufficient understanding of the local authority. It is usual for the external audit team to meet the Head of Internal Audit as part of the audit planning process, but it is unclear if liaison extends much beyond that. Internal auditors are likely to be much closer to the business than external audit and, in many authorities, a proportion of their work focuses on governance and service delivery matters. This could make internal audit a rich source of knowledge, should the external audit team wish to use it.

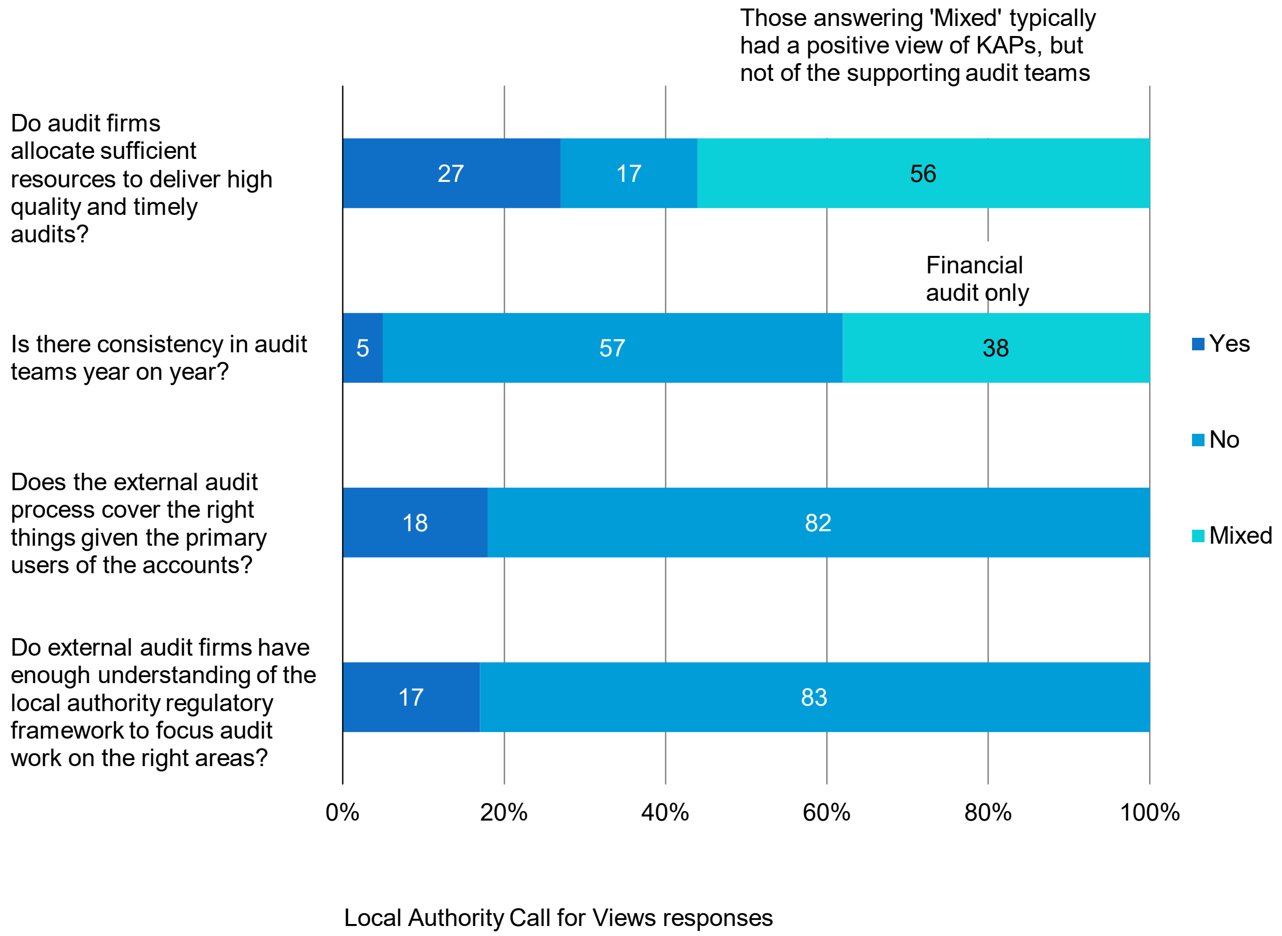
Knowledge, experience and continuity of audit staff

4.3.6 All audit firms active in the local audit market told the Review that they had expert technical teams who provided sector specific training to staff working on local authority audits. Nonetheless, many local authorities reported significant concerns about the knowledge and expertise of staff working on their audit. Issues identified included:

- audit examiners not having a full understanding of how local authorities were funded and how this impacted the accounts;
- a lack of continuity from year to year, or in some cases from week to week, leading to a lack of client knowledge; and
- a lack of understanding of local authority specific financial statements such as the Collection Fund and Housing Revenue Account.

4.3.7 Local authorities also reported the use of audit examiners from other countries to help manage the local audit peak. This is not unique to audits in the local authority sector and can be advantageous as different countries will encounter different audit peaks. However, may local authorities whose audits are staffed in this way reported that such examiners processed very little training in respect of English local government.

Figure 4.1
Opinions on External Audit Quality



30

4.3.8 Firms agreed that consistency in audit teams could sometimes be compromised by either the difficulty in attracting and retaining quality junior staff or the challenge to retain more experienced staff.

4.3.9 Underpinning the concerns about the quality and continuity of working level audit staff is a concern that there are not enough audit examiners with local authority expertise, and that this is an area in which accountancy trainees no longer wish to specialise.

4.3.10 This is a concern that has developed since 2015. Prior to 2012, the Audit Commission's in-house audit practice, District Audit (DA), was responsible for 70% of the local authority audit market. In its 2012 procurement the Audit Commission outsourced its audit practice. DA staff were TUPE'd[8] to the private sector firms who largely took over responsibility for auditing local authorities. This meant that there was then a plentiful supply of audit examiners with local authority experience. Since 2015, many of those audit examiners have left the external audit profession and have not always been replaced.

4.3.11 A reason for the decline in the number of audit examiners with sector specific expertise is the route taken by auditors to qualify as accountants. Currently, there are five chartered British and Irish professional accountancy bodies that include external audit as a significant element in their qualification. Only one of these bodies (CIPFA) has a mainly public sector focus. All District Audit service trainees would have followed the CIPFA qualification route. Only one of the firms currently active in the market (Grant Thornton) uses the CIPFA qualification route for its public sector audit staff. In addition, audit firms highlight that between 2010 and 2015 the Audit Commission cut back on its recruitment of audit examiners. This means that an increasing number of local authority auditors will not have had the public sector as their main focus whist studying for their accountancy qualification.

4.3.12 In March 2020, PSAA published research it had commissioned on the future of the local audit market.[9] In this research firms raised two main issues that made it difficult for them to attract and retain high quality staff that wanted to specialise in local authority audit:

- **Timetable** - In 2017-18 the target date for completing local authority audits was brought forward from 30 September to 31 July. This reform was requested by many local authorities, who wanted to complete their accounts and audit process as quickly as possible, so as to free up their finance teams to work on other areas. The compression of the audit timetable was mentioned as an issue by every audit firm. Firms raised concerns about the resulting peaks in workload, pressures on staff during the summer months, and knock-on effects when target dates are not met. These pressures contribute to making work unpopular with local audit staff.
- **Fees** – Firms stated generally that the lack of profitability changes the way that local audit work is perceived within the firm. As the contribution that local audit makes to the overall profit of the Partnership is low, specialising in this area is seen by many auditors as having a detrimental impact on career prospects.

[8] TUPE stands for the Transfer of Undertakings (Protection of Employment) Regulations and its purpose is to protect employees if the business in which they are employed changes hands.

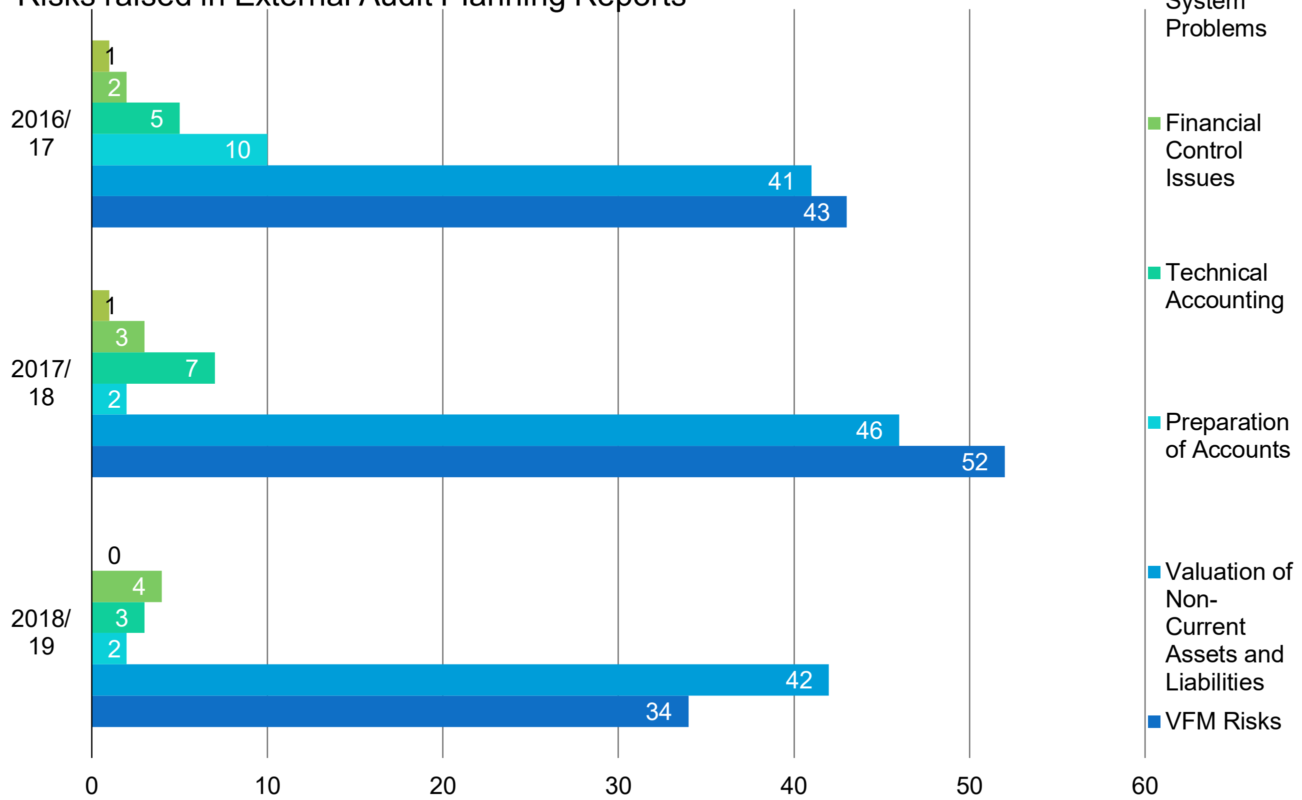
[9] https://www.psaa.co.uk/wp-content/uploads/2020/03/PSAA-Future-Procurement-and-Market-Supply-Options-Review.pdf

Focus of audit work

4.3.13 Many local authorities have raised concerns that auditors spend a significant amount of time focusing on fixed asset and pension valuations, whereas a fuller understanding of the business would lead to more of a focus on major areas of expenditure, together with the level of usable non-ringfenced revenue reserves. The reason for this argument is that most changes to fixed asset and pension values are 'reversed out' of the accounts by a range of statutory adjustments. As a result, in those circumstances, these valuations have no immediate impact on the cost of delivering services or on the financial resilience of a local authority.

Figure 4.2

Risks raised in External Audit Planning Reports



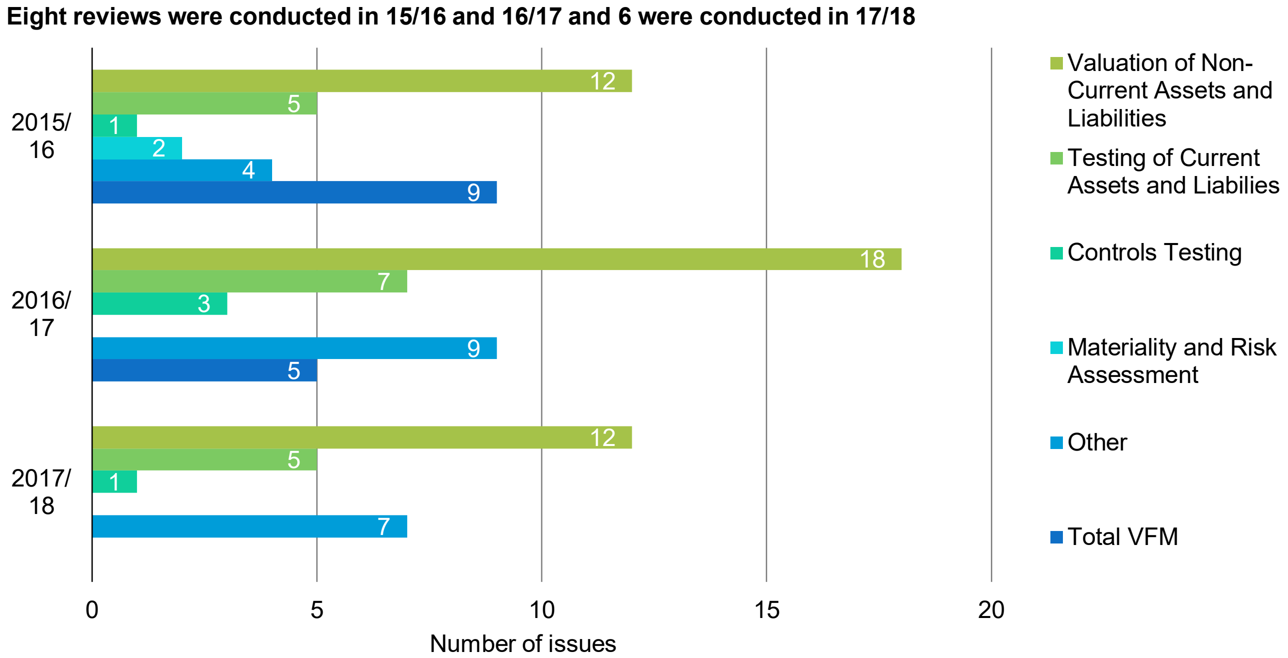
Notes

1 Representative sample of 30 local authorities. Presumed risks excluded

4.3.14 As demonstrated in **Figure 4.2**, valuation of non-current assets and liabilities have been the most common significant financial audit risk category identified in Audit Planning Reports. In addition, irrespective of the risk profile, the amount of detailed testing undertaken on these balances has increased significantly over the past three audit cycles. To manage the risk of regulatory criticism, that more scepticism is needed when assessing non-current assets and liabilities, audit firms are increasingly using their own expert valuers to assess valuations provided by a local authority employed expert. Some audit firms agreed that they would prefer to do less work on asset and pension valuations but explained that these areas of the accounts were given more attention as it was important in the context of securing a positive assessment from the FRC quality assurance processes.

4.3.15 The results of the quality assurance reviews of local authority audit files undertaken between 2015-16 and 2017-18 in **Figure 4.3** demonstrate clear and continuing concerns about the quality of audit work to support fixed asset and pension valuations. The FRC commented that, overall, the local authority audit files it reviewed tended to be of slightly lower quality than the files of corporate sector audits.

Figure 4.3
Issues identified by FRC file reviews conducted on behalf of PSAA



4.3.16 The FRC quality reviews identified far fewer significant issues in VfM audit work. This may be because the current Audit Code gives auditors quite a lot of discretion as to how much work they need to undertake before forming their VfM opinion.

Deliver audits in a cost-effective way

4.3.17 Since 2015, audit fees paid by local authorities have dropped by 42.25% (in cash terms). The decrease in fees has been welcomed by the LGA and by many local authorities. This reduction in fees has been attributed to the following reasons:

- PSAA costs being lower than those of the Audit Commission;
- Improved audit efficiency;
- Reduction in firms' profit expectations; and
- Reduced financial risks for the firms from staff previously TUPEd.

4.3.18 It is difficult to identify the extent to which local authority audits are more efficient than previously. All of the audit firms active in the market have looked to generate efficiencies through making significant investments in digital technology and innovation to equip audit teams with the appropriate tools to deliver a digital audit. However, audit firms note that many local authorities have IT systems that do not lend themselves to the delivery of a digital audit, so some of the anticipated efficiencies have not been realised.

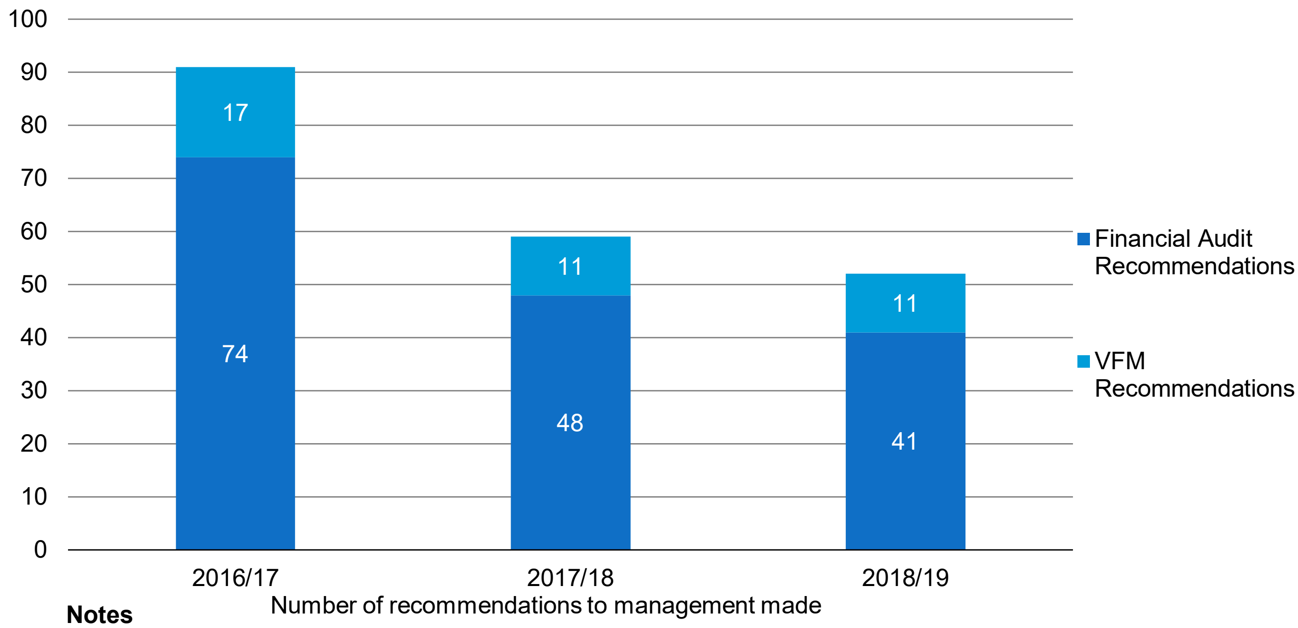
4.3.19 The decrease in fees must be set against the potential impact on quality if audit is considered to be cost effective. Audit firms have raised concerns about whether audit fees are at a sustainable level. One of the registered firms not active in the local authority market said that they had decided not to bid because it was impossible to deliver cost effective and high-quality audits at current fee levels.

4.3.20 Firms have the power to request fee variations where the cost of the work is greater than allowed for by the contract fee. As discussed in **Chapter 3** the fee variation process is an ongoing and increasing source of tension, with auditors concerned that they are not always able to recover legitimate costs. Local authorities are concerned about late notifications and that requested variations are not always supported by evidence of additional work done.

Make sensible recommendations

4.3.21 Auditors can issue recommendations to management through their end of audit communications. These can either be statutory recommendations, which must be copied to the Secretary of State, introduced through the "management letter" recommendations. Eleven statutory recommendations have been issued since 2015.

Figure 4.4
Number of External Audit recommendations given to local authorities



Notes

1 Representative sample of 30 local authorities.

2 Not all audits in 17/18 18/19 have been signed off in this sample.

4.3.22 As demonstrated in **Figure 4.4,** a review of Audit Completion Reports indicates that the number of management letter recommendations issued seems to be declining year on year. The practice on following up management letter recommendations was mixed and Audit Committees were more likely to check progress on implementation of internal audit recommendations rather than external audit recommendations. A majority of the recommendations made relate to technical accounting issues rather than financial control or value for money matters. This is not surprising given the focus of external audit, but it contributes to a perception that the process is not adding as much value as formerly.

Provide useful and timely reports

4.3.23 As demonstrated by **Figure 4.5,** the number of delayed audit opinions has significantly increased over the past three years. For 2018-19, all the audit firms in the market had some outstanding audit opinions as at 30 September 2019, though the extent varied from firm to firm; one firm completed just less than 40% of audits by the deadline while another completed 80%. All firms have made progress in completing these delayed audits although at December 2019, there were still 85 outstanding audit opinions (17.5%); and by July 2020, 42 (8.6%) of 2018-19 audits remained incomplete. These delays are likely to have had a knock-on impact for the 2019-20 timetable.

Figure 4.5

Audit opinions signed off by the statutory deadline for publishing audited accounts

	2018/19	2017/18	2016/17
Opinions issued by the statutory publication deadline	57% *31 July 2019	87% *31 July 2018	95% *30 September 2017
Opinions issued by 30 September	70%	95%	N/A

*statutory deadline for publishing local authority accounts 30 September in 2016-17; and 31 July thereafter.

4.3.24 PSAA asks audit firms to explain the reason for delayed audits. The four most common reasons provided were:

- poor quality accounts/working papers submitted by the local authority;
- potential qualification issues;
- outstanding objections on the accounts; and
- for the first time in 2019-20, having insufficient qualified individuals to deliver all audits at the appropriate time was included as a reason for some of the delays.

4.3.25 Audits are by their nature backwards looking and the increasing delays in signing off local authority audits have an impact on the timeliness of reports. The more material issues that an auditor finds, the greater the risk that the sign off of the audit opinion is delayed. When a judgement needs to be made about modifying an audit opinion, audit firms are required to undertake enhanced quality assurance procedures, and these take time. In addition, some audits will be delayed if a local authority presents poor quality accounts or if there is an outstanding objection. As a result, a number of local authority audits will inevitably be signed off after the reporting deadline.

4.3.26 In recognition of the increased challenges posed by Covid-19, MHCLG has extended the deadline for signing off 2019-20 audits to 30 November 2020. If a majority of audits are not signed off by this date, there could be a significant impact on MHCLG's ability to run the non-domestic rates system effectively. It is too early to say how many local authority audits will make this target date or whether the extension of the deadline will enable audit firms to complete more of the outstanding 2018-19 audits.

4.3.27 Examples of useful and timely auditor reporting through client communications are relatively few. Some local authority Chief Financial Officers commented that they no longer got the useful and informative advice, challenge and support that they had received from KAPs prior to 2015. Audit Planning Reports tend to be presented in February, March or April, which is rather late in the financial year. This means that local authorities get late notification of audit risks. In addition, it is not possible to undertake interim audit work on management controls if the plan is presented in the last month of the financial year and this increases the pressure on the year end peak.

4.3.28 If an Auditor is assessing a significant issue, which they believe needs to be brought to the attention of elected representatives and the public as soon as possible, the have the power to issue a Public Interest Report (PIR). PIRs can be issued at any time. However, only four PIRs have been issued since 2015. Three of these related to matters identified prior to 31 March 2015 and the fourth, issued on 11 August 2020, related to a wholly-owned local authority company.[10] This means that the opportunity to enhance transparency and accountability by sighting key stakeholders on significant issues in a timely fashion is not often used.

4.3.29 Audit firms have not commented on why there is not a greater use of the statutory powers available to them. The position in which auditors find themselves can relate to a situation where intervention in a local authority may be warranted by the use of statutory powers. It is possible that the legal and reputational risks of using these powers may play a part in their thinking as may the difficulty of recovering the costs of the extra work required to support use of these powers.

4.4 Interactions between external audit and relevant stakeholders

4.4.1 The areas of concern that particularly stood out from interviews with local authorities and through the Call for Views were:

- Senior audit staff not being contactable by clients when issues arose;
- Late notification of audit risks;
- Changes to the audit timetable – without justification given;
- Late notification of fee variations with no justification or breakdown of cost given; and
- The auditor's valuation expert overriding asset valuations provided by client experts with equivalent qualifications sometimes with no justification given.

4.4.2 It is important to note that these concerns are not unreciprocated. Auditors raised concerns about LAs not preparing properly prepared draft accounts supported by high quality working papers or not being available to answer audit questions.

4.5 VfM expectation gap

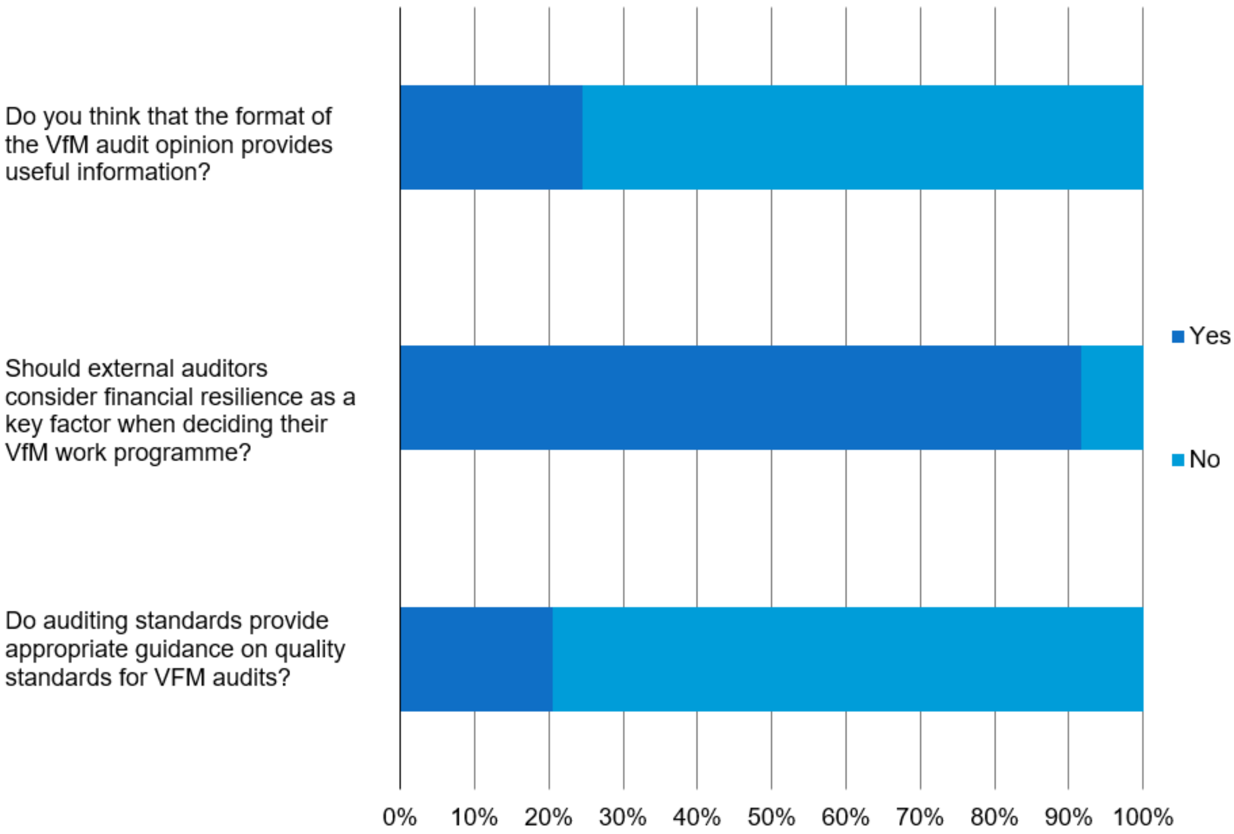
4.5.1 Whilst audit firms feel that the NAO's new code of practice resolves many of the VfM conclusion shortcomings, some local authorities believe that more significant changes need to be made. There is a large expectation gap between what local authorities

[10] https://www.nottinghamcity.gov.uk/publicinterestreport

expect a VfM opinion should provide and what it actually provides. The VfM conclusion is viewed by many local authorities to be an exercise with limited use to them as it is too retrospective and often states what the local authority often already knows. **Chapter 6** includes a more detailed consideration of the extent to which the VfM opinion covers financial resilience risks.

Figure 4.6

Opinions on the VfM opinion and auditing standards



Notes

1 Data from Local Authority Call for Views responses.

4.5.2 As demonstrated in **Figure 4.6**, 74% of the local authority respondents to the Call for Views think the format of the VfM opinion does not provide useful information. Some of these respondents recognised that the opinion is limited to giving assurance only that processes are in place to secure value for money and therefore that the opinion needs to be expanded to provide useful information. 79% of these respondents do not think the standards provide appropriate guidance on quality standards for VfM audits.

4.5.3 91% of respondents think external audit should be required to assess financial resilience. Although 3% of these respondents felt that financial resilience is already covered to an appropriate amount, most of the other respondents thought that financial resilience should be considered in the medium and long term as part of the value for money audit opinion. This included most audit firm respondents to this question, all of whom stated that the updated NAO Code of Audit Practice, effective from 2020-21, would provide a suitable level of coverage. No local authorities specifically mentioned the NAO Code of Audit Practice in their responses, although this may be due to the fact that the updated Audit Code had not been finalised at the time the Call for Views closed. However, 16% of local authority respondents thought the non-statutory CIPFA Financial Management Code (published Oct 2019) could provide a suitable framework for assessing financial resilience and financial management.

4.6 Summary of audit performance

4.6.1 There is an expectation gap that extends across both the financial and the VfM audit. The coverage of the financial and VfM audits is far narrower than many stakeholders expect.

4.6.2 There are questions about the level of audit performance. In addition, although external auditors may be meeting the contract specification by delivering audits that, for the most part, meet the quality standards set out in ISAs and the Audit Code, an increasing number of audits are not being completed by the statutory deadline for publishing audited accounts.

4.6.3 Audit fees paid by local authorities have reduced, whereas, over the same period, they have increased in other sectors. There is some evidence that the reduction in fees has led to a decline in the number of examiners with appropriate skills, knowledge and expertise. This has had an impact on the timeliness of audits, the usefulness of auditor reporting to management and the quality of interactions between external auditors and local authorities.

4.6.4 Underpinning concerns about audit performance is a question of focus. There is a perception amongst many local authorities that an increasing amount of time is spent auditing fixed asset and pension valuations. It is clear that external audit increasingly has a greater focus on these areas, and that this has been driven by the requirement to meet quality standards and comply with relevant statutory guidance. What is less clear is the extent to which this has led to a reduction of audit work in other areas, but given the reduction in audit fees, it is likely to have had some impact.

4.6.5 It is more difficult to summarise audit performance in relation to the VfM engagement. This is partly because the 2015 Audit Code requires minimal documentation unless significant VfM risks are identified. This makes it impossible to assess whether the external audit assessment of VfM risks is complete in all cases. However, given the squeeze on audit fees and the reduction in the number of audit examiners with appropriate skills, knowledge and expertise, this remains a matter of significant concern.

5. Governance arrangements in place for responding to audit recommendations

5.1 Outline of the different frameworks in operation

5.1.1 The effectiveness of audit must, in part, be determined by the arrangements in place within each body subject to audit for considering and acting upon external audit reports. All local authorities are required to set up Audit Committees or the equivalent with responsibility for considering the annual accounts and receiving internal and external audit plans and reports. The specific arrangements vary between different types of local authorities. However, the purpose of an Audit Committee is to provide independent challenge on behalf of the authority in respect of accountability and risk management arrangements.

Arrangements within PCCs

5.1.2 A PCC is an elected official charged with securing efficient and effective policing of a police area. The policing function is delivered by the constabulary, led in large part by Chief Constables. PCCs are required to set up Joint Audit Committees covering the activities of both the PCC and the constabulary. These arrangements appear to work effectively and the findings and conclusions in the rest of this Chapter do not apply to PCCs.

5.1.3 Some PCCs also have responsibility for overseeing the delivery of Fire and Rescue Authorities, which deliver the fire service, in their local area. In other areas, primarily Shire Counties, the fire service is the responsibility of the County Council.

Arrangements within other types of local authorities

5.1.4 Mayoral Combined Authorities[11] are required by statute to have an Audit Committee, although there is no statutory guidance on the membership or remit. Whilst not a requirement for other types of local authorities, in practice most have set up an Audit Committee or equivalent.

5.1.5 Constitutionally, Audit Committees in local authorities are sub-committees of Full Council. This means that a majority of its members will be elected as a councillor or its equivalent. As highlighted in **Figure 5.1,** membership tends to be based on the political balance of the council and the chair is often, but not always, a member of the ruling group.

5.1.6 The number of members of Audit Committees varies from four to seventeen, with seven being the most common. This compares to common practice in central government and the private sector, which is to have no more than three or four Audit Committee members. The size of the committee might vary according to the number of councillors an authority has; however, Birmingham City Council, which by expenditure is the largest local authority and has more councillors (99) than any other local authority in England, has eight members on its Audit Committee, whereas the

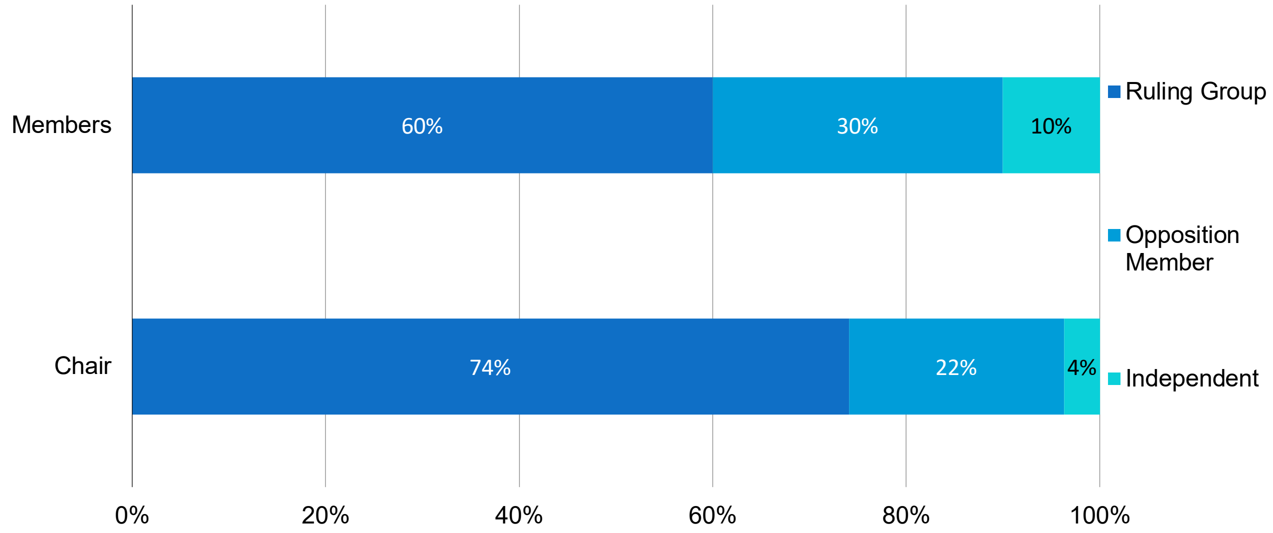
[11] Combined Authorities are statutory bodies made up of neighbouring local authorities that broadly cover a city-region that have agreed to work together. A Mayoral Combined Authority is where a mayor is the directly elected leader of the combined authority.

Audit Committees of some Shire District Councils have memberships that far exceed this.

Figure 5.1

Composition of audit committees in councils

56% of committees had no independent members



Notes

1 Representative sample of 27 Local Authority Committees (not including FRAs or PCCs).

5.1.7 Local authority accounts are very complex and there appears to be a significant difference between the assurance that external auditors provide and public expectations. Elected members may or may not have relevant skills, expertise or background to fulfil the role of a member of an Audit Committee. Many local authorities provide training for Audit Committee members, but it has not been possible to assess how comprehensive or effective this training is. As a result, it is not possible to conclude whether members are always equipped to provide effective challenge to Auditors or Statutory Officers.

5.1.8 As part of its Audit Quality Reviews of 2018-19 audits, the FRC review teams have met with Audit Committee chairs of 12 selected local authorities. Although the reviews of the related audits are not yet publicly available, a mixed picture was reported, with some chairs being very engaged and informed, but others being less so. As the FRC is responsible only for the quality assurance reviews of the 230 larger local authorities and NHS bodies, the experience provided by their quality reviews may not be fully representative of the sector.

5.1.9 Whilst the vast majority of local authorities interviewed were supportive of the principle of appointing independent members, only about 40% of Audit Committees currently have done so. The reported experience of having independent members on Audit Committees was mixed. In some cases, they provided useful challenge, but some authorities reported that the effectiveness of independent members was hampered by their lack of sector specific knowledge.

5.1.10 A particular challenge for authorities is attracting independent members with the relevant technical experience. This challenge can sometimes be greater depending on an authority's geographical location. Some PCCs have found that the introduction of Joint Audit Committees, which are seen as more prestigious, has made Audit Committee membership more attractive to appropriately qualified independent members, but there is still not an abundance of suitable applicants for vacant positions.

5.1.11 The independent member is often a voluntary position across the local authority sector. This compares to NHS trusts who are more likely to pay independent Audit Committee members, which may make it slightly easier for them to attract applicants with relevant expertise.

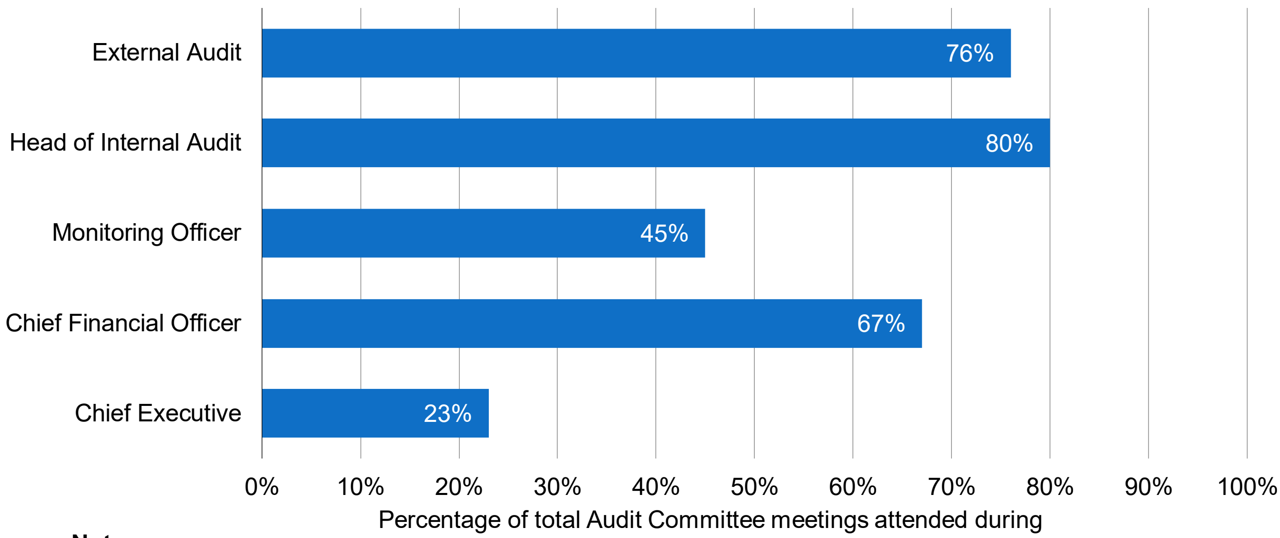
5.1.12 Local authorities have a number of statutory officers, three of whom have responsibilities that may be covered by audit work. They are:

- The **Head of Paid Service** – typically the Chief Executive or Managing Director
- The **Section 151 Officer** – typically the Chief Financial Officer or Finance Director
- The **Monitoring Officer** – typically the Head of Legal Services

5.1.13 As demonstrated by **Figure 5.2** the frequency of attendance of statutory officers at Audit Committee meetings is mixed. Whilst the Chief Financial Officer and Head of Internal Audit attend a majority of meetings, Monitoring Officers attend just under half of the meetings and the Chief Executive attends such meetings less often. Other statutory officers and service heads usually attend Audit Committee meetings if a matter relevant to their service area is discussed.

5.1.14 The Chief Financial Officer is more likely to attend meetings where external audit completion reports are presented. Attendance of the Chief Executive increased by 2% and the Monitoring Officer attendance decreased. This may be reflective of the fact that in local government, the Chief Financial Officer signs the accounts on behalf of the local authority, or it may be indicative of the profile of external audit.

Figure 5.2
Audit Committee attendance: Local Authority Officers and External Audit Representative



Notes

1 Representative sample of 30 local authorities

41

5.1.15 In local government, representatives of external audit are not expected to attend every Audit Committee meeting. Based on a representative sample, the KAP attended 56% of meetings, rising to 87% of meetings where either external audit papers were tabled or where the final accounts were presented. For the 13% of these meetings where the KAP was not in attendance, external audit was represented by a less senior member of the audit team.

5.2 Scope of audit committees within local government

5.2.1 The scope of Audit Committees also varied between authorities. CIPFA's *Position Statement and supporting guidance on Audit Committees (2013)* says that the Audit Committee should cover:

- The annual governance statement
- The work of internal audit
- Risk management
- Assurance framework and assurance planning
- Value for money and best value
- Countering fraud and corruption
- External audit
- Partnership governance

and may also cover:

- Specific matters at the request of statutory officers or other committees
- Ethical values
- Treasury management

5.2.2 Most of the committees reviewed covered most of the items in the CIPFA position statement. There were two areas which had either minimal or no specific coverage: *partnership governance,* which was considered by only two of the 30 authorities reviewed; and *value for money and best value* which was not considered by any of those 30 authorities. The *CIPFA Survey on Local Authority Audit Committees* (November 2016) also found that Audit Committees were much less likely to consider these two areas. However, the scope of Audit Committees in local authorities is not limited to the areas suggested in the CIPFA guidance.

5.2.3 The scope of committees whose responsibilities included audit varied. The second most common name, after the 'Audit Committee' itself was a name which indicated the combining of audit with the functions of an overview and scrutiny committee. Overview and scrutiny committees are required by statute[12] and are responsible for overseeing and scrutinising the whole range of the Council's functions and responsibilities, as well as other public service providers' work and its impact on the local community. Whilst the functions of these two committees have some synergy, there is a question as to whether it enables the audit responsibilities to be fully addressed.

5.2.4 In one example a local authority had set up an Audit, Resources and Performance Committee. This is a significant concern because the prime purpose of an Audit

[12] Schedule 2, Localism Act 2011

Committee is to review the comprehensiveness and reliability of assurances on governance, risk management, the control environment and the integrity of financial statements and the annual report. The Resources Committee will use financial projections and risk management information to take decisions about use of resources. If the same committee is responsible for using information to take management decisions and providing independent assurance over the reliability of that information, there is no effective segregation of duties. There is also a potential for conflicts of interest.

5.3 Relationship between Audit Committees and Full Council or equivalent

5.3.1 Full Council has a role, ultimately, in responding to audit matters that is beyond receiving Public Interest Reports or qualified audit opinions. Full Council is generally more visible to the public than committees/subcommittees. The Council's public accountability to local taxpayers and service users is best served by having significant matters relating to audit discussed in a transparent and accessible way.

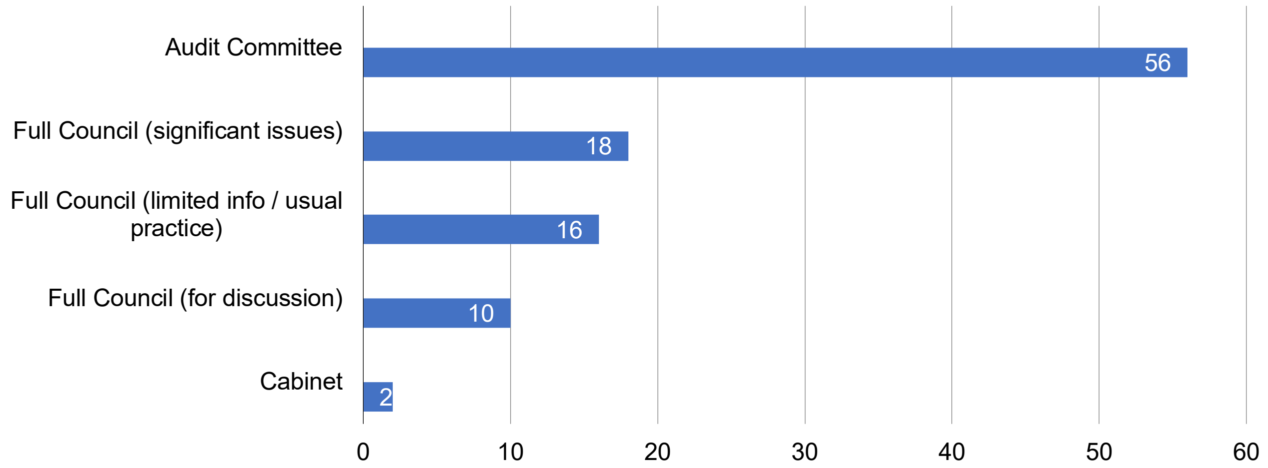
5.3.2 Matters raised at Audit Committee can be referred to Full Council. In addition, the auditor has the power to present some statements, for example an advisory notice that planned expenditure may be unlawful, directly to Full Council.

5.3.3 In practice the auditor tends to present matters to the Audit Committee, which decides if a matter is serious enough to be referred to Full Council. Most local authorities feel that this arrangement is appropriate. It is rare for an Audit Committee to put a substantive item onto the Full Council's agenda. The exception is the Treasury Management Strategy, where some local authorities have a practice of ensuring that it is considered by the Audit Committee before being forwarded to Full Council for approval.

5.3.4 Many local authorities stated that the existing relationship between Audit Committee and Full Council involved either forwarding for information a yearly summary report or meeting minutes and that this was considered to be sufficient. Many also commented that if there were significant recommendations made by the external auditor, such as a Public Interest Report, that then should be a matter for Full Council.

5.3.5 In some cases, some quite serious matters seem not to have been passed onto Full Council. For example, the 'best value' report into Northamptonshire County Council found that when the external auditor reported that appropriate arrangements to deliver best value outcomes were not in place, for the second year in succession, there is no evidence that the Audit Committee forwarded the qualified audit opinion to Full Council.

Figure 5.3
To whom should external auditors present audit reports and findings?



Notes

1 92% of local authorities respondents answered this Call for Views question

5.3.6 If this practice is widespread, there is a significant risk that in many councils, a majority of elected members may not be sighted on serious governance or financial resilience issues. This risk does not fully pertain to PCCs, where the PCC and Chief Constable are expected to attend the Joint Audit Committee and generally do so. There is a question as to whether Audit Committees, including Joint Audit Committees, are sufficiently transparent to local taxpayers and service users. Whilst by default, proceedings of these committees are public, it is not clear that taxpayers and service users are aware that they have a right to attend or to read the papers and the minutes.

5.3.7 As demonstrated in **Figure 5.3** most local authorities felt that external audit reports should be presented to the Audit Committee rather than to Full Council. Reasons given included:

- Full Council only taking items for decision;
- elected members not having the skills, knowledge or experience to understand the report unless they had received Audit Committee training.

5.3.8 Many commented that external audit reports should be reported to Full Council only in exceptional circumstances where there is significant cause for concern. One respondent commented that given the target dates and tight deadlines, there is insufficient time to report to Full Council prior to sign off of the accounts by the external auditors.

Raising the profile of external audit work

5.3.9 The content of the standard suite of external audit reports is mandated by auditing standards. Whilst audit firms have made significant strides in making reports more accessible to clients, much of the required disclosure is highly technical. Given this, it is perhaps understandable that many local authorities do not present such documents to Full Council.

5.3.10 Nevertheless, external auditors may have insights from their work, that could provide assurance to Elected Representatives that their local authority is being run with the best interests of service users and taxpayers in mind. The auditor also has the facility to sight elected representatives on matters that audit work has highlighted as a potential issue.

5.3.11 This suggests that the external auditor should report to Full Council on risks identified and conclusions reached, in a transparent and understandable format. To be of most use, such a report would need to be timely. Given the increase in the number of delayed audits, this report should not necessarily be linked to the certification of the financial accounts as it should be made at the most useful point in the year. Comparatively few local authorities commented on what was the right point in the year to receive audit reports. Two thirds of those who did, expressed a preference for end-September, coming as it does near the start of the following year's annual budget setting planning cycle.

Collating the results of external audit work

5.3.12 Prior to 2015, the Audit Commission published an annual report summarising the results of the audits of local authorities and the NHS. Up to the end of 2017-18 responsibility for preparing this report passed to PSAA. The report summarised the number of audits completed by the statutory deadline and the number of qualified financial audit and value for money opinions, with the latter categorised by theme. It also listed all Public Interest Reports, Statutory Recommendations and Advisory Notices issued in the preceding year. It did not include any details on risks raised by auditors in their Audit Planning Reports or non-statutory recommendations made to local authorities. Just over two thirds of Call for Views respondents think a publication summarising the results of local authority audits adds value.

5.3.13 The responsibility for preparing this report was included in the Memorandum of Understanding between PSAA and MHCLG. When MHCLG decided not to renew the Memorandum of Understanding, PSAA's responsibility for reporting on the results of audit work lapsed. This reinforces the point that no entity currently has the responsibility to collate and report on the results of the work of the external auditors of local authorities and individual NHS bodies.

6 Audit work on the financial resilience of local authorities

6.1 Stakeholders' expectations regarding financial resilience

6.1.1 Reference has been made to the role of external audit in assessing financial resilience and sustainability in local authorities. In England, neither the financial nor the value for money audit includes a specific responsibility to provide an opinion on whether a local authority is financially sustainable.

6.1.2 However, it is legitimate to expect the auditor to examine the ability of the local authority to provide resources sufficient to deliver the statutory services for which it is responsible. It would not be appropriate for this Review to provide a commentary on local government funding, but there are a number of key questions that it would be reasonable to expect the auditor to assess. These could include:

- Has the auditor scrutinised the balance sheet to understand the debt profile of the authority and the level and depletion rate of usable reserves?
- What metrics does the authority use to determine the level of financial risk it faces?
- When the annual budget is approved by Full Council or equivalent, the CFO is required to present a "Section 25" report, providing a view on the reasonableness of financial estimates and the adequacy of reserves. Should the auditor be required to confirm that this report is sound?
- It is good practice for local authorities to prepare a mid-term financial strategy, normally covering a three to five-year period that is presented alongside the budget. Is it reasonable to expect the auditor to consider the assumptions underpinning this strategy or to form a view on its whether it is robust and realistic?
- Local authorities are also required to prepare statutory reports that have implications for financial sustainability and available resources in future years. These include setting a Prudential Borrowing limit, calculating an appropriate provision for repayment of debt (known as "Minimum Revenue Provision"), preparing an Investment Strategy, and potentially preparing a Flexible Use of Capital Receipts Strategy. Is it reasonable to expect the auditor to consider some of these strategies and estimates?

6.1.3 CFOs may have specific expectations of auditors. As previously indicated, many of the CFOs who contacted the Review made it clear that they valued the informal contact and challenge from the KAP. Dialogue between the KAP and the CFO does take place, if not on as wide a scale as it did pre-2015, and there is no doubt this can be beneficial. However, the independence of the auditor must be preserved in the way that advice and guidance may be tendered.

6.2 What does financial resilience mean in a local authority context?

The statutory framework

6.2.1 Financial resilience in a local authority is different to a private sector context. The powers and responsibilities of local authorities along with the financial control framework within which they operate are set by statute.

6.2.2 The services that local authorities are required to provide are set out in legislation along with the accompanying powers and duties. The statutory responsibilities to deliver these services exist even if the local authority's resources may be considered to be insufficient at any given time.

6.2.3 The key financial controls set out in statute are:

- The requirement to calculate an **annual balanced revenue budget** for the upcoming financial year, that must be approved by Full Council or the equivalent. Local authorities are not allowed to run a deficit budget. Instead they are required to calculate a level of Council Tax that equates to the difference between income and expenditure. The increase in the level of Council Tax that can be charged is restricted by a 'referendum principle'. If a local authority wishes to raise Council Tax by more than a percentage specified by Ministers, they are required to put the planned increase to a referendum of local electors. Local authorities can borrow to fund capital investment but are not normally allowed to do so to finance in-year expenditure.
- The CFO's **"Section 25" report** on the robustness of the council's budget estimates and the adequacy of its reserves, which must be presented to Full Council alongside the annual balanced budget.
- The CFO has the power to issue a **"Section 114 notice"** if the CFO believes that the local authority is unable to set or maintain a balanced budget. After a section 114 notice is issued, the local authority may not incur new expenditure commitments, and the Full Council must meet within 21 days to discuss the report. There is no legal provision regarding what action they then must take. There is no procedure in law for a UK local authority to go bankrupt, and none has ever done so.

6.2.4 If a local authority mismanages its budgets over a number of years so that it is unable to recover its financial position, then central government has the choice of intervening under its "best value" powers, providing exceptional financial support, facilitating an offer of leadership and governance support from elsewhere in the sector, or using a mixture of these options.

6.2.5 Intervention on the grounds of lack of financial resilience is very rare. The most recent statutory intervention using best value powers was in Northamptonshire in 2018. Although there have been three other statutory interventions in the intervening years (Doncaster due to pervasive corporate governance failures, Rotherham due to institutional failure in responding to child sexual abuse and Tower Hamlets due to pervasive governance and financial impropriety issues), Northamptonshire was the first statutory intervention primarily due to financial resilience issues since Hackney in 2000.

6.2.6 In both Northamptonshire and Hackney, central government supported the council during the intervention by providing exceptional financial support, primarily by allowing receipts from sale of assets to be used to support revenue expenditure. Northamptonshire was also permitted to raise council tax by 2% more than other authorities for 2019-20 without triggering a referendum.

6.2.7 Whilst this might suggest that financial resilience is not an issue for local authorities, that may not always be the case. Firstly, central government support cannot always be guaranteed and secondly, a local authority experiencing severe financial resilience issues may also be facing governance and service delivery issues, with a consequential impact on those who depend on those services. Furthermore, the impact of financial resilience issues on service delivery is iterative. It must be emphasised here that the system must identify and highlight financial resilience issues at the earliest opportunity in order to avoid negative impact on service. When a service fails, it is likely that that cost of recovery will be greater with a possible consequential impact on financial resilience.

6.2.8 This suggests that in a local authority context, financial resilience means the ability to manage budgets over the medium term whilst continuing to deliver high quality and effective services, that can be accessed by service users. The level of service provided is very important. Local authorities in financial difficulties can seek to cut costs by reducing the level of service. This may be the case for demand led services such as social care where it is more difficult to forecast accurately local demand pressure.

Commercialisation and local authority resilience

6.2.9 One of the most significant sectoral trends since 2015 is the increased commercialisation of local authorities. To simplify, there are two main categories of local authority commercialisation:

- Investment in commercial property, usually through the general fund; and
- Investment in wholly owned companies set up using the "general power of competence". The most common type of wholly owned local authority company is the housing company. Other examples identified include energy companies, recruitment agencies, back office service delivery companies and leisure trusts. PCCs and FRAs do not have a "general power of competence".

6.2.10 The risks commercialisation poses to local authority financial resilience were highlighted in a recent NAO study on *"Local Authority Investment in Commercial Property"*[13] which concluded:

"Buying commercial property can deliver benefits for Local Authorities including both the generation of income and local regeneration. However, as with all investments, there are risks. Income from commercial property is uncertain over the long term and authorities may be taking on high levels of long-term debt with associated debt costs or may become significantly dependent on commercial property income to support services. At the national or regional level, Local Authority activity could have an inflationary effect on the market or crowd out private sector investment."

6.2.11 Although the NAO study focused solely on commercial property, this conclusion is as relevant to investments in wholly owned companies. If a company that is set up using the "general power of competence" gets into difficulty, the parent local authority may ultimately be responsible or may have to write off loans or equity funding, and this can impact financial resilience.

6.2.12 An additional risk with wholly owned companies is a potential lack of transparency. It can be very difficult for a reader to identify a local authority's exposure as a result of

[13] https://www.nao.org.uk/wp-content/uploads/2020/02/Local-authority-investment-in-commercial-property.pdf

investments in or loans to wholly owned companies by looking at the accounts. Unless an investment in, or transactions with, a wholly owned company is material by value, there is no requirement to consolidate the company's income, expenditure, assets or liabilities in the local authority's accounts. Instead, what is required is a disclosure of transactions between the authority and each of its wholly owned companies in what is known as the "Related Parties note". This note is presented less prominently in the annual report and accounts document. In addition, decisions a local authority makes pertaining to its wholly owned companies, including those relating to providing additional finance and awarding contracts, are often held in private on grounds of commercial confidentiality.

Defining local authority financial resilience

6.2.13 CIPFA has attempted to define financial resilience in a local authority context. In *Building Financial Resilience (Jun 2017)*[14]. This publication highlights four pillars of sound financial management and five indicators of financial stress.

Figure 6.1

CIPFA Pillars of Financial Resilience

Pillars of financial resilience	Indicators of financial stress
Getting routine financial management right	Running down reserves
Benchmarking against nearest neighbours – e.g. unit costs, under/overspends by service area, under-recovery of income.	Failure to deliver planned savings
	Shortening medium term financial planning horizons
Clear plans for delivering savings	Increase gaps in saving plans (i.e. where proposals are still to be identified)
Managing reserves over the medium-term financial planning horizon.	Increase unplanned overspends in service delivery departments.

6.2.14 The pillars of financial resilience identified by CIPFA related to process and governance points, so could be covered by the auditor's VfM opinion. Likewise, the indicators of financial stress could be covered by a sector-wide VfM audit framework.

6.2.15 An alternative and more detailed model, mentioned by some local authorities, is the seventeen principles set out in CIPFA's recently published Financial Management Code. Although only three of the seventeen principles are categorised under the heading of sustainability, in practice, all of the principles relate to matters that directly or indirectly contribute to an authority's capacity and capability to deliver sustainable services over the medium term.

6.2.16 A challenge common to both the *Pillars of Financial Resilience* and the *Financial Management Code* is that neither has any statutory basis. Whilst CIPFA requires its members to follow the *Financial Management Code*, compliance cannot be enforced. As a result, auditors may be reluctant to treat non-compliance with either as a matter serious enough on which to report.

[14] https://www.cipfa.org/policy-and-guidance/reports/building-financial-resilience-managing-financial-stress-in-local-authorities

6.2.17 A further challenge with the *Financial Management Code* is that the key principles are fairly detailed. Whilst an auditor could assess compliance with these principles, the costs of doing so in terms of both the auditor and of local authority time could be quite high.

6.2.18 Finally, neither the *Pillars* nor the *Financial Management Code* explicitly cover the impact of commercial activity on a local authority's financial resilience. General fund investments should be considered as part of the audit of financial accounts but wholly owned companies would only be considered if material enough to be consolidated into the accounts.

6.3 Current audit requirements to assess the sustainability and resilience of LAs in England

The Going Concern opinion

6.3.1 An underpinning principle of a financial audit is a 'going concern assumption'. The going concern principle means that readers of a set of accounts are entitled to assume a business will continue in the future, unless there is evidence to the contrary. When an auditor conducts the examination of the accounts, there is an obligation to review its ability to continue as a going concern for the next twelve months.

6.3.2 If the auditor concludes that there is significant doubt that the reporting entity is a going concern, the audit opinion is qualified, and a report explaining the auditor's financial resilience concerns is included with the audit opinion. In addition, if an entity is not a going concern, assets and liabilities must be valued at the amount they can be sold for rather than by assessing their ongoing value to the entity.

6.3.3 This particular way of validating a local authority's financial health has attracted much criticism from respondents. The view of practitioners is that that a local authority cannot face the prospect of bankruptcy/liquidity in the way that a company might.

6.3.4 In addition, local authorities are presumed to be a going concern for the purpose of forming an audit opinion, as the financial reporting frameworks for these bodies dictate a continued service approach, unless there is a clearly expressed Parliamentary intention to discontinue the provision of the services which the entity provides. The NAO has consulted on Supplementary Auditor Guidance, that reinforces this point.

6.3.5 87% of respondents to the Call for Views think the going concern assumption is meaningless in a local authority context. Respondents noted that local authorities would be likely to receive support from Central Government in the wake of a serious event. Many highlighted the example of Northamptonshire remaining a going concern for audit opinion purposes, even when the auditors had issued an advisory notice on what was considered to be an undeliverable budget. as an apparent example of the opinion's flaws. Those who responded that the opinion was meaningful included a majority of audit firms who acknowledged the going concern opinion's flaws and suggested changes but, on the whole, felt that it was still important that this assessment was carried out.

The value for money opinion

6.3.6 The other dimension of audit which could look at financial resilience is through the work required to support what is known as the 'value for money opinion'. The work required to support this opinion is governed by the NAO's Code of Audit Practice ("the Audit Code"). What the auditor is required to do is to form an opinion on the adequacy of the systems in place to support the economy, effectiveness and efficiency of service delivery. Under current practice in England, the auditor may test the adequacy of systems and procedures used to construct the mid-term financial plan but is only required to do so if a significant risk is identified during the audit. The auditor is not required to examine the mid-term financial plan from a sustainability perspective or form a conclusion on the financial resilience of the authority.

6.3.7 The update to the Audit Code, effective from 2020-21, will require auditors to provide a narrative statement on the arrangements in place. The aim of this statement is to provide more useful information to stakeholders, to report in a timelier manner and, through the move away from a binary opinion, encourage auditors to be bolder in highlighting concerns. The updated Audit Code has been broadly welcomed by stakeholders and has the potential to enhance value for money reporting in England.

6.3.8 What the updated Audit Code does not do is specify that auditors consider specific matters or judge local authority systems and performance against specific standards or good practice examples, such as CIPFA's *Pillars of Financial Sustainability* or their *Financial Management Code*. Nor does the updated Audit Code provide any guidance on how to assess whether a value for money risk is material.

Timeliness of the value for money opinion

6.3.9 Less than half of respondents to the Call for Views expressed an opinion on the timing of the VfM opinion. Two thirds of those who expressed an opinion agreed that the statutory reporting deadline of end-September was the right point in the annual cycle to present the VfM opinion, coming as it does near the start of the following year's annual budget setting planning cycle. Many commented that the external audit firms still had the capability to raise any significant VfM concerns outside this process, a process where they were happy with the content.

6.3.10 Those that disagreed included all but one of the audit firms who responded to this question. In addition, many of the local authorities who responded to the Call for Views didn't have strong opinions either way. Some thought that the opinion might be better presented in May, right at the start of the following financial year, but others expressed concern as to whether audit firms would have the capacity to handle a split reporting timetable.

6.3.11 A subsidiary, but still important, factor when considering the timing of the opinion is auditor resourcing. If the full benefits from the revised VfM opinion in the new Audit Code are to be realised, auditors will need to do more work.

6.3.12 Therefore, thinking about how to time the publication of the opinion so that it is of the most use, has the most impact, and can be supported by timely audit work must be a matter for serious consideration.

6.4 Practice in other jurisdictions

6.4.1 Audit requirements in other jurisdictions, for example Scotland, Wales and New Zealand provide alternative models, all of which provide practices that could help bridge the expectation gap between what auditors are required to do and what stakeholders expect them to do to assess financial resilience. The Review has explored New Zealand as it has a different model that is worthy of consideration.

6.4.2 Scotland and Wales have different models of value for money reporting, with Scotland's model requiring the auditor to assess future plans and Wales' model including the option for the auditor to undertake more focussed work on financial resilience as a separate engagement.

6.4.3 In New Zealand, there is no VfM opinion, but instead the financial audit opinion has been extended to cover a large number of pass/fail service delivery and financial resilience metrics. The financial resilience metrics are common to all authorities, allowing comparisons to be made.

6.4.4 Care needs to be taken when assessing the appropriateness of these models. There are currently 32 unitary authorities in Scotland, 22 unitary authorities in Wales and 78 local, regional and unitary councils in New Zealand compared to 343 local authorities in England. It may not be possible to scale-up practices that are appropriate in these jurisdictions to England in a coherent way or to do so at a reasonable cost.

Practice in Scotland

6.4.5 When scoping, planning, performing, and reporting on their 'best value' work, auditors in Scotland are required to consider four audit dimensions. The first of these, financial sustainability, interprets the short term going concern opinion and requires auditors to look *"forward to the medium (two to five years) and longer term (longer than five years) to consider whether the body is planning effectively to continue to deliver its services or the way in which they should be delivered."*

6.4.6 The results of VfM audits of Scottish local authorities tend to produce quite rich reports, which the Accounts Commission, the public spending watchdog for local government in Scotland, uses to identify and highlight key trends and risks across the sector. For example, the *Local Government in Scotland, Financial Overview Report 2018-19 (Dec 2019)*[15] found that Scottish councils were increasingly drawing down on their revenue reserves; and whilst all councils had medium term financial planning covering the next three to five years, long term financial planning had not improved since the last report.

[15] https://www.audit-scotland.gov.uk/uploads/docs/report/2019/nr_191217_local_government_finance.pdf

Practice in Wales

6.4.7 The value for money audit opinion an auditor of a Welsh local authority is required to provide is the same as that in England; that is an opinion on the "arrangements for securing economy, efficiency and effectiveness in its use of resources". However, the Welsh Code of Audit Practice requires auditors to review significant arrangements in place irrespective of whether material risks have been identified.

6.4.8 Where an auditor identifies notable financial resilience or other value for money concerns, the Auditor General for Wales has the statutory power[16] to publish a separate substantive report. These reports are publicly available on the Wales Audit Office's website and provide an in-depth assessment of the issues identified and the appropriateness of the plans that the local authority has to address these.

Practice in New Zealand

6.4.9 Local authorities in New Zealand are required to report performance in the Annual Report and Accounts against a range of financial prudence benchmarks specified in legislation. The auditor is required to report on the completeness and accuracy of the local authority's disclosures against these benchmarks. As all of the benchmarks have pass/fail thresholds, they lend themselves to a binary audit opinion.

6.4.10 The purpose of this statement is to disclose the Council's financial performance in relation to required benchmarks in order to assess whether the Council is prudently managing its revenues, expenses, assets, liabilities and general financial dealings. Although the benchmarks are backwards looking, five-year trend information is presented which helps the user of the accounts to understand how effective the local authority is in managing its financial resilience.

6.5 The audit of financial resilience – a new model for England?

Introduction

6.5.1 There is a significant gap between the reasonable expectations of many stakeholders and what the auditor is required to do when assessing the financial stability and resilience of local authorities.

6.5.2 To help bridge the expectation gap, the scope of audit should include a substantive test of a local authority's financial resilience and sustainability. Care and attention will need to be taken to define how the auditor should address historical, current and future financial sustainability issues, so that the engagement does not become overly burdensome or provide false comfort to stakeholders. In addition, expanding the scope of the audit will increase costs, and there needs to be a balance between those costs and the potential benefits of additional audit coverage and reporting.

6.5.3 However, cost should not be a deterrent in and of itself. The expansion of the opinion to encompass financial resilience and sustainability would, potentially, provide comfort to the authority and to council taxpayers that the finances are in good order. This

[16] under Section 17 of the Public Audit (Wales) Act 2004 and section 18 of the Local Government Wales Measure 2009

would represent a genuine demonstration of public accountability both from a local authority and from an audit perspective.

Form of the opinion

6.5.4 The revised narrative opinion proposed in the new NAO code should lead to a significant enhancement in the usefulness of auditor reporting. The 2020 Audit Code sets out three reporting criteria (para 3.10)[17]:

- Financial sustainability: *how the body plans and manages its resources to ensure it can continue to deliver its services;*
- Governance: *how the body ensures that it makes informed decisions and properly manages its risks; and*
- Improving economy, efficiency and effectiveness: *how the body uses information about its costs and performance to improve the way it manages and delivers its services.*

6.5.5 These criteria are not dissimilar to the four reporting pillars in the Scottish model. The pillar that auditors of English local authorities are not explicitly required to report on is financial management. It is unclear why this has been omitted but a possible reason is that an auditor would normally be expected to review material financial management controls as part of financial audit work.

6.5.6 The reporting requirements contained within the 2020 Audit Code will take time to settle down and embed and there will be a role for the regulator in identifying and promoting good practice. However, if practice develops as the NAO intends, the new reports should provide more useful information to stakeholders.

Work required to support an assessment of financial resilience

6.5.7 The 2020 Audit Code requires auditors to do less work to assess financial resilience than is required in either Scotland or Wales.

6.5.8 Specifically, auditors in England will not be required to test whether the body is planning effectively to continue to deliver its services or the way in which they would be delivered over the medium or longer time horizon as in Scotland. Nor will auditors be requested to review the design of significant arrangements to secure value for money, and, where appropriate given the assessment of risk, test the operating effectiveness of those arrangements as in Wales.

6.5.9 In addition to the factors mentioned in the Code, auditors could use the indicators of financial stress in the CIPFA publication, *Pillars of Financial Resilience*, as a key element of the risk assessment.

6.5.10 To support such an assessment the auditor could be required to critically assess and, in cases where significant risks are identified, test the CFO's Section 25 report along with any other statutory reports or management estimates that have an impact on medium or long term financial resilience. This testing could include an assessment

[17] https://www.nao.org.uk/code-audit-practice/wp-content/uploads/sites/29/2020/01/Code_of_audit_practice_2020.pdf

of whether there are clear plans for delivering savings, the usage rate for non-ringfenced revenue reserves and whether the local authority benchmarks its costs against nearest neighbours and takes appropriate action in response to variances, as set out in accordance with CIPFA's *Pillars of Financial Resilience*.

6.5.11 In addition, the auditor could explicitly be required to assess whether the local authority has complied in practice, and in spirit, with statutory guidance that it is required to "have regard to".

6.5.12 CIPFA's *Financial Management Code* is another model that provides a set of standards against which auditors could assess value for money and financial resilience. However, it is too detailed to assess without a considerable amount of additional audit work. Nevertheless, the principles in the *Financial Management Code* would enhance the consistency of local authority financial management. MHCLG could take the opportunity to give it statutory status when the opportunity arises and require local authorities to report on their compliance with it in their Annual Governance Statement. Since auditors are required to read the Annual Governance Statement to ensure it is consistent with their knowledge of the business this, combined with the enhanced resilience testing recommended, would require auditors to report material breaches.

6.5.13 Consideration has also been given to whether it would be appropriate to require a specific investigation. A more detailed report would enable specific VfM or financial resilience issues to be identified, as in the Welsh model. This is not recommended, as this element of the Welsh model is not applicable due to scale.

7. Financial reporting in local government

7.1 The purpose of financial reporting in the local authority sector

7.1.1 Financial reports provide information to people who seek to understand the performance of an entity. As most of the money that local authorities receive is provided from general or local taxation, it is reasonable to expect people outside the body who are interested in a local authority's financial performance to want to know how the money being managed is being spent. This includes knowing whether the local authority is performing effectively to achieve what was intended with this money.

7.1.2 Local taxpayers and service users do not have the power to require a local authority to produce bespoke financial information for them. Instead, they have to rely on the financial statements. They can inspect the financial statements and the underlying accounting records for a 30-day period that must comprise the first ten days in June. This means that to be relevant the information produced in local authority financial statements must meet the accountability and/or decision-making needs of users and be sufficiently transparent and understandable to allow them to ask appropriate questions.

7.2 Introduction to the framework

7.2.1 When producing financial reports, local authorities are required to have regard to the Statutory Code of Local Authority Accounting Practice ("the Accounting Code"), issued by the CIPFA. The Accounting Code is based on private sector accounting standards other than where they have been adapted for the specific circumstances of local authorities or where these are overridden by specific statutory requirements. As set out in **Figure 7.1**, Government retains the power to use secondary legislation either to override normal accounting practices or to require local authorities to include additional disclosures in their accounts.

Figure 7.1
Hierarchy of the Local Authority Accounting Framework

Primary Legislation	**Local Government Act 2003** Allows SoS to make provision about accounting practices that local authorities must follow.
Secondary Legislation	**Capital Finance and Accounting Regulations 2003** Gives CIPFA the power to produce a statutory accounting code. Introduces statutory overrides to private sector accounting practices; which must be reflected in the accounting code.
Statutory Code of Practice	**CIPFA Accounting Code of Practice** Statutory code setting out proper practices for local authority accounting in England.

7.2.2 When implementing, adapting or interpreting accounting standards, the Code seeks to maintain consistency with other parts of the UK public sector. Preparation of the Code is overseen by the CIPFA/LASAAC Accounting Code Board, which comprises representatives of all the key stakeholder groups. MHCLG has observer status on this Board.

7.2.3 This Accounting Code board does not act in isolation. Its decisions are reported to the Financial Reporting Advisory Board (FRAB), which advises HM Treasury on public sector accounting. In practice, both the annual update to the Accounting Code and any amendments or adaptations to accounting standards for the local authority sector need to be considered at FRAB as well as at the CIPFA/LASAAC Board.

7.2.4 The Accounting Code applies to Principal Councils, PCCs, Chief Constables, FRAs, the GLA, Mayoral Combined Authorities, Passenger Transport Executives and National Park authorities in England. It also applies to similar authorities in Wales, Scotland and Northern Ireland, although the legislative framework for these authorities is different and they are outside the scope of this Review. The Code does not normally apply to subsidiary companies consolidated into local authority accounts. Such companies use the applicable private sector accounting framework.

7.2.5 The Accounting Code is updated annually, and a new edition is published each financial year. Purchasing the 2019-20 Code from CIPFA costs £340 (hard copy) or £710 (online copy). CIPFA's sales numbers demonstrate that at least one third of local authorities do not purchase an Accounting Code in any given year.

7.2.6 The Accounting Code does not apply to smaller authorities, for example Parish Councils, Ports Authorities or Independent Drainage Boards with gross income or expenditure of less than £6.5m per annum (which is currently all but one of them). The accounting and governance framework for these authorities is set by an organisation called the Joint Panel on Accountability and Governance (JPAG), which comprises representatives of all of the key stakeholder groups. Smaller Parish Councils fill in a simplified financial return on a receipts and payments basis. Further discussion of smaller authorities is included in **Chapter 8**.

7.3 Format of local authority accounts

7.3.1 Local authority accounts are very lengthy compared to accounts in other sectors, typically numbering in excess of 50 pages for shire districts and more than 80 for upper and single tier local authorities. They have more primary statements than central government and private sector accounts. **Figure 7.2** shows the primary statements and supplementary accounts that the user can expect to find in a set of local authority accounts.

7.3.2 Local authority accounts are arguably more complex and more challenging for a service user to understand than accounts produced by other parts of the public sector. This is primarily because there is a difference between the budget analysis of information for council tax purposes and the statutory basis of year end accounts.

Figure 7.2

Local Authority Accounts – Primary Statements and Supplementary Accounts

Statement	Purpose
Comprehensive Income and Expenditure Statement (CIES)	Summary of the resources generated and consumed by the council on an accruals basis. Shows gross and net expenditure by service area and other income and expenditure incurred by the council.
Movement in Reserves Statement (MIRS)*	Shows how the movement in reserves in the Balance Sheet is reconciled to the CIES deficit and what adjustments are required to be charged to the general fund balance for Council Tax setting purposes.
Balance Sheet	Sets out the Council's financial position at the year end.
Expenditure and Funding Analysis (EFA)*	Summarises the annual expenditure used and funded by the Council together with the adjustments between the funding and accounting basis to reconcile with the CIES.
Cashflow Statement	Summarises the inflows and outflows of cash for revenue and capital transactions during the year.
Collection Fund Account* • Billing authorities	Agent's statement that reflects the statutory obligation for billing authorities to maintain an account showing collection of Council Tax and National Non-Domestic Rates (NNDR) and the distribution of these taxes to precepting authorities.
Housing Revenue Account (HRA)* • LAs with social housing stock	Local authorities are not allowed to cross subsidise provision of social housing from general taxation or vice versa. The HRA shows the major elements of expenditure on social housing and how these costs are met.

** Statements unique to local authority accounts*

7.3.3 Local authorities calculate their annual council tax requirement through setting a "balanced budget". The balanced budget calculation that local authorities are required to make is specified in primary legislation and is undertaken on a receipts and payments basis. Following the adoption of accruals accounting[18] by the local authority sector and as IFRS have continued to develop, successive governments have sought to protect council taxpayers from accruals movements that do not have an immediate impact on the costs of service delivery. They have done this through introducing statutory overrides.

7.3.4 The most significant of these statutory overrides relates to depreciation. Local authorities are required to charge depreciation on assets in the same way as any other entity. They then reverse out the depreciation charge in the Movement in Reserves statement (MIRS) and replace it with a prudent provision for the debt taken out to acquire assets (Minimum Revenue Provision).

[18] Accruals accounting is a form of accounting where you recognise the economic cost of assets and liabilities over the period when benefits accrue. For example, if you are using accruals accounting and buy a car that you expect will last five years you would split the purchase cost of that car over five years. By comparison if you are accounting on a receipts and payments basis you would recognise the full cost of the car in the year you pay for it.

7.3.5 The adjustments process has two consequences. Firstly it substantially increases the length of local authority accounts as the financial statements report some transactions on both an accruals basis (through the CIES) and a funding basis (through the EFA and MIRS) and include notes reconciling the two; and secondly, unlike for financial statements produced by other sectors, neither the CIES nor the Balance Sheet shows the true financial position of a local authority. To understand that position it is necessary to understand how the outturn reported in these statements reconciles to the basis on which the balanced budget calculation is made.

7.3.6 In addition to the statements in **Figure 7.2**, those local authorities who are also “administering authorities” for local authority pension funds are required to publish full Pension Fund accounts in the same document as their local authority accounts. The Pension Fund accounts are audited as a separate audit engagement. This further lengthens the document and means that the audited accounts cannot be published as final until both the local authority audit and the pension fund audit have been completed. The sector has asked MHCLG to look at decoupling the local authority and pension fund accounts. However, it is not possible to do this without primary legislation.

7.4 Usefulness, understandability and transparency of local authority accounts

7.4.1 The Annual Accounts that each local authority must prepare are prescribed in detail and relevant standards must be observed in the preparation of the statutory accounts and financial report. IFRS cover both the public and private sectors so auditors seek to adhere to those principles when auditing local authority accounts. There is widespread agreement that the resultant accounts are not transparent or easily understandable.

7.4.2 Local government practitioners argue that the extent and nature of asset valuations, very relevant in a commercial setting, undertaken by auditors, have limited significance in local government where assets are more often than not critical to service delivery and “market value” is not a consideration. Time allocated to the asset valuation process for property and pensions, it is agreed, is considerable and increases the cost of audit as well as, in some cases, leading to delays in the audit being finalised. Underlying this point is the question of whether IFRS should continue to be a key element of local authority statutory accounts.

7.4.3 An issue related to the concern in local government about the complex local authority accounting arrangements is the capacity of the external auditor to test and validate technically intricate accounting treatment without a familiarity with local authority finance and accounting. Such an assertion by local government is not universal but it is a concern of many. However, the audit community, whilst recognising that there has been depletion in the number of auditors who served in the District Audit Service, is confident it has necessary skills and resources to fulfil the role.

7.4.4 As highlighted in **Chapter 4**, there is evidence of market stress in the supply of appropriately experienced and qualified local authority auditors. Some auditors have also argued that local government itself does not always have accounting staff with the technical expertise to complete the final accounts without guidance and support from external audit.

7.4.5 That the local authority accounts are very complex is not in dispute. There is wide acknowledgment from all stakeholder groups that the annual financial statement of accounts is understandable only to those with the necessary technical and professional knowledge of local authority accounts. When asked whether local authority accounts allow the user to understand an authority's financial performance and its financial resilience, 93% of respondents said no.

7.4.6 Whilst some local authority respondents argued that the understandability of the accounts is not an issue, because service users and taxpayers can take assurance from the fact that they are prepared and audited to internationally recognised standards, it is questionable whether this is a defensible position.

7.4.7 The lack of transparency and understandability of local authority accounts raises a fundamental and serious challenge in terms of transparency and public accountability. Potential users extend beyond councils, government and auditors. Key stakeholders include council taxpayers/service users, the general public, academia, the media and local authority partners and contractors. Without an appropriate level of transparency these users may not have the information to challenge their local authority effectively. The rigour underpinning local authority accounting and auditing may not be at issue but the accounts, as currently structured and presented, do not enable the public to understand how local authorities are stewarding public funds.

7.5 Options for reform

7.5.1 There are three broad options for enhancing the transparency and usefulness of local authority financial statements, so that they better serve the needs of a wider group of stakeholders. These are:

- Review of IFRS as a basis for the preparation of local authority accounts.
- Expansion and standardisation of the current narrative statement.
- Introduction of a new summary statement presented alongside the IFRS accounts.

7.5.2 The underlying purpose of all three options is to strengthen financial transparency and accountability by providing a simplified presentation that is more relevant to stakeholders. All options have costs associated with them but these need to be set against the benefits of that increased transparency.

Review basis on which accounts are prepared

7.5.3 CIPFA could be asked to review the basis of accounts, with the aim of updating the Accounting Code so that the transactions presented in the annual financial statements are prepared on the same basis as the annual budget approved by Full Council.

7.5.4 If followed to its logical conclusion, this would allow local authorities to prepare simplified accounts that could be easily reconciled to the annual budget. If accounts are presented on a funding basis, the reconciliations between the funding and accounting basis would no longer be required. In addition, many of the lengthier notes to a set of financial statements, such as the financial instruments disclosures, are mainly required to support IFRS disclosures and could be removed or simplified. This would lead to much shorter documents.

7.5.5 There are some issues that would have to be addressed with this recommendation. Firstly, designing and implementing a new accounting framework would be challenging. CIPFA could go back to the pre-2010 near cash accounting framework, but it is questionable whether this would be appropriate. Many local authorities are far more commercial in their operations and have far more leveraged balance sheets than in 2010, so removing much of the accounting for long term assets and liabilities could present a misleading picture of financial resilience to service users. It could lead to local authorities to leveraging their balance sheet yet further, storing up potential financial problems for future years.

7.5.6 Secondly, there is the perception risk of such a step. There could be a perceived disconnect if local authorities reverted to cash accounting at the same point that some are becoming more commercial, taking on more debt to invest in assets acquired solely or partially to generate a return.

7.5.7 Thirdly, moving away from IFRS accounting would create consistency problems between various parts of the public sector. The Accounting Code applies to Scotland, Wales and Northern Ireland as well as to England. If English local government moved to a near cash accounting framework, the other UK jurisdictions would face the decision of mirroring that move or else the Accounting Codes would need to diverge. In addition, the results of UK local government bodies are consolidated into the Whole of Government Accounts, which are prepared on an IFRS basis. If English local authority accounts moved to a near-cash accounting basis, those authorities would in practice be required to maintain financial records and prepare accounts on two bases: on a near-cash basis for their own accounts and an IFRS basis for consolidation into WGA. This would impose considerable additional cost.

7.5.8 Finally, the UK public sector is held up as applying a gold standard of accounting, primarily because it is one of the few to apply IFRS fully. If part of the sector moved away from this it could generate considerable reputational risk. As a result, HM Treasury and FRAB may well oppose any significant modification of the English local authority accounting framework.

Expansion and standardisation of the narrative statement

7.5.9 The framework for local authority annual reports and accounts is unusual in that, although local authorities are required to prepare an annual report, it does not include any mandatory disclosures. In 2015 CIPFA launched the “Telling the Story” initiative, which encouraged local authorities to use the annual report to accurately reflect financial and service performance. Some local authorities have produced innovative and informative annual reports following the launch of this initiative, but performance varies, with other authorities making minimal disclosures. In addition, because “Telling the Story” does not include mandated standards or disclosures it is not consistent across authorities.

7.5.10 By comparison, the UK Central Government Financial Reporting Manual (the “FReM”) requires all central government reporting entities to prepare a Performance Report and an Accountability Report, both of which are based on Companies Act requirements as adapted for the public sector and contain mandated disclosures.

7.5.11 A similar approach could be adopted for local authority accounts. In this model, local authorities could be required to include a Performance Report in their annual report and accounts containing a reconciliation between the approved budget and year-end service expenditure, along with explanations for significant variances and the impact of the variances on revenue reserves, prepared on a budget setting basis whilst being reconcilable to the statutory accounts. Potentially this could be supplemented with standardised service delivery metrics and an explanation of longer-term risks and mitigations linked to key financial management strategies such as the Mid-Term Financial Plan, as appropriate.

7.5.12 The proposed Performance Report could be a transparent element of a local authority’s Annual Report and Accounts, which discloses what the local authority planned to spend on each major service area, what it actually spent, where there were significant variances between the two what the reasons were, and what impact that has had on the reserves available to support the following year’s expenditure. With the addition of service delivery metrics, the Report could also start to give an indication of what service users and taxpayers have got for their money. If the financial information and performance metrics are prepared to common standards, this could start to bring a degree of comparability between authorities, which could promote improvements in the effectiveness and efficiency of service delivery.

7.5.13 Finally, if the reconciliation between budget and outturn is presented in the Annual Report, it may be possible to remove or reduce the MIRS, the EFA and supporting disclosures. This could offset the increased work required to produce the new Performance Report.

7.5.14 There are some challenges with this approach:

- it would mean extending the scope of the audit engagement, particularly if the auditors are required to form an opinion on non-financial information.
- if non-financial service delivery metrics are subject to audit they will need to be prepared and disclosed on a consistent basis. It will be necessary to identify appropriate metrics across a range of service areas, a process that could take time. In addition, including metrics for all of the services that a local authority provides would require very lengthy disclosures.
- if included in a long Annual Report and Accounts document, there is no guarantee that this statement would be any more visible to the general public than the current financial statements are.
- there is a risk that some local authorities use the narrative element of such a statement to present an overly positive view of their achievements and finances.

Introduction of a new summary statement

7.5.15 A variation in part, and a replacement of the enhanced narrative statement, is to leave the current local authority accounts largely unaltered and instead require the production of Summarised Accounts, prepared on the budget setting basis. As with the enhanced narrative statement, the Summarised Accounts would need to be reconcilable to the Statutory Accounts and be subject to audit to have credibility.

7.5.16 Statutory Guidance would need to be developed to set out the form and content of the Summarised Accounts. Potentially they could contain:

- A statement of service information and costs prepared in a standard format and to a standardised framework. The most appropriate framework would probably be the statutory Service Reporting Code of Practice (SERCoP).
- Comparison between budget setting information and outturn performance.
- A degree of detail to encompass all key service expenditure heads; where appropriate this could be extended to present unit cost information. A simplified balance sheet, including some form of assurance relating to non-ringfenced revenue reserves and debt levels and borrowing plans, with the latter linked to the Prudential Framework disclosures, could also be produced.
- A brief narrative. This could be limited to a financial commentary comprising explanations of significant variances between budget and outturn along with an assessment of the impact on medium term financial sustainability. It may also be possible to include a brief description of outcomes though this would need to be linked back to the objectives set when the annual budget was approved.

7.5.17 The aim of this document would be to present a statement aimed at the local community rather than as a basis for compiling national statistics. Because of differences between local authorities, comparability would be difficult and potentially misleading. Local authorities could be asked to think about a range of communication methods to reach their local communities more effectively.

7.5.18 The summary accounts would be a vehicle to increase transparency. As this would be a short stand-alone document, it would be much more accessible to taxpayers and service users.

7.5.19 Local authorities would have to reconcile outturn between the funding basis and IFRS accounting basis. However, the value of disclosing these reconciliations could be reassessed, potentially allowing the MIRS, the EFA and supporting disclosures to be discontinued. This could allow the statutory financial statements to be prepared on an IFRS basis without statutory adjustments.

7.5.20 Finally, consideration would need to be given as to the level of audit required for the Simplified Statements, and the agreed procedures that auditors would be required to undertake to provide assurance over reconciliations between the IFRS Financial Statements and the Simplified Financial Statements, that are not disclosed in either.

8. Smaller authorities

8.1 Introduction

8.1.1 Smaller authorities are defined in the 2014 Act as an authority where the higher of gross annual income or expenditure does not exceed £6.5 million for three years (or one or two if the authority has not existed for three years). Currently there are just under 10,000 smaller bodies, only one of which has to prepare a full set of IFRS compliant accounts and undergo a full audit.

8.1.2 There are different types of smaller authority with a varied range of responsibilities and powers:

- Local councils including Parish, Town, Village and Community Councils and parish meetings. Some common responsibilities can include, but are not limited to, commons and open spaces, car parks, lighting, footpaths, leisure and sports facilities, litter bins, and tourism activities. Some of these services are delivered on behalf of the unitary and district councils.
- IDBs which are responsible for managing water levels including managing flood risks and land drainage.
- Other smaller authorities such as charter trustees, port health authorities, conservation bodies and crematorium boards.

Smaller authorities are financed primarily through a precept which is collected as part of council tax by the unitary or district council. They can also apply for grants and awards.

8.1.3 Governance arrangements depend on the type and size of the authority. All local authorities are required to have a clerk; however, for small authorities, this could be their only employee or may be a volunteer or part-time worker. Roughly two-thirds of smaller authorities have a single employee, and some don't have any employees. The clerk is analogous, in part, to a CFO in a principal authority, as there is a requirement to give guidance to councillors, in many cases carrying out the role of the Finance Officer. Smaller authorities must publish the statement of accounts together with any certificate or opinion provided by the local auditor[19].

8.2 Scale of audit

8.2.1 Smaller authorities are not required to produce IFRS based accounts but instead produce a simplified statement of account on a receipts and payments basis. Some larger Parish Councils present accruals-based accounts alongside this, although these are unaudited. As set out in **Figure 8.1**, smaller authorities are either exempt from audit or undergo a 'limited assurance engagement'. As the name suggests, this provides less assurance than a full-scale audit.

8.2.2 While most authorities with an income or expenditure of up to £25,000 are exempt from audit, a request can be made for a 'limited assurance engagement' from SAAA who will then appoint an auditor to undertake this work. More than 100 bodies have chosen to do this.

[19] The Accounts and Audit Regulations 2015 https://www.legislation.gov.uk/uksi/2015/234/pdfs/uksi_20150234_en.pdf

Figure 8.1

Table of audit thresholds and associated requirements for smaller authorities [20]

Level of income or spending	Form of external assurance to be provided from 2017-18 onwards	% of smaller authorities in each band
More than £6.5 million.	'Full audit' under international auditing standards.	0.01%
Up to £6.5 million but more than £200,000 (accounts on income and expenditure basis)	Limited assurance engagement but may opt for 'full audit'.	11%
Up to £200,000 but more than £25,000 (accounts can be on either receipts and payments or income and expenditure basis)	Limited assurance engagement but may opt for 'full audit'.	31%
Gross income or gross expenditure up to £25,000	Exempt from audit and limited assurance engagement in most cases, subject to the authority certifying that it is exempt. Work by an auditor may still be needed in certain circumstances – notably if there are objections to the accounts.	58%
No financial transactions and no accounts	Exempt from audit and limited assurance engagement in most cases, subject to the authority certifying that it is exempt.	

8.2.3 Smaller authorities are also required to undertake an internal audit to evaluate the effectiveness of its risk management, control and governance processes[21]. Quality of internal audit staff is said by some respondents to be variable, which has the potential to cause issues for the external audit.

8.2.4 One of the trends in recent years has been the transfer of assets and associated running costs to Parish Councils. If smaller authorities are given more responsibility, or if the spending of smaller authorities were to change to where many such authorities approach the £6.5 million threshold, the current accountability arrangements may no longer be appropriate. The assurance levels may need to be reviewed by MHCLG. This is especially pertinent as smaller authorities are not bound

[20] NAO AGN02 Specified Procedures for Assurance Engagements at Smaller Authorities https://www.nao.org.uk/code-audit-practice/wp-content/uploads/sites/29/2015/03/Auditor-Guidance-Note-02-Specified-Procedures-for-Assurance-Engagements-at-Smaller-Authorities.pdf

[21] The Accounts and Audit Regulations 5(1) 2015https://www.legislation.gov.uk/uksi/2015/234/made#:~:text=5.,internal%20auditing%20standards%20or%20guidance.

by council tax referendum rules[22] and can raise their precept by the amount they consider necessary.

8.2.5 In 2020, one IDB met the threshold for preparing full statutory accounts. Available evidence suggests that this is the first occasion of this happening. The cause of the IDB's increase in income and expenditure was the capital grants it received and, as such, the requirements for a full code audit may be temporary. PSAA and the Association of Drainage Authorities (ADA) have worked with the authority to find a new auditor as the previously appointed auditor does not qualify under the statutory framework to undertake full audits. This also resulted in an increased audit fee, from less than £5,000 to £40,000. Producing full IFRS accounts will considerably increase the amount of internal work required by the IDB and this is likely to represent a challenge to its available skills and infrastructure.

8.3 Procurement of audit

8.3.1 Prior to 2017, smaller authorities were included in the audit contracts let by the Audit Commission in 2014 that were taken over by PSAA through the transitional arrangements. SAAA was designated as an appointing person under legislation[23] by the Secretary of State to take over this role from 2017-18. SAAA is an independent, not for profit company. SAAA was set up by the National Association of Local Councils (NALC), Society of Local Council Clerks (SLCC) and the Association of Drainage Authorities (ADA). Although smaller authorities have the same power to appoint their own auditors as principal authorities, in practice, all smaller authorities opted in to SAAA's procurement. SAAA has appointed external auditors for a 5-year period from 1 April 2017.

8.3.2 SAAA's procurement comprised 17 equally sized lots. Other than for IDBs, which were grouped together, lots were geographically based. The SAAA procurement was based on price once a supplier had met a minimum quality threshold. There were five firms that met this threshold. The result of this exercise was that 15 were awarded to a single audit firm and two other firms won one lot each. This met SAAA's declared objective of having a minimum of three firms in the market. Of the three firms, two had previously held contracts with PSAA and one re-joined the market. With regard to the quality and price ration for appointing auditors, SAAA believes that once a certain threshold is reached, it is very difficult to differentiate between firms on the basis of quality.

Fee scale

8.3.3 SAAA's fee scale is based on 15 bands of income or expenditure (whichever is higher). Audit Commission and then PSAA, through the transitional arrangements, also used this fee scale. Exempt authorities do not pay an audit fee. Authorities with income or expenditure of between £25,000 and £50,000 pay an audit fee of £200. Fees rise in stages up to a maximum of £3,600 in cases where income or expenditure is more than £5 million but less than £6.5 million.

[22] The Local Authorities (Conduct of Referendums) (Council Tax Increases) (England) Regulations 2012 https://www.legislation.gov.uk/ukdsi/2012/9780111519035/regulation/3
[23] The Local Audit (Smaller Authorities) Regulations 2015 https://www.legislation.gov.uk/ukdsi/2015/9780111126103

8.3.4 The scale fees paid by smaller authorities for their audit have remained unchanged for the past 12 years. There have been savings for those smaller authorities that, from 2017, could declare themselves as exempt and, therefore, did not have to pay for an audit.

8.3.5 This audit fee model relies on larger authorities supplementing the cost of audit work for smaller authorities. As there are 15 bands of fees, there may be councils receiving the same level of audit work whilst paying different amounts. Although this may offer the most efficient method of payment to ensure audit is affordable for all smaller authorities, the banding system may warrant review.

8.3.6 Overall, smaller authorities seem content with the level of audit fees they pay. The only area of concern raised related to capital grant funding. Two Parish Councils raised concerns that the impact of the rising scale fee could be a deterrent for local authorities investing in future capital schemes in the local community.

Fee variations

8.3.7 Smaller authorities may be subject to variations to the scale fees set out above if additional work is needed. Some of this work is costed as a fixed supplement of the fee scale and some is charged at fixed hourly rates. SAAA agreed a maximum hourly rate for additional work and this is published on their website. Examples of where fee variations may be charged include the auditor considering objections to the accounts from local electors, and where special investigations are undertaken.

Quality

8.3.8 There is no indication that the smaller authority audit market is encountering delayed audit opinions, as is the case for larger authorities. SAAA use trackers completed by the firms to collate and analyse key management information to track and report on the management, delivery and the outcomes of limited assurance reviews. SAAA also reviews the underlying data quality and system interfaces on a light touch risk basis.

8.3.9 In carrying out its quality assurance role, as set out in the Appointing Person Legislation, SAAA review and test the firms' internal quality assurance processes and contract compliance systems (quality aspects) to ensure the delivery of good quality reviews. An overall rating for both quality of limited assurance review work and contract management, compliance and data quality is provided. The findings of this process are reported to each firm and to SAAA's Board. They do not publish these findings, though they maintain the right to do so.

8.3.10 A very small number of smaller authorities responded to the Call for Views; therefore, it must be stressed that the following comments are not necessarily reflective of the sector. One Parish Council commented that the arrangement with SAAA made it feel that the auditor didn't consider the council to be its customer. Similar feedback has been received concerning PSAA's role. It also commented that it felt the quality of their audit was very poor and that it added no value. This may be in part due to the framework of limited assurance audit for smaller authorities and a resulting 'expectation gap'. The Review is unable to corroborate whether this is a commonly held view.

8.3.11 Two other Parish Councils questioned whether auditors provided the right level of assurance. One commented that larger Parish Councils should be held to the same standards for financial reporting, transparency and accountability as those applied to principal authorities of equivalent size. The council linked this to the fact that some councils are playing an increasingly significant role in their communities. It is true that there are currently three smaller authorities that have an annual income or expenditure of over £5 million which is similar to the smallest Category 1 authority which is subject to a full audit. However, there are not many Category 1 authorities that are this small. The other respondent was specifically concerned about governance and financial transparency within the council and the lack of clarity on spending.

8.4 Accountability

8.4.1 In addition to producing a financial return, most smaller authorities are subject to transparency requirements. There are two Transparency Codes; authorities with an income or expenditure of £200,000 or more are included in the same mandatory Transparency Code[24] as principal authorities. Exempt authorities are subject to a specific smaller authority Transparency Code[25], made mandatory in April 2015, that:

"will enable local electors and ratepayers to access relevant information about the authorities' accounts and governance".

8.4.2 Authorities with income and expenditure under £200,000 but above £25,000 are expected to follow the same requirements but it is not mandatory. As these authorities are subject to audit, the transparency code was not considered to be applicable. Such difference in approach may warrant further attention. However, Commitment 8 in the governments UK National Action Plan for Open Government[26], sets out the government's plan for local transparency which includes MHCLG developing proposals to:

"help and encourage councils to publish all the information they can".

Objections

8.4.3 Local objections can be made to an item of expenditure in a smaller authority's finance return. It is very difficult to ascertain how many objections to the accounts smaller authorities receive, as the auditor is required to respond, by statute, only to the objector. As a result, most objections are never made public, the exceptions being if an objector choses to publish a response or the investigation leads to a Public Interest Report. However, one authority reported over 100 objections in a single year. NALC commented that several authorities at the smaller end of the income and expenditure level are consistently subject to objections, sometimes by the same individual or group of objectors.

[25] Transparency Code for Smaller Authorities https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/388541/Transparency_Code_for_Smaller_Authorities.pdf

[26] 2019-2021 UK National Action Plan for Open Government https://www.opengovernment.org.uk/resource/uk-national-action-plan-for-open-government-2019-2021/

8.4.4 The auditor is responsible for reviewing all objections that meet the statutory requirement. In deciding whether to investigate, the auditor has to review the objection, which will result in a cost to the authority (not exceeding the maximum hourly rates as specified by SAAA) even if they do not subsequently pursue an investigation.

8.4.5 The auditor can refuse to investigate an objection[27] if:

- the cost of dealing with the complaint would be disproportionate to the underlying sum;
- the objection is frivolous or vexatious; or
- it is a repeat of a complaint made in a prior year of account.

8.4.6 A number of smaller authorities receive repeat or vexatious complaints. Where an authority receives such a complaint, it can choose to terminate communication with the complainant. However, if that individual raises an objection, an auditor must consider it to see if it is something to be pursued. This work incurs a supplement to the scale fee as set out by the SAAA. Given the size of many smaller authorities, objections can be proportionately very costly, both in terms of additional fees paid to auditor firms and in terms of resources that the authority requires to support, appropriately, the objection process. As with larger authorities, outstanding objections can cause a delay in issuing the audit opinion

8.4.7 The objections regime does provide a solid basis of accountability and ensures the auditor investigates potential issues further, to supplement the 'limited assurance' audit. There may be cases where the system is misused. Consideration should be given to provide more support to auditors to enable them to identify repeat or vexatious objectors in a more efficient manner.

Public Interest Reports

8.4.8 External auditors have a duty under the 2014 Act to consider whether to issue a report where there has been a significant matter identified that needs to be addressed in the interests of the public. There are more PIRs issued for smaller authorities than there are for larger authorities. SAAA publishes reports from the 17/18 financial year on their website, and previous financial years are available on the archived PSAA website.

Figure 8.2

Smaller Authorities - Reasons why a PIR was issued

	16/17	17/18	19/20
Failure to produce an annual return (for 16/17) or an AGAR (from 17/8 onwards)	16	22	23
Criteria submitted for exemption not all satisfied	N/A	0	8
Other	6	1	0
Total	22	23	31

The "other" category includes issues relating to governance, fraud, employment law, and non-compliance with VAT regulations.

[27] NAO Local Authority accounts: A guide to your rights https://www.nao.org.uk/code-audit-practice/wp-content/uploads/sites/29/2015/03/Council-accounts-a-guide-to-your-rights.pdf

8.4.9 One authority had a PIR issued for all three years for failure to produce an annual return or annual governance and accountability returns (AGAR), and a further seven authorities had a PIR issued in two of the three years for the same reason. Failure to produce an AGAR from 2017/18 triggers a statutory recommendation to the authority from the external auditor that it should submit an approved AGAR within 42 days. A public interest report is then issued if the authority fails to do so.

8.4.10 Out of the six PIRs issued in 16/17 that were *not* due to a failure to produce an annual return, four of them related to work carried out by auditors in response to objections raised by a local elector. In one authority's case, it received objections on a multitude of issues with one issue (ineffective internal audit and other governance failings) receiving a number of objections.

8.4.11 If a smaller authority chooses not to engage with external audit recommendations or PIRs, there is no mechanism, other than through local elections, to hold smaller authorities to account. The LGSCO investigates complaints against larger local authorities, but this does not extend to Parish Councils. If MHCLG wishes to devolve more powers to smaller authorities or smaller authorities increase their spending considerably, MHCLG should consider further accountability arrangements for smaller authorities.

8.5 Financial Reporting in Smaller Authorities

8.5.1 Smaller authorities that are able to declare that they have had had no financial transactions in the year of account do not need to prepare accounts. Instead they can send a declaration that they are exempt to their auditor.

8.5.2 Smaller authorities that cannot declare themselves exempt have to prepare an Annual Governance and Accountability Return (AGAR). The AGAR which is freely available, is updated and produced by SAAA and approved by the SAAA board. The cost of its production is met by SAAA.

8.5.3 JPAG is responsible for issuing proper practices about the governance and accounts of smaller authorities. Its membership consists of sector representatives from the National Association of Local Councils, the Society of Local Council Clerks and the Association of Drainage Authorities, together with stakeholder partners representing MHCLG, the Department of Environment, Food and Rural Affairs, CIPFA, the NAO and a representative of the external audit firms appointed to smaller authorities.

8.5.4 The AGAR has a number of sections. In order these are:

a. Guidance notes on how to complete the template and what information needs to be published on the authority's website.
b. The Annual Internal Audit Report.
c. Section 1: The Governance Statement.
d. Section 2: The Accounting Statement, which is prepared on a receipts and payments basis.
e. The External Auditor Report and Certificate.

8.5.5 Each non-exempt smaller authority is required to complete parts b, c, and d of the AGAR and send it together with a bank reconciliation and an explanation of any variances between the budget and the outturn to the auditor. The template itself is quite short, but fairly busy, with detailed guidance included in each section.

8.5.6 Under the Accounts and Audit Regulations 2015, authorities must publish the following information on a publicly accessible website. Before 1 July, smaller authorities must publish:

- Notice of the period for the exercise of public rights and a declaration that the accounting statements are as yet unaudited;
- Section 1 - Annual Governance Statement, approved and signed; and
- Section 2 - Accounting Statements, approved and signed.

8.5.7 Not later than 30 September, smaller authorities must publish:

- Notice of conclusion of the audit;
- The External Auditor Report and Certificate: and
- Sections 1 and 2 of AGAR including any amendments as a result of the limited assurance review.

9. Conclusions

9.1 During the course of this Review it has become increasingly apparent that the current local audit arrangements fail to deliver, in full, policy objectives underpinning the 2014 Act. As a result, the overriding concern must be a lack of coherence and public accountability within the existing system. For local audit to be wholly effective it must provide a service which is robust, relevant, and timely; it must demonstrate the right balance between price and quality; and be transparent to public scrutiny. The evidence is compelling to suggest that the current audit service does not meet those standards.

Key Factors Determining the Outcomes of The Review

9.2 In reaching the outcome and recommendations for this Review the following key factors have been taken into account:

- providing clarity of purpose in local audit;
- giving emphasis to performance and accountability in local audit framework;
- maintaining and improving the stability of the local audit market;
- reaffirming the importance of the auditing and accounting staff having the requisite skills, training and experience to fulfil their roles;
- improving and strengthening the governance arrangements underpinning effective local audit;
- developing coherence and coordination in the procurement and effective delivery of audit performance within a clear and consistent accountability framework;
- engaging key stakeholders in regular dialogue as an aid to maintaining an effective local audit service; and
- providing transparency in financial and external audit reporting to reinforce public accountability.

Local Audit

9.3 As currently configured the local audit market is vulnerable, due in no small part to the under-resourcing of audit work required to be undertaken within the contract sum. In addressing this weakness, a fundamental review of the fee structure is necessary. Evidence suggests that audit fees are at least 25% lower than is required to fulfil current local audit requirements effectively. Concerns reported about variable levels of knowledge and experience of local government finance and accounting demonstrated by auditors must also be addressed. The skills and competencies of auditors must also be paramount if the full extent of audit requirements are to be delivered satisfactorily. The current audit deadline of 31 July is viewed as unrealistic and in the light of the evidence presented by the Call for Views, there is a compelling argument to change this date to 30 September. The procurement arrangements must acknowledge these factors and it is essential that the audit performance regime offers assurance to the public that true accountability has been served.

9.4 Attention has been given to whether the existing local audit framework might be improved to achieve these objectives. The roles and responsibilities of all relevant bodies should be reviewed to respond to the concerns expressed in this report. However, the key challenge is the underlying weakness of the current arrangements where there is no coordination and regulation of local audit activity. This is a role best discharged by a single overarching body.

9.5 A single body would embrace all aspects of local audit incorporating procurement, contract management, the code of local audit practice, accountability for performance, oversight and regulation. Clarity of purpose, consistency and public accountability would be essential features of this approach and the expertise and skills of those currently providing these services would be harnessed and maintained in the new body.

9.6 The Review has highlighted a potential weakness in the way in which audit outcomes are considered and presented to both the local authority and the public. The ability of Audit Committees, which mostly lack independent, technically qualified members, to consider, effectively, audit reports has been challenged in responses to the call for views. In addition, transparency and accountability of audit reports, from a public perspective is lacking and there is considerable scope for the Key Audit Partner to present a report on the principal issues arising from the audit to Full Council at least annually.

9.7 The situation facing PCCs and FRAs is many ways similar to those for principal councils in that audit quality and price are in need of review. Governance here, however, is somewhat different in terms of reporting lines and public accountability as these are currently more transparent than those applying in Principal Authorities.

9.8 Parish Councils, Meetings, IDBs and other smaller authorities operate on a much smaller scale and procurement/contractor arrangements are overseen by SAAA where no serious concerns have been identified. However, there is scope here to improve public reporting of local audit outcomes and attention should be given to ‘turnover’ thresholds in order to ensure a proportionate level of resource is utilised in fulfilling audit requirements.

9.9 An area that has generated considerable comment is the perceived gap between the reasonable expectations of many stakeholders and what auditors are required to do relating to the financial stability and resilience of local authorities. There is a compelling argument to extend the scope of audit to include a substantive test of financial resilience and sustainability. The scope of this audit needs to be clearly defined and focused to ensure there is a balance between cost and the potential benefits of such additional audit coverage and reporting. This would represent a genuine demonstration of public accountability.

9.10 The new NAO code includes a revised narrative audit opinion and sets out three reporting criteria relating to financial sustainability, governance and improving economy, efficiency, and effectiveness. This approach, once fully established, will provide a very important statement to stakeholders regarding a local authority’s financial health. In effecting this scrutiny of financial sustainability, the auditor would also undertake an assessment of the risks identified in the CFO’s annual Section 25 report of the budget. This could be further assisted by a review of the local authority’s observance of CIPFA’s Financial Management Code which provides a set of statements including value for money and financial resilience. To ensure that the Auditor’s work is genuinely transparent and accessible to local taxpayers an Auditor’s Report should be presented to the first Full Council meeting after 30 September every year, irrespective of whether the financial accounts have been certified.

Transparency of Financial Reporting

9.11 This report has highlighted the inability of the general public to understand the annual statutory accounts presented by local authorities. The technical complexity of the accounts means that service users/council taxpayers have little or no opportunity to comprehend what is being said or to challenge expenditure and income relating to a specific service and how the local authority has performed.

9.12 Three options have been explained in this report as a possible response to this problem. A review of the existing IFRS based accounts could be undertaken, but, given the requirement to observe international reporting standards, it may not yield the simplicity in presentation and terminology that is sought here. An alternative detailed in this report would entail adapting the existing narrative report produced by local authorities as an addendum to the statutory accounts where discretion would be afforded to each local authority regarding style, content and presentation. The third and final option relates to a new simplified statement of service information and costs as a means of enabling each local authority to communicate, in a standardised format, the key information relating to the budget and council tax setting compared to actual financial performance. If transparency and consistency of financial reporting are to be achieved this last option best meets these objectives although the experience developed in the production of narrative reports may be beneficial in its design.

9.13 A draft of a simplified statement is included as an annex to this report which incorporates the key features of simplicity and transparency. Observance of IFRS based accounts remains an important ingredient in ensuring proper accountability for financial performance, so the current statutory accounts should still be produced. This requirement is underpinned by a Code of Accounting Practice produced by CIPFA. Many local authorities have not purchased the most recent copy of the Accounting Code. Consideration should be given to this being freely available, given its importance in the construction of statutory accounts.

10. List of Annexes

1. What are auditors required to do?
2. Roles and duties of Statutory Officers
3. Functions of the Office of Local Audit and Regulation
4. Illustrative Simplified Financial Statements
    a. District Council
    b. Fire and Rescue Authority
    c. Police and Crime Commissioner
    d. Unitary Authority
5. Potential impact of recommendations made by other reviews of audit
6. Approach of other state auditors to performance audit
7. Terms of Reference
8. Call for Views respondents

Appendix – Glossary of Key Terms, Acronyms and Abbreviations

ACCA – Association of Chartered Certified Accountants
Professional accounting body offering the Chartered Certified Accountant qualification

Accounting Officer
Normally the Permanent Secretary of a government department who is personally responsible for the regularity and propriety of expenditure, robust evaluation of different mechanisms for delivering policy objectives, value for money, the management of risk, and accurate accounting for the use of resources

Accounts and Audit Regulations 2015
Statutory Instrument that sets the deadlines for publishing unaudited local authority accounts for inspection and for publishing audited local authority accounts; requires local authorities to have an internal audit; and details the information that must be included in local authority annual report and accounts.

Adverse Opinion
An audit opinion - a conclusion that an authority's accounts are not true and fair/proper arrangements to secure the economy, effectiveness and efficiency of service delivery are not in place.

AGN – Auditor Guidance Notes
Guidance produced by the National Audit Office to support external auditors in their work and to facilitate consistency of approach between auditors of the same types of entity. These have the same status as the NAO Audit Code of Practice

ALB – Arm's Length Body
A body which has a role in the processes of national government but is not a government department or part of one, and which accordingly operates to a greater or lesser extent at arm's length from ministers.

Annual Audit Letter – also known as Audit Completion Report or ISA260 Report
The annual audit letter summarises key findings from the auditor's yearly audit; often includes management recommendations.

AQR – Audit Quality Review team
The part of the Financial Reporting Council that monitors the quality of the audit work of statutory auditors and audit firms in the UK that audit Public Interest Entities (PIEs). Since 2018-19 AQR has been responsible for the quality assurance of larger local authority audits.

ARGA – Audit, Reporting and Governance Authority
A planned independent regulatory body to replace the Financial Reporting Council. This was recommended by Sir John Kingman in his review of the Financial Reporting Council and supported by Sir Donald Brydon in his review into the quality and effectiveness of audit

Audit Commission
A now disbanded independent public corporation that had the responsibility for appointing auditors to a range of local public bodies in England. They set the standards for auditors and had oversight their work

Audit Scotland
The body responsible for supporting the Auditor General for Scotland in providing independent assurance to the people of Scotland that public money is spent properly, efficiently and effectively.

BEIS – Department for Business, Energy & Industrial Strategy
Has policy responsibility for statutory audit, including taking forward the recommendations made by the Kingman and Brydon reviews.

Best Value
A local authority should make arrangements to secure continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency and effectiveness. Under the Duty of best value, therefore, authorities should consider overall value, including economic, environmental and social value, when reviewing service provision. Central government may use its best value powers to intervene in a local authority in exceptional cases where that best value duty has not been met.

Brydon Review
Independent Review into the Quality and Effectiveness of PIE Audits led by Sir Donald Brydon (published December 2019).

C&AG – Comptroller and Auditor General
An independent officer of the House of Commons who leads and is supported by the National Audit Office. Has the statutory authority to examine and report to Parliament on whether departments and the bodies they fund have used their resources efficiently, effectively and with economy. Responsible for preparing, maintaining, and developing the Code of Audit Practice for local authority auditors (the Audit Code).

Capital Finance and Accounting Regulations 2003 (as amended)
Regulations governing local authority capital finance and investment. Include the statutory overrides to GAAP that local authorities in England are required to apply.

Category 1 Authority
A relevant authority that either: (a) is not a smaller authority; or (b) is a smaller authority that has chosen to prepare its accounts for the purpose of a full audit in accordance with regulation 8 of the Smaller Authorities Regulations. All local authorities with income or expenditure of more than £6.5m are Category 1 authorities. The Council of the Isles of Scilly and Shire Districts with income and expenditure of less than £6.5m are also Category 1 authorities.

Category 2 Authority
A relevant authority that is a smaller authority (that is a parish council, parish meeting or internal drainage board) and has annual income and expenditure of less than £6.5m

CFO – Local Authority Chief Financial Officer / Head of Finance (also referred to as the S151 Officer)
A local authority officer, who has statutory responsibility for the proper conduct of that local authority's financial affairs.

CIAA – Chartered Institute of Internal Auditors
A representative body of internal auditors

CIPFA – Chartered Institute of Public Finance and Accountancy
A professional public finance accountancy body. Maintains four statutory codes that local authorities are required to 'have regard to'.

Clean opinion – also known as an “unqualified opinion”
An audit opinion – that the accounts are true and fair, free from material misstatement and have been properly prepared in accordance with the applicable accounting framework.

Code of Audit Practice
The “Audit Code” sets out what local auditors are required to do to fulfil their statutory responsibilities under the Local Audit and Accountability Act 2014. The Comptroller and Auditor General is responsible for the preparation, publication and maintenance of the Code of Audit Practice.

Code of Practice on Local Authority Accounting
Public sector organisations responsible for locally delivered services are required by legislation to prepare their accounts in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom (the Accounting Code)

CIPFA/LASAAC
A partnership between CIPFA (England, Northern Ireland and Wales) and the Local Authority (Scotland) Accounts Advisory Committee (LASAAC). Responsible for preparing, maintaining, developing and issuing the Accounting Code.

CMA – Competition and Markets Authority
A non-ministerial government department responsible for strengthening business competition and preventing and reducing anti-competitive activities

CMA Markets Study - Audit
The CMA carried out a study into the statutory audit market, to see if the market is working as well as it should. (published October 2018)

County councils – also known as Shire Counties
Upper tier authority responsible for services across the whole of a county such as: education; transport; planning; social care.

CQC – Care Quality Commission
An executive non-departmental public body responsible for monitoring, inspecting and regulating health and social care services.

DHSC – Department for Health and Social Care

District Audit Service
Set up in 1844, and originally part of HMT, was the Audit Commission’s in-house audit practice until all local authority audits were outsourced for the 2012-13 financial year. Most staff working in the DAS at that time transferred to the private sector accountancy firms who took on responsibility for local authority audits.

District Council – also known as Shire District
Lower tier authority, responsible for services over a smaller area than county councils such as: rubbish collection; recycling; Council Tax collections; housing; planning applications

EFA - Expenditure and Funding Analysis
Summarises the annual expenditure used and funded by the Council together with the adjustments between the funding and accounting basis to reconcile with the CIES

Except for opinion
An audit opinion - a conclusion that in all material respects the accounts are true and fair/proper arrangements are in place except for the matters detailed in the audit certificate and report OR a conclusion that the supporting evidence provided by the authority is so deficient that the auditor is unable to conclude whether one or more material items in the accounts are true and fair/a material element of proper arrangements are in place

Financial Reporting
Financial reporting uses financial statements to disclose financial data that indicates the financial health of an entity over during a specific period of time. These reports provide information to people who wish to understand the performance of an entity

FRA – Fire and Rescue Authority
A supervisory body which ensures that a local fire service performs efficiently and in the best interest of the public and community it serves. FRAs can be part of a another type of local authority or can be stand-alone entities.

FRAB – Financial Reporting Advisory Board
The role of the board is to ensure that government financial reporting meets the best possible standards of financial reporting by following Generally Accepted Accounting Practice as far as possible.

FRC - Financial Reporting Council
An independent regulatory body which regulates auditors, accountants and actuaries and sets the UK's Corporate Governance and Stewardship Codes. Currently transforming into a new body the Audit, Reporting and Governance Authority.

FReM - UK Central Government Financial Reporting Manual
The technical accounting guide to the preparation of financial statements, prepared after consultation with the Financial Reporting Advisory Board. It complements guidance on the handling of public funds published separately by the relevant authorities in England and Wales, Scotland and Northern Ireland

General Fund
The main revenue account that local authorities are required to maintain. The majority of income goes into the general fund account and most service expenditure is funded from it.

General Power of Competence
Introduced by the Localism Act 2011 and took effect in February 2012. In simple terms, it gives councils the ***power*** *to do anything an individual can do provided it is not prohibited by other legislation. Most wholly-owned local authority companies are set up under the General Power of Competence.*

Generally Accepted Accounting Practice/Principles (GAAP)
A collection of commonly-followed accounting rules and standards for financial reporting. The acronym is pronounced "gap." GAAP specifications include definitions of concepts and principles, as well as industry-specific rules.

Going Concern Test
An element of the audit report certifying that readers of a set of accounts are entitled to assume a business will continue in the future, unless there is evidence to the contrary. Going concern reporting is very specifically about ensuring that the correct accounting basis is being used, not about confirming whether an authority is running out of resources.

Greater London Authority (GLA)
A type of local authority. The GLA regional authority, with powers over transport, policing, economic development, and fire and emergency planning in Greater London. The GLA is unique in the British devolved and local government system, in terms of structure elections and selection of powers.

Head of Paid Service
The Head of Paid Service has statutory responsibility for the management and coordination of the employees appointed by the Council. Although the roles are separate, frequently the Chief Executive or Managing Director of a local authority.

HMICFRS - Her Majesty's Inspectorate of Constabulary and Fire & Rescue Services
Inspectorate responsible for independently assessing the effectiveness and efficiency of police forces and fire & rescue services.

HMT – Her Majesty's Treasury

HOFMCP - Home Office Financial Management Code of Practice
The financial management code of practice provides clarity around the financial governance arrangements within policing

Housing Revenue Account
Legislation prohibits social housing expenditure from being subsidised by general fund expenditure and vice versa. Therefore, local authorities with social housing stock are required to maintain a separate "housing revenue account", which must be self-financing.

ICAEW - Institute of Chartered Accountants of England and Wales
A professional membership organisation that promotes, develops and supports chartered accountants and students in the UK, Wales and globally. Responsible for maintaining the register of firms and KAPs qualified to sign off audits of local authority accounts.

ICAS - Institute of Chartered Accountants of Scotland
A professional membership organisation that promotes, develops and supports chartered accountants and students in Scotland.

IFRS – International Financial Reporting Standard (set by the International Accounting Standards Board)
A public interest organisation which has developed and maintains a single set of globally accepted accounting standards.

Internal Drainage Board
A type of local authority which is established in areas of special drainage need in England and Wales with permissive powers to undertake work to secure clean water drainage and water level management within drainage districts. The area of an IDB is not determined by county or metropolitan council boundaries, but by water catchment areas within a given region.

ISA - International Standards on Auditing
Standards for audits of financial statements, which include objectives for the auditor, together with requirements and related application and other explanatory material. ISAs(UK) are issued by the FRC.

KAP – Key Audit Partner
A senior member of staff within an audit firm who is registered to sign off a set of local authority accounts. Does not need to be a partner in the firm.

Kingman Review
Independent Review of the Financial Reporting Council led by Sir John Kingman (published December 2018). Included commentary and recommendations for local audit.

KPI – Key Performance Indicator
A performance measurement which helps evaluate the success of an organisation or of a particular activity in which it engages.

LGA – Local Government Association
The national membership body for local authorities.

LGSCO – Local Government and Social Care Ombudsman
A service that investigates complaints from the public about councils, registered adult social care providers and other select bodies providing public services in England

Limitation in Scope
An audit opinion - a conclusion that the supporting evidence provided by the authority is so deficient that the auditor is unable to conclude whether the accounts are true and fair and/or proper arrangements are in place to deliver economy, efficiency and effective services.

Local Audit and Accountability Act 2014
Abolished the Audit Commission and established the current arrangements for the audit and accountability of the local public audit system

Local Audit Delivery Board
Consultative board chaired by MHCLG, which compromises of representatives of relevant departments and framework bodies to facilitate sharing of information about the operation of the local authority accounting framework. Meetings are held in private and it has no formal powers or remit.

Local Government Act 2000
An Act to make provision with respect to the functions and procedures of local authorities

London Borough
A single tier of local authority that provides all the services that a county and district/borough/city council would usually provide. Some services, like fire, police and public transport, are provided through the Greater London Authority.

Mayoral Combined Authority
A type of local authority created in areas where they are considered likely to improve transport, economic development and regeneration. MCAs are led by metro mayors who make decisions about policy and spending in conjunction with council leaders from each constituent council. Both the metro mayor and each of the council leaders have a single vote and must approve or oppose decisions.

Metropolitan borough – also known as Metropolitan District
A single tier of local authority that provides all the services that a county and district/borough/city council would usually provide. Some services, like fire, police and public transport, are provided through 'joint authorities

MHCLG – Ministry of Housing, Communities and Local Government
The government department with policy responsibility for the local audit framework.

MIRS - Movement in Reserves Statement
Shows how the movement in reserves in the Balance Sheet is reconciled to the CIES deficit and what adjustments are required to be charged to the general fund balance for Council Tax setting purposes

Monitoring Officer
A local government officer with three main roles: to report on matters he or she believes are, or are likely to be, illegal or amount to maladministration; to be responsible for matters relating to the conduct of councillors and officers; and. to be responsible for the operation of the council's constitution.

NAO – National Audit Office
The UK's independent public spending watchdog. The NAO support Parliament in holding government to account and they work to improve public services through their audits. They are led by the Comptroller and Auditor General

NHSI(E) – NHS England and NHS Improvement
The umbrella body for the NHS in England. From 1 April 2019, NHS England and NHS Improvement have worked together as a new single organisation to better support the NHS to deliver improved care for patients.

Ofsted - Office for Standards in Education
Office for Standards in Education, Children's Services and Skills. Inspect services providing education and skills for learners of all ages. Also inspects and regulate services that care for children and young people including those delivered by local authorities.

Parish Council – can also be known as community councils
A civil local authority found in England and is the lowest tier of local government. They are elected corporate bodies, have variable tax raising powers. Responsibilities of parish council's vary considerably but can include allotments, bus shelters, burials and maintenance of common land and rights of way.

Parish Meeting
A meeting to which all the electors in a civil parish are entitled to attend. In some cases, where a parish or group of parishes has fewer than 200 electors, the parish meeting can take on the role of a parish council, with statutory powers, and electing a chairman and clerk to act on the meeting's behalf.

PCC – Police and Crime Commissioner
An elected official in England and Wales charged with securing efficient and effective policing of a police area. Commissioners replaced the now-abolished police authorities.

PIE – Public Interest Entity
A listed company or an entity with listed debt. Under EU Law, entities are designated by Member States and are usually defined as having undertakings that are of significant public relevance because of the nature of their business, their size or the number of their employees.

PIR – Public Interest Report
When an Auditor considers there to be a matter that is sufficiently important enough to be publicly brought to the notice of the council or the public they can make a report in the public interest.

PSAA - Public Sector Audit Appointments Ltd
Public Sector Audit Appointments is a company limited by guarantee wholly owned by the Local Government Association. PSAA are specified as an appointing person for local authority under provisions of the Local Audit and Accountability Act 2014. The functions of PSAA are specified in statute.

Qualified Audit Opinion
When an external auditor concludes that financial records have not been maintained in accordance with the Generally Accepted Accounting Principles. There are three types of qualified opinion; an except for; adverse; and limitation in scope opinion

SAAA - Smaller Authorities' Audit Appointments Ltd
The sector-led limited company appointed as the specified person to procure and appoint external auditors to smaller authorities and to manage the ongoing smaller authority audit contracts.

SERCoP - Service Reporting Code of Practice
A statutory code that sets out the proper practices with regard to consistent financial reporting for services; all local authorities in the UK are expected to adopt its mandatory requirements and recommendations and use them when reporting statistical data to central government.

Smaller Authorities - parish, community and town councils and internal drainage boards
These operate at a level below district and borough councils and in some cases, unitary authorities. They sometimes deliver additional services on behalf of the district council.

SOLACE – Society of Local Authority Chief Executives
Members' network for local government and public sector professionals throughout the UK

TUPE - Transfer of Undertakings (Protection of Employment)
Regulations to protect employees if the business in which they are employed changes hands. The two types of transfer protected by TUPE regulations are business transfer and service provision changes

Unitary Authorities
A single tier of local authority that provides all the services that a county and district/borough/city council would usually provide.

Unqualified Audit Opinion
When an external auditor concludes that the financial statements of an entity present fairly its affairs in all material aspects

VfM Conclusion – Value for Money Conclusion
A requirement that external auditors undertake sufficient work to be able to satisfy themselves as to whether the audited body has put arrangements in place that support the achievement of value for money. In carrying out this work, the auditor is not required to satisfy themselves that the audited body has achieved value for money during the reporting period

Welsh Audit Office
The Wales Audit Office provides staff and other resources for the Auditor General's work, and monitors and advises the Auditor General for Wales.

Herefordshire Council

Title of report: 2022/23 Financial Statement Audit Progress

Meeting: Audit and Governance Committee

Meeting date: Wednesday 27 September 2023

Report by: Head of Strategic Finance

Classification

Open

Decision type

This is not an executive decision

Wards affected

(All Wards);

Purpose

To report progress on the external audit of the council's 2022/23 financial statements.

Recommendation(s)

That:

a) **Audit and Governance Committee note the progress of the external audit of the Statutory Accounts for the year ended 31 March 2023.**

Alternative options

1. There is no alternative option. The Local Audit and Accountability Act 2014 requires the council to produce a Statement of Accounts in accordance with the Accounts and Audit Regulations 2015, which are subject to audit by the council's external auditors.

Key considerations

2. The council is required to prepare an annual Statement of Accounts and to arrange for them to be audited and reported in accordance with the Accounts and Audit Regulations 2015 and the 2022/23 Code of Practice on Local Authority Accounting in the United Kingdom, issued by the Chartered Institute of Public Finance and Accountancy (CIPFA). The Statement of Accounts

Further information on the subject of this report is available from
Rachael Hart, Tel: 01432 383775, email: Rachael.Hart@herefordshire.gov.uk

presents the overall financial position of the council and comprises: a narrative report and annual governance statement, comprehensive income and expenditure statement, balance sheet, movement in reserves statement, cash flow statement, collection fund statement, group accounts and supporting notes.

3. The council prepared the draft Statement of Accounts for 2022/23 and published them on 31 May 2023, in line with the statutory deadline determined by the Accounts and Audit Regulations 2015 and provided accounts to the external auditors (Grant Thornton) on this date. Only 30% of UK local authorities met the deadline to publish the 2022/23 accounts.

4. The external audit of the financial statements commenced on 3 July 2023 in accordance with the External Audit Plan 2022/23 presented to this Committee on 23 June 2023.

5. The council's Finance Team has worked with the external auditors to provide detailed working papers, evidence for sample testing and explanations to support management judgements and accounting estimates for transactions and balances reported in the financial statements for the year ended 31 March 2023. External audit have acknowledged that responses to all information requests have been prompt with high quality audit evidence provided by the council Finance Team.

6. Significant progress has been made with no material errors in the accounts noted to date however, as a result of a number of challenges, Grant Thornton are not able to present the 2022/23 External Audit Findings Report as previously planned and the statutory deadline to deliver the audit opinion on the financial statements by 30 September 2023 will now not be met. These challenges include staff resources, multiple sickness absences and issues with the skills and experience of the junior members of the audit team. A representative from Grant Thornton will be attending the meeting to answer any questions in respect of the progress made to date.

Community impact

7. The audit of the Statement of Accounts in accordance with statutory requirements helps the council to achieve its code of corporate governance commitment to behave with integrity, demonstrate strong commitment to ethical values, and respect the rule of law. The council is accountable for how it uses the resources under its stewardship, including accountability for outputs and outcomes achieved. In addition the council has an overarching responsibility to serve the public interest in adhering to the requirements of legislation and government policies.

Environmental Impact

8. The council provides and purchases a wide range of services for the people of Herefordshire. Together with partner organisations in the private, public and voluntary sectors we share a strong commitment to improving our environmental sustainability, achieving carbon neutrality and to protect and enhance Herefordshire's outstanding natural environment.

9. This report is to note audit progress in respect of the financial statements so will have minimal environmental impacts, however consideration has been made to minimise waste and resource use in line with the council's Environmental Policy. For example, the external audit on the draft accounts will be completed remotely, reducing travel impact and paper usage.

Equality duty

10. Under section 149 of the Equality Act 2010, the ‘general duty’ on public authorities is set out as follows:

A public authority must, in the exercise of its functions, have due regard to the need to –

a) eliminate discrimination, harassment, victimisation and any other conduct that is prohibited by or under this Act;

b) advance equality of opportunity between persons who share a relevant protected characteristic and persons who do not share it;

c) foster good relations between persons who share a relevant protected characteristic and persons who do not share it.

11. The public sector equality duty (specific duty) requires us to consider how we can positively contribute to the advancement of equality and good relations, and demonstrate that we are paying ‘due regard’ in our decision making in the design of policies and in the delivery of services. As this is a decision on back office functions, we do not believe that it will have an impact on our equality duty.

Resource implications

12. There are no new resource implications from this report.

Legal implications

13. The Accounts and Audit Regulations 2015 (the Regulations) requires the council to produce and publish an annual statement of accounts in accordance with the Regulations.”

14. The Local Audit and Accountability Act 2014 outlines the general powers and duties of the auditor. Part 5, s20 of The Local Audit and Accountability Act 2014, details the duties of the auditor as follows:

(1) In auditing the accounts of a relevant authority other than a health service body, a local auditor must, by examination of the accounts and otherwise, be satisfied—

(a) that the accounts comply with the requirements of the enactments that apply to them,

(b) that proper practices have been observed in the preparation of the statement of accounts, and that the statement presents a true and fair view, and

(c) that the authority has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources.

Risk management

15. The council is required to make arrangements for the proper administration of its financial affairs and to secure that the Chief Financial Officer has the responsibility for the administration of those affairs. The council is also required to secure economic, efficient and effective use of resources on which Grant Thornton provide a value for money opinion.

Consultees

16. None.

Herefordshire Council
Audit Progress Report and Sector Update 2022/23

September 2023

Contents

The contents of this report relate only to the matters which have come to our attention, which we believe need to be reported to you as part of our audit planning process. It is not a comprehensive record of all the relevant matters, which may be subject to change, and in particular we cannot be held responsible to you for reporting all of the risks which may affect the Authority or all weaknesses in your internal controls. This report has been prepared solely for your benefit and should not be quoted in whole or in part without our prior written consent. We do not accept any responsibility for any loss occasioned to any third party acting, or refraining from acting on the basis of the content of this report, as this report was not prepared for, nor intended for, any other purpose.

Introduction

This paper provides the Audit and Governance Committee with a report on progress in delivering our responsibilities as your external auditors.

Your key Grant Thornton team members are:

Peter Barber
Key Audit Partner
T 0117 305 7897
E peter.a.barber@uk.gt.com

Roz Apperley
Engagement Manager
T 0117 305 7810
E roz.e.apperley@uk.gt.com

Manu Kathuria
In-Charge Auditor
T 020 786 52228
E manu.kathuria@uk.gt.com

The paper also includes:

- a summary of emerging national issues and developments that may be relevant to you as a local authority; and
- includes a number of challenge questions in respect of these emerging issues which the Committee may wish to consider (these are a tool to use, if helpful, rather than formal questions requiring responses for audit purposes)

Members of the Audit and Governance Committee can find further useful material on our website, where we have a section dedicated to our work in the public sector. Here you can download copies of our publications https://www.grantthornton.co.uk/en/services/public-sector-services/

If you would like further information on any items in this briefing, or would like to register with Grant Thornton to receive regular email updates on issues that are of interest to you, please contact either your Engagement Lead or Engagement Manager.

Progress at September 2023

Financial Statements Audit

We undertook our initial planning and interim audit for the 2022/23 audit in March 2023.

Our interim fieldwork included a:

- Updated review of the Authority's control environment
- Updated understanding of financial systems
- Review of Internal Audit reports on core financial systems
- Understanding how the Authority makes material estimates for the financial statements
- Early work on emerging accounting issues

In June we issued a detailed Audit Plan, setting out our proposed approach to the audit of the Council's 2022/23 financial statements.

The Council's statements were published on 31 May 2023, this is in line with LG requirements. Given the Council's good track record of producing timely financial statements we have prioritised the 2022/23 financial statements audit. This resulted in Herefordshire being one of a small number of councils to commence in July 2023, tranche 1 of our regional delivery programme.

Whilst good progress has been made to date and the audit is well progressed, we are unable to meet our original stretched target of an end of September sign off as set out in our Audit Plan. This is despite excellent cooperation from the finance team at Herefordshire and reflects some resourcing challenges on our side including sickness.

That said, we are confident that we will be in a position to provide aN audit findings report to the October meeting of this committee with our opinion issued shortly afterwards.

To date, no material errors have been identified from our audit work and subject to the outstanding work we anticipate issuing an unqualified opinion . We will report our work in the Audit Findings Report and aim to give our opinion on the Statement of Accounts by the end of October 2023.

Value for Money

Under the 2020 Code of Audit Practice, for local government bodies auditors are required to issue our Auditor's Annual Report no later than 30 September or, where this is not possible, issue an audit letter setting out the reasons for delay.

NOA have issued Auditor Guidance Note 3 (AGN 03) in relation to Auditors' Work on Value for Money (VFM) Arrangements for 22-23 audits.

The ongoing delays in local audit continue to significantly impact audited bodies and the financial reporting and auditing process, and may therefore affect the timing of when the work on VFM arrangements set out in AGN03 is performed and reported.

The guidance states that the auditor should perform the procedures required as part of their work on VFM arrangements under AGN3 and issue their Auditor's Annual Report when their work is complete.

The 2022/23 VFM work has commenced and is being undertaken by a member of our VFM team. We expect to issue our Auditor's Annual Report setting out the findings of our VFM work by the end of the calendar year.

Progress at September 2023 (cont.)

Other areas

Meetings

We continue to meet and work with Senior Officers on an ongoing basis to discuss emerging developments and to ensure the audit process is smooth and effective.

We have also recently met with the chair of the Audit and Governance Committee, the Chief Executive, S151 Officer and Deputy S151 Officer to discuss audit progress.

Events

Our annual accounts workshop for Chief Accountants took place in February 2023

Audit Fees

During 2017, PSAA awarded contracts for audit for a five year period beginning on 1 April 2018. 2022/23 is the fifth year of that contract. Since that time, there have been a number of developments within the accounting and audit profession. Across all sectors and firms, the Financial Reporting Council (FRC) has set out its expectation of improved financial reporting from organisations and the need for auditors to demonstrate increased scepticism and challenge and to undertake additional and more robust testing.

Our work in the Local Government sector in the period 2018/19 to 2021/22 has highlighted areas where financial reporting, in particular, property, plant and equipment and pensions, needs to improve. There is also an increase in the complexity of Local Government financial transactions and financial reporting. This combined with the FRC requirement that all Local Government audits are at or above the "few improvements needed" (2A) rating means that additional audit work is required.

We have reviewed the impact of these changes on both the cost and timing of audits. We have discussed this with your s151 Officer including any proposed variations to the Scale Fee set by PSAA Limited, and have communicated fully with the Governance Committee.

As a firm, we are absolutely committed to meeting the expectations of the FRC with regard to audit quality and local government financial reporting.

Audit Deliverables

2022/23 Deliverables	Planned Date	Status
Accounts Audit Plan We are required to issue a detailed audit plan to the Audit and Governance Committee setting out our proposed approach in order to give an opinion on the Council's 2022/23 financial statements.	June 2023	Issued
Audit Findings (ISA260) Report The Audit Findings Report will be reported to Audit and Governance Committee in 2023.	October 2023	No yet due
Auditor's Annual Report The key output from local audit work on arrangements to secure VFM is an annual commentary on arrangements, which will be published as part of the Auditor's Annual Report (AAR). The final version of the AAR will be published in line with the timescales to be set out by the National Audit Office. The AAR must be published on your website in line with LG requirements.	December 2023	No yet due
Auditor's Report This will include our opinion on your financial statements and our other reporting requirements, as set out in 'The auditor's statutory responsibilities' section of this report.	October 2023	No yet due
Certification of the Council's Housing Benefit return We certify the Council's annual Housing Benefit Subsidy claim in accordance with procedures agreed with the Department for Work and Pensions (DwP). We have encountered problems in concluding our work in respect of the 2020/21 return due to an issue with the status of the Risk Based Verification (RBV) process adopted by the Council. Following conversation with the DwP we have now agreed a way forward which includes the Council retrospectively adopting this RBV policy. This has recently happened, and we are now working with officers to conclude 2020/21. Once complete our attention will turn to 2021/22 and 2022/23 returns.	TBC	late

126

Sector Update

Authorities continue to try to achieve greater efficiency in the delivery of public services, whilst facing the challenges to address rising demand, ongoing budget pressures and social inequality.

127

Our sector update provides you with an up to date summary of emerging national issues and developments to support you. We cover areas which may have an impact on your organisation, the wider local government sector and the public sector as a whole. Links are provided to the detailed report/briefing to allow you to delve further and find out more.

Our public sector team at Grant Thornton also undertake research on service and technical issues. We will bring you the latest research publications in this update. We also include areas of potential interest to start conversations within the organisation and with Audit and Governance Committee members, as well as any accounting and regulatory updates.

- Grant Thornton Publications
- Insights from local government sector specialists
- Reports of interest
- Accounting and regulatory updates

Local government

Delayed publication of audited local authority accounts

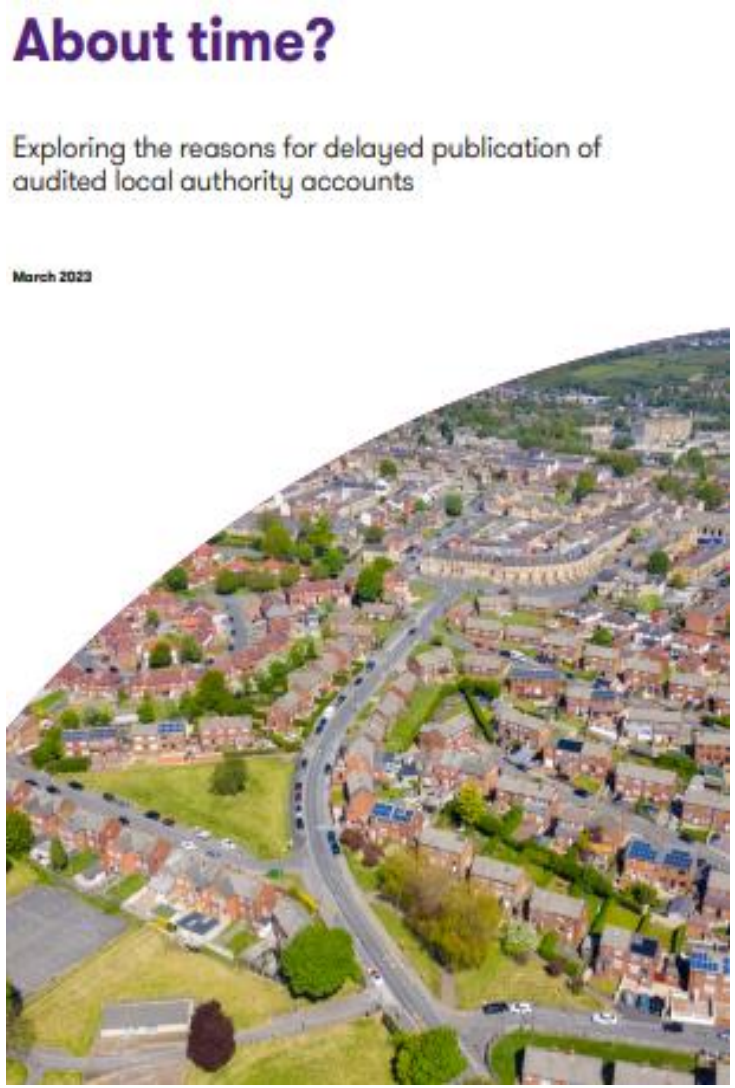
In December 2022 there were over 600 local audit opinions outstanding. This means that many stakeholders can't rely on audited accounts to inform decision making – a significant risk for governance and control.

Local authority accounts are becoming increasingly complex as accounting standards evolve and local authorities enter more and more innovative financing arrangements and income generation projects. A significant challenge in managing local audits is the differing needs of various stakeholders. The local government sector, central government and regulators need to agree on the purpose of local audit and find a consensus on improving efficiency in publishing accounts. Grant Thornton has produced a report that explore the reasons for delayed publication of audited local authority accounts.

Table 1 below illustrates the declining performance against the target date for publication of audited accounts in recent years.

Table 1 Audited accounts published by target date over the last six years

Financial year	Deadline for publication of unaudited accounts	Target date for publication of audited accounts	% audited accounts published by target date (all firms average)	% audited accounts published by target date (Grant Thornton audits)
2016/17	30 June 2017	30 September 2017	95	97
2017/18	31 May 2018	31 July 2018	87	91
2018/19	31 May 2019	31 July 2019	58	65
2019/20	1 September 2020	30 November 2020	45	54
2020/21	1 August 2021	30 September 2021	9	12
2021/22	1 August 2022	30 November 2022	12	20



Delayed publication of audited local authority accounts

What more can be done?

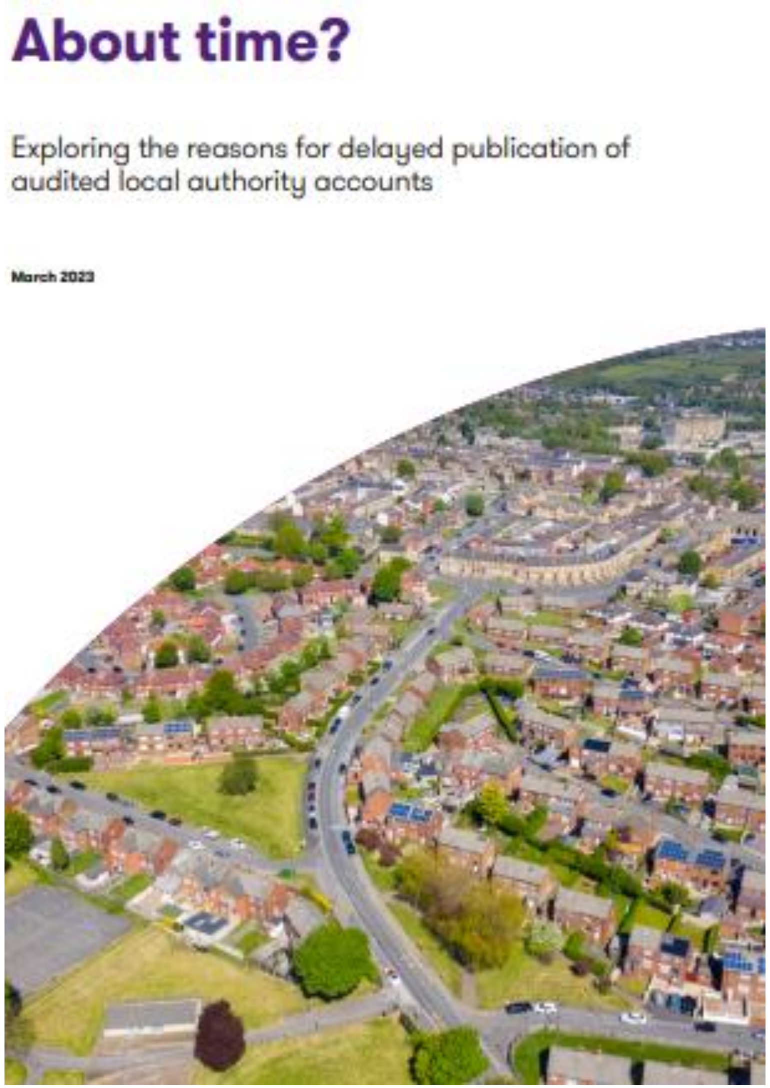
All key stakeholders in the local audit system will need to continue their efforts to secure improvement and a return to high levels of compliance with timely publication of audited accounts. The report explores several of the causes of delay and steps which might be taken to reduce the incidence of delays.

These steps relate to systems leadership, holding both authorities and auditors to account for their performance, a continued focus on the quality of accounts preparation and audit, and the effective engagement between auditors and audited bodies.

The report makes 20 recommendations for improving timeliness in publishing audited accounts.

The report also sets out a checklist which management and the Audit and Governance Committee should consider. The report recommends DLUHC, CIPFA or the FRC set out expectations for the system as a whole.

[Click here for full report]



Local government procurement and contract management-

Background

Local authorities in England spend around £82.4 billion a year on goods and services. More than a third of all UK government spending on goods and services is spent in the local government sector1. Allowing for capital spending as well, the UK public sector procures around £300 billion a year overall.

We reviewed a large number of reports, inspections and interventions issued by a number of firms, including 53 Annual Auditor Reports issued by Grant Thornton UK LLP. To help build on existing good practice, in this report we highlight some common themes for members and officers to consider:

This report considers a selection of issues we identified under each theme and makes recommendations both to local authorities and, in one case, to central government. The report presents a good practice checklist for local authority members and officers to reflect on.

The analysis sets out five key themes for ensuring good practice:

•Strategic planning

•Internal control

•Time, technical expertise, and people

•Commercial awareness

•Contract management

[full report here]

More than a third of all UK government spending on goods and services is spent by local government, so it's important councils have effective arrangements for procurement and contract management

Sustainability: Finance at the heart of decision making

In November 2022 CIPFA published an article on public sector specific response to climate change. Below is an extract from CIPFA's website:

"Role of the finance profession

Finance and accounting professionals need to move beyond simply measuring and reporting the impact of climate change, environmental regulation, supply chain pressure and rising energy costs. They must focus on understanding those implications and integrating them into financial management and business planning. The ability to integrate climate risks into overall operational risks is a major challenge. The finance profession will need to be able to collect data from different professions (scientists, valuation experts, biologists, meteorologists etc) and be able to understand but also challenge assumptions and projections. The importance of effective communication to both internal and external stakeholders must not be underestimated. Climate reporting should result in decision makers having all the information necessary to be effective, to measure progress and to hold those responsible to account.

Opportunities and risks must be identified and stress tested using various scenarios, including temperature rises of 2C and more. The impact of collapsed ecosystems must not be ignored – from rising sea levels to food scarcity and the mass migration of people whose land is no longer inhabitable. We need honesty, transparency and above all leadership to tackle the climate issues that exist and lie ahead.

Conclusion

The current focus on net zero emissions by 2050 misses the point that climate change is already happening. There is an urgent need for adaptation measures to be introduced that allow the UK to live with higher temperatures, wetter winters and warmer, drier summers. At the moment we are severely under prepared. This is a call for urgent action from government, both at central and local level. The IPCC recommended threshold of limiting temperature rises to 1.5C is **set to be broken**. Temperature rises above 2.5C will mean ecosystems will collapse which will have severe repercussions on our society as a whole.

CIPFA and ICAEW share the view that the finance function has an important role to play in combating climate change. We would like to see the finance profession taking the lead for the public sector in its efforts to tackle climate change".

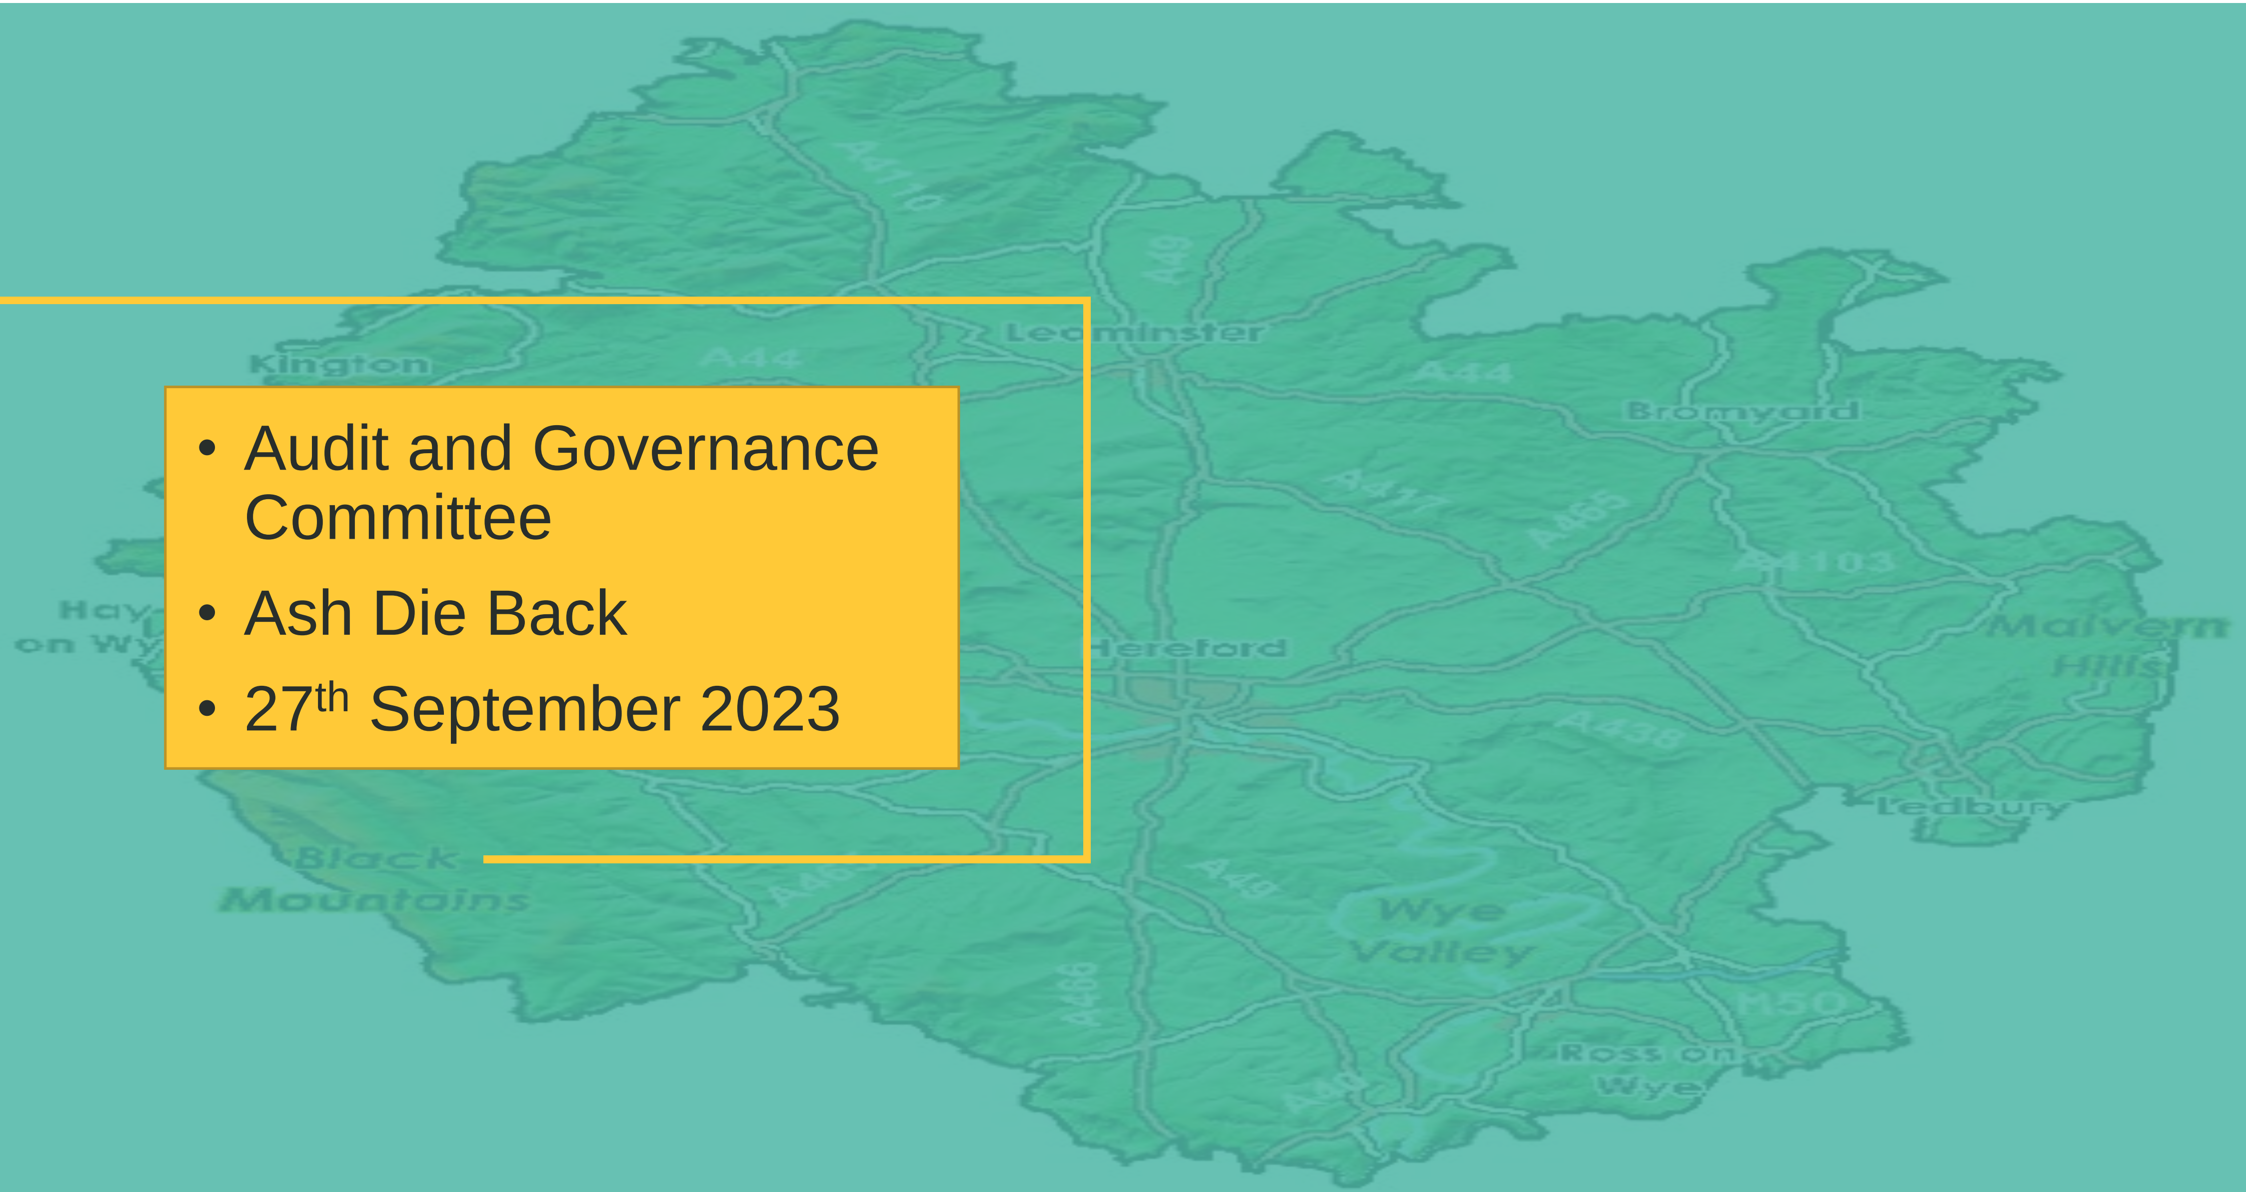
Grant Thornton

grantthornton.co.uk

- Audit and Governance Committee
- Ash Die Back
- 27th September 2023



Ash Die Back: Purpose

- The committee are seeking assurance that an action plan is being worked on and is to be adopted and wants to scrutinise those plans to ensure that the risk of the onset of Ash Die Back within the County boundaries is dealt with appropriately
- If an action plan is not agreed, there is potential financial risk to meet the costs of removal of the tree stock under the responsibility of the council and potential risk of litigation linked to personal injury and third part damage claims

Ash Die Back: What is it?

- Hymenoscyphus fraxineus is an ascomycete fungus that causes ash dieback, a chronic fungal disease of ash trees in Europe characterised by leaf loss and crown dieback in infected trees.
- The fungus was first scientifically described in 2006 under the name Chalara fraxinea.
- Estimated 100,000 Ash Trees in or adjacent to the public highway, 95% in private ownership.

Ash Die Back: Public Realm and Property Risk

- Trees in open spaces.
- Within the public highway – green infrastructure.
- Trees in private ownership adjacent to the public realm, highway, public rights of way.
- Trees in council owned land.

•Risk

- Falling limbs, trees – risk to life, property, infrastructure.

Ash Die Back: Background

- There are 4 categories which define the level of disease in the tree
  - **Category 1 (T1)** - A healthy tree with a good healthy leaf coverage 100% - may be minor signs of disease e.g. early leaf fall, some leaf browning.
  - **Category 2 (T2)** - A tree starting to show signs of disease - 75% leaf coverage/crown density with some other indictors,   some leaf browning, lesions or brown keys.
  - **Category 3 (T3)** - A tree which is clearly diseased - 50% leaf coverage/crown density. Tips of branches die back, brown keys evident and foliage becomes 'clumpy'.
  - **Category 4 (T4)** - A tree which is clearly in terminal decline 25% leaf coverage/crown density may have larger dead branches.

Ash Die Back: Background

Stage 4 100% dead | Stage 2 25%-50% dead | Stage 3 50-75% dead | Stage 3 50-75% dead | Stage 1 0%-25% dead

A465 - Hereford to Abergavenny Road, south of Wormbridge. A row of six Ash showing varying stages of Ash Dieback

Ash Die Back: Council Actions

Actions	Timescale
County Tree Strategy Partnership with key stakeholders	Approved and Implemented March 2024
Tree Guidance for Herefordshire Council Guidance for council owned /managed tree stock. Ash Die Back Action Plan: specific section and link to work on Local Nature Recovery Networks. Works to trees covered by a Tree Preservation Order or in a conservation area, full consideration to Ash Dieback. Recovery Plan	Approved and Implemented March 2024
Planning Applications Effects of AD on Ash trees linked to development is considered within comments made by the Natural Environment Team. (Trees, Landscape & Ecology) Proposed landscaping, tree planting and Biodiversity Net Gain associated with developments fully considers effects of AD and future Treescape of locality. Planning team to implement recommendations made by the conservation team.	Conservation Team responding as necessary.

Ash Die Back: Council Actions

Actions	Timeline
Ash Dieback and Trees Outside Woodlands (TOW): Working with The Tree Council, DEFRA and other partners on reviewing national guidance and development of AD recovery schemes for TOW	Attendance as required.
Local Authority Ash Dieback Working Group: Partnering to actively participate in national Local Authority Ash Dieback Action Group – Benchmarking and assistance.	Regular meetings as required.
Public Realm Contract Annual and Forward Programme Management of the network - inspections, routine reactive response to dead, dying and diseased trees.	Annual and Forward Plan meetings, works included in Annexes.
Council Property Survey of known ash trees surveyed – monitoring in place	Surveys completed, surveys undertaken as needed.

Ash Die Back: Managing the Risk

Action	Timescale
Public Realm annual tree surveys.	Annual Programme
Road surveys set out in the Highways Maintenance Plan – all roads inspected annually as a minimum, monthly inspections for the A and B roads.	Programme of inspections as set out in the Highways Maintenance Plan.
Specific surveys to be undertaken by qualified arboricultural consultant.	As needed (As part of the annual plan)
Mapping of known Ash Trees County Wide – (In-development - A and B roads 40% surveyed, work in progress). Work to survey and understand the number of Ash Trees and action required.	Summer 2024/25
Public Rights of Way – reactive inspections and actions as required, liaison with Parish Councils and Parish Footpath Officers.	Ongoing with the Public Rights of Way team, 2024/25 for the Parishes.

Ash Die Back: Managing the Risk

Actions	Timescale
Additional budget approval for the next 4 years to be implemented 2023/24 £315k 2024/25 through to 2026/27 £367k per annum	Annual and Forward Plan
Programme of works to remove dead and/or diseased trees. Remove from Public Realm. Serve notice on adjacent land owners.	As required and programmed in the Annual Plan.
Ash Trees within the public realm and council land within scope of council works.	Identified through surveys.
Out of scope will be managed through informing adjacent land owners if identified as a risk through surveys	Identified through inspections.
If risk to life, the council may need to intervene and take immediate action.	On-going

Ash Die Back: Next Steps

- Recovery Plan
  - Re-planting trees – encouraging replacement of tree stock within the council owned or managed land and private landownership.
- Monitoring
  - Information sharing and reporting to council on line reporting if no immediate risk
    - Public to ring if immediate risk, council phones operate 24/7 – 01432 261800.
  - Surveys – council/BBLP
    - Dedicated council officer to support the Ash Die Back action plan.
  - Reports to update the Corporate Risk Register
  - Communication Plan continuously updated and improved.

Herefordshire Council

Title of report: Work programme

Meeting: Audit and Governance Committee

Meeting date: 27 September 2023

Report by: Democratic Services Officer

Classification

Open

Decision type

This is not an executive decision.

Wards affected

(All Wards)

Purpose

To consider the committee's work programme (Appendix A).

Recommendation(s)

(a) That, subject to any further updates made by the committee, the work programme for the Audit and Governance Committee be noted.

Alternative options

1. There are no alternative options, as the committee requires such a programme in order to set out its work for the coming year.

2. Updating the work programme is recommended, as the committee is required to define and make known its work. This will ensure that matters pertaining to audit and governance are tracked and progressed in order to provide sound governance for the council.

Key considerations

3. The routine business of the committee has been reflected as far as is known, including the regular reporting from both internal and external auditors.

4. The committee is asked to consider any adjustments.

Community impact

5. A clear and transparent work programme provides a visible demonstration of how the

Further information on the subject of this report is available from
Jen Preece, email: jennypreece@herefordshire.gov.uk

committee is fulfilling its role as set out in the council’s constitution.

Environmental impact

6. Whilst this is an update on the work programme and will have minimal environmental impacts, consideration has been made to minimise waste and resource use in line with the council’s Environmental Policy.

Equality duty

7. This report does not impact on this area.

Resource implications

8. There are no financial implications.

Legal implications

9. The work programme reflects any statutory or constitutional requirements.

Risk management

10. The programme can be adjusted in year to respond as necessary to risks as they are identified; the committee also provides assurances that risk management processes are robust and effective.

Consultees

11. The Director of Finance and Assurance / S151 Officer, Director of Governance and Legal Services / Monitoring Officer, and committee members contribute to the work programme; the work programme is reviewed at each meeting of the committee.
