4. Monitoring and review

How will you monitor these actions?	The output from the market town investment plan project is a set of economic development strategies, one for each market town. Each strategy has identified a set of potential projects that will support the economic development of the market town. The projects have been identified and specified in the strategies but will only be commissioned once the feasibility is established and suitable funding has been identified.
-------------------------------------	--

	A specific EIA will be developed for all commissioned projects. These project specific EIAs will identify the monitoring requirements for the project.
When will you review this EIA? (eg in a service redesign, this EIA should be revisited regularly throughout the design & implementation)	A process will be put in place to ensure that the MTIPs are kept up to date. This process will include the objective of reviewing the EIA for each MTIP and ensuring that EIAs are carried out for each commissioned project.
