

**Initial Consultation responses summary: B4360,C1037, COBNASH AND KINGSLAND: PROPOSED 40MPH SPEED LIMIT & 30MPH SPEED LIMIT EXTENSION.**

<b>Consultee</b>	<b>Response</b>
Ian Connolly West Mercia Police	<p>I can confirm I have no objection to this proposal.</p> <p>I have to reiterate an observation that I made in the previous communications with Amol: I appreciate the rationale behind the intention to reduce the speed limit from national speed limit to 40mph on the eastern section of the B4360 at point "A" on your plan, and in principle have no objection. However, as the existing 85th%ile speeds are quite high for a 40 I would ask that speeds are monitored post implementation and if there is not widespread compliance some form of engineering be considered to reduce speeds. Enforcement is not an option here as there is no suitable location to enforce from.</p>
Richard Hewitt Clerk to Kingsland PC	<p>Kingsland Parish Council would like to see the 40mph limit extended along the entire length of Hostel Lane to join up with the existing 40mph limit on the A4110 because of the narrow width of the road, and need to take account of the industrial estate and houses which are currently outside the recommended extent of the recommended speed limit.</p> <p>Other than that, the proposed new speed limits supported fully by the parish council.</p>
