

**Health and social care overview and scrutiny committee  
Work programming workshop 25 May 2016  
Prioritisation of areas for scrutiny 2016-17**

**Top Five**

## Pathways of care:

- Link to STP priorities
- Complex care (co-morbidities)
- Frailty
- Accessing services in deeply rural areas including transportation
- Lessons learned from commissioning services and need to understand needs of rural/isolated communities (e.g., Addaction)

## Public Health:

- Impact of programmes
- Behaviour change
- Wide role of council
- Maximising new opportunities

## Mental Health pathways

- Impact on children and young people of mental health and support for adults e.g. interventions for prevention of male suicide
- Supporting children and young peoples' mental health

## Sustainability and Transformation Plan

- Focus – what added value
- Scrutiny – HWB has oversight. Scrutiny role to exert maximum influence over content of STP
- Flag up concerns and potential ways of mitigating them e.g., where are maternity services going to go?
- Does it reflect HWB strategy and CYP plan and corporate plan
- Timescale – national determination which influences timings
- One Herefordshire
- Specific services changes/reconfigurations arising from STP
- Statutory role
- Keeping updated on STP developments

## Safeguarding

- Boards, partnership
- MASH
- CSE
- Peer challenge follow-up

## High Priority

Care homes and domiciliary care

- How do commissioners get assurance that they are providing appropriate services?

Future models of delivering education and children's services and white papers

- For HSCOSC and GOSC

## Medium Priority

Working with other councils

- What are the implications of devolution on the provision of care (HSCOSC/GOSC)

Accountability sessions

- CCG and NHSE
- GP services
- Healthwatch
- West Midlands Ambulance

Workforce

- Planning
- Availability
- Recruitment and retention
- Development
- Public sector Herefordshire

Bureaucracy

- Is it at the right level?

Building community resilience

- WISH
- Public Health prevention activity
