Budget Arrangements

Herefordshire, County of

Have the funds been pooled via a s.75 pooled budget?

If it had not been previously stated that the funds had been pooled can you now confirm that they have now?

Footnotes:

(DD/MM/YYYY)

If the answer to the above is 'No' please indicate when this will happen

Source: For the S.75 pooled budget question, which is pre-populated, the data is from a previous quarterly collection returned by the HWB.

National Conditions

Herefordshire	

The Spending Round established six national conditions for access to the Fund.
Please confirm by selecting 'Yes', 'No' or 'No - In Progress' against the relevant condition as to whether these have been met, as per your final BCF plan.

Further details on the conditions are specified below.

if 'No' or 'No - In Progress' is selected for any of the conditions please include an explanation as to why the condition was not met within the year (in-line with signed off plan) and how this is being addressed?

	Q4 Submission	Q1 Submission	Q2 Submission	Q3 Submission	Please Select (Yes	If the answer is 'No', please provide an explanation as to why the condition was not met within the year (in-

National conditions - Guidance

The Spending Round established six national conditions for access to the Fund:

1) Plans to be jointly agreed

The Better Care Fund Plan, covering a minimum of the pooled fund specified in the Spending Round, and potentially extending to the totality of the health and wellbeing Board area, should be signed off by the Health and Wellbeing Board itself, and by the constituent Councils and Clinical Commissioning Groups. In agreeing the plan, CCGs and councils should engage with all providers likely to be affected by the use of the fund in order to achieve the best outcomes for local people. They should develop a shared view of the future shape of services. This should include an assessment of future capacity and workforce requirements across the system. The implications for local providers should be set out clearly for Health and Wellbeing Boards so that their agreement for the deployment of the fund includes recognition of the service change consequences.

2) Protection for social care services (not spending)

Local areas must include an explanation of how local adult social care services will be protected within their plans. The definition of protecting services is to be agreed locally. It should be consistent with 2012 Department of Health guidance to NHS England on the funding transfer from the NHS to social care in 2013/14: https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/213223/Funding-transfer-from-the-NHS-to-social-care-in-2013-14.pdf

3) As part of agreed local plans, 7-day services in health and social care to support patients being discharged and prevent unnecessary admissions at weekends

Local areas are asked to confirm how their plans will provide 7-day services to support patients being discharged and prevent unnecessary admissions at weekends. If they are not able to provide such plans, they must explain why. There will not be a nationally defined level of 7-day services to be provided. This will be for local determination and agreement. There is clear evidence that many patients are not discharged from hospital at weekends when they are clinically fit to be discharged because the supporting services are not available to facilitate it. The recent national review of urgent and emergency care sponsored by Sir Bruce Keogh for NHS England provided guidance on establishing effective 7-day services within existing resources.

4) Better data sharing between health and social care, based on the NHS number

The safe, secure sharing of data in the best interests of people who use care and support is essential to the provision of safe, seamless care. The use of the NHS number as a primary identifier is an important element of this, as is progress towards systems and processes that allow the safe and timely sharing of information. It is also vital that the right

- confirm that they are using the NHS Number as the primary identifier for health and care services, and if they are not, when they plan to;
- confirm that they are pursuing open APIs (i.e. systems that speak to each other); and
- ensure they have the appropriate Information Governance controls in place for information sharing in line with Caldicott 2, and if not, when they plan for it to be in place.

NHS England has already produced guidance that relates to both of these areas. (It is recognised that progress on this issue will require the resolution of some Information Governance issues by DH).

5) Ensure a joint approach to assessments and care planning and ensure that, where funding is used for integrated packages of care, there will be an accountable professional

Local areas should identify which proportion of their population will be receiving case management and a lead accountable professional, and which proportions will be receiving self-management help - following the principles of person-centred care planning. Dementia services will be a particularly important priority for better integrated health and social care services, supported by accountable professionals. The Government has set out an ambition in the Mandate that GPs should be accountable for co-ordinating patient-centred care for older people and those with complex needs.

6) Agreement on the consequential impact of changes in the acute sector

Local areas should identify, provider-by-provider, what the impact will be in their local area, including if the impact goes beyond the acute sector. Assurance will also be sought on public and patient and service user engagement in this planning, as well as plans for political buy-in. Ministers have indicated that, in line with the Mandate requirements on achieving parity of esteem for mental health, plans must not have a negative impact on the level and quality of mental health services.

Please comment if there is a difference between the forecasted / actual annual totals and the pooled fund

Forecast has been updated to show year end outturn. Figures have been reported to the joint commissioning board

Commentary on progress against financial plan:

All areas of the minumum fund were in line with budget. The additional pool included increased expenditure for both the council and CCG as was subject to a risk share arrangement. The actual expenditure is included above

Footnotes:

^{*}Actual figures should be based on the best available information held by Health and Wellbeing Boards.

Year End Feedback on the Better Care Fund in 2015-16

Selected Health and Well Being Board: Herefordshire, County of

Part 1: Delivery of the Better Care Fund

Please use the below form to indicate what extent you agree with the following statements and then detail any further supporting information in the corresponding comment boxes

Statement:	Response:	Comments: Please detail any further supporting information for each response
		* reprocurement of carer's service * the implementation of an information advice and guidance service
		* improvements in community equipment services
1. Our BCF schemes were implemented as planned in 2015-16	Agree	* implementation of rapid access to discharge bed provider framework
The delivery of our BCF plan in 2015-16 had a positive impact on the integration of health and social care in our locality	Neither agree nor disagree	A number of achievements during 2015-16 have had a positive impact upon integrated ways of working, including the development of a unified contract currently in negotiation, however there is still substantial work to be completed within Herefordshire in order to achieve further integration. A number of key schemes, delivered by the BCF, have assisted in avoiding Non-Elective Admissions. Examples include
The delivery of our BCF plan in 2015-16 had a positive impact in avoiding Non-Elective Admissions	Neither agree nor disagree	the roll out of the Virtual Ward and Hospital at Home provision across the County, implementation of a highly effective falls rapid response service, an enhanced rapid response service and improvements in the community equipment service.
The delivery of our BCF plan in 2015-16 had a positive impact in reducing the rate of Delayed Transfers of Care	Neither agree nor disagree	completed in this area. Examples include the implementation of an information advice and guidance service, implementation of rapid access to discharge bed provider framework, improvements in the community equipment service and realignment of the care management teams, with additional focus on hospital discharge and the advice and referral team.
5. The delivery of our BCF plan in 2015-16 had a positive impact in reducing the proportion of older people (65 and over) who were still at home 91 days after discharge from hospital into reablement / rehabilitation services	Agree	A proportion of the Protection of Social Care funding for 2015-16 was invested in a reablement service, which directly assisted in reducing the proportion of older people who were still at home 91 days after discharge.
6. The delivery of our BCF plan in 2015-16 had a positive impact in reducing the rate of Permanent admissions of older people (aged 65 and over) to residential and nursing care homes	Agree	provided a higher baseline figure for 2015/16. During the past year there has been a steady state of admissions and this is expected to continue in 2016/17. The implementation of a culture change through the care management team is in development to review the cases being referred into residential and nursing homes with a view to source alternative provisions of care.
7. The overall delivery of our BCF plan in 2015-16 has improved joint working between health and social care in our locality	Agree	The BCF has assisted in supporting the improvements made in joint working. Further developments will take place during 2016/17.
8. The implementation of a pooled budget through a Section 75 agreement in 2015-16 has improved joint working between health and social care in our locality	Neither agree nor disagree	The Section 75 agreement has provided a clear framework through which Partners have been able to pool funds and align budgets in order to deliver the schemes detailed within the BCF plan.
9. The implementation of risk sharing arrangements through the BCF in 2015-16 has improved joint working between health and social care in our locality	Disagree	The risk share agreement for 2015/16 clearly set out the financial risks associated with the delivery of the BCF plan and provided Partners with a clear agreement regarding how financial risks would be proportionate and retained by each partner. However, the implementation of this agreement has not assisted in achieving improvements in joint working.
10. The expenditure from the fund in 2015-16 has been in line with our agreed plan	Disagree	The final budget for 2015/16 was £40.1m. The figure reported for BCF budget for 2015/16 is lower than the budget included in the approved 2015/16 plan because at the time of submission the exact criteria for the additional pool contributions had not been finalised, and final contributions were confirmed at a lower level as out of county placements were excluded. The actual spend for 2015/16 is confirmed at £41,38m

Part 2: Successes and Challenges

Please use the below forms to detail up to 3 of your greatest successes, up to 3 of your greatest challenges and then categorise each success/challenge appropriately

11. What have been your greatest successes in delivering your BCF plan for 2015-16?	Davids Office data il construction	D
101 2012-101	Response - Please detail your greatest successes	Response category:
		4. Aligning systems and sharing
Success 1	Development of unified contract and greater understanding of fee structure for residential based CHC placements.	benefits and risks
		2.Delivering excellent on the ground
Success 2	Implementation of a highly effective falls rapid response service	care centred around the individual
		2.Delivering excellent on the ground
Success 3	The reprocurement of the Carer's service and implementation of a whole population information, advice and guidance service.	care centred around the individual

12. What have been your greatest challenges in delivering your BCF plan		
for 2015-16?	Response - Please detail your greatest challenges	Response category:
		6.Developing organisations to enable
		effective collaborative health and
Challenge 1	Lack of capacity across statutory services against a backdrop of increasing demand	social care working relationships
	Behavioural change within the system required to meet the increase in need and a high proporation of people presenting in crisis creating additional pressure	2.Delivering excellent on the ground
Challenge 2	and unsustainable demand	care centred around the individual
		1.Leading and Managing successful
Challenge 3	Workforce challenges - Herefordshire has specific challenges around recruitment and retention of staff.	better care implementation

Footnotes:

Question 11 and 12 are free text responses, but should be assigned to one of the following categories (as used for previous BCF surveys):

- 1. Leading and managing successful Better Care Fund implementation
- 2. Delivering excellent on the ground care centred around the individual
- 3. Developing underpinning, integrated datasets and information systems
- 4. Aligning systems and sharing benefits and risks
- 5. Measuring success
- 6. Developing organisations to enable effective collaborative health and social care working relationships
- 7. Other please use the comment box to provide details

New Integration Metrics

Selected Health and Well Being Board:

Herefordshire, County of

1. Proposed Metric: Use of NHS number as primary identifier across care settings

		GP	Hospital	Social Care	Community	Mental health	Specialised palliative
I	NHS Number is used as the consistent identifier on all relevant						
ŀ	correspondence relating to the provision of health and care services to an						
ļi	individual	Yes	Yes	Yes	Yes	Yes	No
Ī							
1	Staff in this setting can retrieve relevant information about a service user's						
	care from their local system using the NHS Number	Yes	Yes	Yes	Yes	Yes	No

2. Proposed Metric: Availability of Open APIs across care settings

Please indicate across which settings relevant service-user information is currently being shared digitally (via Open APIs or interim solutions)

	To GP	To Hospital	To Social Care	To Community	To Mental health	To Specialised palliative
	Shared via interim	Shared via interim	Not currently shared	Not currently shared	Not currently shared	Not currently shared
From GP	solution	solution	digitally	digitally	digitally	digitally
	Not currently shared					
From Hospital	digitally	digitally	digitally	digitally	digitally	digitally
	Not currently shared	Not currently shared	Not currently shared	Not currently shared	Shared via interim	Not currently shared
From Social Care	digitally	digitally	digitally	digitally	solution	digitally
	Not currently shared					
From Community	digitally	digitally	digitally	digitally	digitally	digitally
	Not currently shared					
From Mental Health	digitally	digitally	digitally	digitally	digitally	digitally
	Not currently shared					
From Specialised Palliative	digitally	digitally	digitally	digitally	digitally	digitally

In each of the following settings, please indicate progress towards instillation of Open APIs to enable information to be shared with other organisations

	GP	Hospital	Social Care	Community	Mental health	Specialised palliative
Progress status	In development					
Projected 'go-live' date (dd/mm/yy)	01/03/17	01/03/17	01/03/17	01/03/17	01/03/17	01/03/17

3. Proposed Metric: Is there a Digital Integrated Care Record pilot currently underway?

Is there a Digital Integrated Care Record pilot currently underway in your	
Health and Wellbeing Board area?	Pilot being scoped

4. Proposed Metric: Number of Personal Health Budgets per 100,000 population

Total number of PHBs in place at the end of the quarter	8
Rate per 100,000 population	4
Number of new PHBs put in place during the quarter	0
Number of existing PHBs stopped during the quarter	0
Of all residents using PHBs at the end of the quarter, what proportion are	
in receipt of NHS Continuing Healthcare (%)	100%
Population (Mid 2016)	188,724

5. Proposed Metric: Use and prevalence of Multi-Disciplinary/Integrated Care Teams

	No - nowhere in the
Are integrated care teams (any team comprising both health and social	Health and Wellbeing
care staff) in place and operating in the non-acute setting?	Board area
	Yes - in some parts of
Are integrated care teams (any team comprising both health and social	Health and Wellbeing
care staff) in place and operating in the acute setting?	Board area

Footnotes:

Population projections are based on Subnational Population Projections, Interim 2012-based (published May 2014). http://www.ons.gov.uk/ons/rel/snpp/sub-national-population-projections/2012-based-projections/stb-2012-based-snpp.html Q4 15/16 population figure has been updated to the mid-year 2016 estimates as we have moved into the new calendar year.

Narrative

Selected Health and Well Being Board:

Herefordshire, County of

Remaining Characters

31,468

Please provide a brief narrative on year-end overall progress, reflecting on the first full year of the BCF. Please also make reference to performance on any metrics that are not directly reported on within this template (i.e. DTOCs).

Please see Section 4 of Herefordshire's 2016/17 BCF plan (as submitted) which provide a clear update on the changes delivered during 2015/16 and gives a high level perspective on the additional developments planned for 2016/17.

Key outcomes and progress achieved during 2015/16 including the following:

- * The reprocurement of carer's services
- * The implementation of an information advice and guidance service (to divert demand)
- * Improvements in community equipment service delivering savings for both the council and CCG
- * Implementation of rapid access to discharge bed provider framework
- * Realignment of the care management teams with additional focus on hospital discharge and the advice and referral team
- * City centre IAS service open
- * Pop up hubs implemented across the county
- * Roll out of virtual ward and hospital at home provision across the county
- * Implementation of a highly effective falls rapid response service
- * Review of short break provision for children and families
- * Rapid response service enhanced to provide additional support for community and hospital discharge
- * Delivery of the DFG
- * NHS identifier embedded in social care systems
- * Unified contract developed and in negotiation
- * Care home market strategy developed, encompassing both council and CCG information
