Background

Herefordshire's Early Help offer includes both universal and targeted services aimed at supporting children, young people, and families before statutory intervention is required. The offer includes:

- **Universal services:** Provided largely through Talk Community, voluntary and community organisations, schools, health, and public health-funded initiatives.
- **Targeted early help:** Led by the Early Help team within Children's Services, working directly with families who require structured support.

Key developments in this area in recent years include:

- Integration of Early Help into wider Children's Services through locality models.
- Introduction of Families First and Lead Practitioner roles.
- Recruitment of two new children's-focused community development workers within Talk Community.
- Partnership commissioning (such as with the PCC) to support local early intervention initiatives.

To build on these developments, work is underway to identify and address weaknesses in current practice, including:

- Persistent confusion around distinctions between universal and targeted Early Help.
- Limited public visibility of the Early Help offer and recent developments.
- Variability in provision and access across different localities.
- Pressure on schools to deliver Early Help without sufficient funding or infrastructure.
- Need for improved coordination between statutory and non-statutory partners.

Purpose

The group therefore aims to provide a constructive and collaborative space to:

- Recognise strengths in current Early Help provision.
- Identify good practice across different communities.
- Highlight gaps or inconsistencies in provision and the work in place to address them.

Scope of Inquiry:

In recognition of the broad and varied nature of early help available in Herefordshire, the group intends to carry out two distinct but closely interdependent streams of work:

- **Targeted Early Help and Families First**
 - Understanding the Families First implementation.
 - Exploring the role of lead practitioners.
 - Clarifying the role of schools and multi-agency collaboration.
- **Community and Universal Offer**
 - Mapping and showcasing local Early Help initiatives.
 - Exploring partnerships with Talk Community hubs, voluntary groups, parish and town councils.
 - Engagement around youth activities, access barriers (transport), and local innovation.

Work Programme

The group will determine its programme of work to meet the above objectives. This programme will include:

- Local Appreciative Inquiry events in Hereford City Ross, and Leominster, supported by Talk Community and Children's Services.
- Case studies
- Meeting with families and professionals, individually and in focus groups

Work programme

Targeted early help and Families First

- Recognise strengths in current Early Help provision.
- Identify good practice across different communities.
- Highlight gaps or inconsistencies in provision and the work in place to address them.

Placemaking and Public Participation task and finish group

Terms of reference

Background

Herefordshire is entering a significant period of growth and change. Delivering new housing, infrastructure, and services must strengthen local communities and reflect the county's distinctive rural character.

Research shows that while public involvement in planning is vital, engagement often remains procedural rather than meaningful. Many residents feel disconnected from decision-making, uncertain about how to participate, or unconvinced that their input makes a difference.

The Planning and Compulsory Purchase Act 2004 requires every local planning authority such as Herefordshire to publish a Statement of Community Involvement. The Levelling-up and Regeneration Act 2023 and resultant secondary legislation is likely to place greater emphasis on this statement with a proposed requirement for a local planning authority Community Involvement Scheme. This provides a timely opportunity to modernise Herefordshire's existing Statement of Community Involvement (January 2022), ensuring it reflects Herefordshire Council's 2024–2028 priorities for economic growth and community development.

This task and finish group will explore how Herefordshire can plan with its communities, ensuring that growth, infrastructure and environment evolve together in a fair, transparent, and creative way. It will then make recommendations to underpin the Council's new statutory engagement framework.

The aim is to move beyond statutory minimum consultation and create a culture in which residents look forward to new development as something they have helped to shape. Growth with, not to, communities.

Purpose

To identify and recommend practical, evidence-based measures for making community engagement in planning and placemaking more inclusive, accessible, and effective across Herefordshire. The group will:

- Examine best practice and innovative approaches to public participation.
- Advise on the update and replacement of the Statement of Community Involvement (2022) with a new Community Involvement Scheme (2026).
- Ensure that community voice and cultural engagement sit at the heart of the county's future planning system.

Objectives

- To understand current legislation and good practice in community involvement and evaluate how residents currently engage with planning in Herefordshire and identify barriers to participation.
- Review and learn from good practice in community engagement in other local authorities and with housing providers.
- Inform and help draft the replacement of the Statement of Community Involvement (2022) with a new Community Involvement Scheme (2026)
- Make recommendations to the Connected Communities Scrutiny Committee and Cabinet to deliver the above.

Scope

The task and finish group will focus on how communities are involved in shaping growth, not on what is built or where sites are allocated. It will not duplicate the work of the Housing Development Working Group or the technical drafting of the Local Plan.

Membership and Governance

- 5–7 elected members of Herefordshire Council (no Cabinet members).
- Up to two co-opted members with relevant expertise or community experience.
- Supported by officers from Democratic Services, Economy and Environment, and Communications.
- Reports through the Connected Communities Scrutiny Committee, which will submit recommendations to Cabinet for formal response.

Expected Outputs

- A final report setting out
 - practical recommendations for improving public participation in planning and placemaking.
 - A proposed structure and content outline for Herefordshire's new Community Involvement Scheme (2026), replacing the 2022 Statement.
 - Case studies and prototypes demonstrating innovative engagement methods suitable for rural and market-town contexts.

Success Measures

- At least five examples of national or local best practice reviewed.
- Two or more new engagement methods agreed or trialled.
- Clear, costed recommendations adopted within the 2026 Community Involvement Scheme.
- Cabinet adoption of group recommendations into council policy.

Commercialisation working group

Terms of reference

Background

Herefordshire Council faces a potential funding gap of £27.3 million for the 2026-27 financial year, and further funding gaps in future years. The executive has already identified commercialisation as key to its transformation programme. The executive has also indicated that commercialisation and income generation will form part of the strategy to address the funding gap.

Commercialisation within local government represents both a financial opportunity and a cultural challenge. Commercialisation could deliver significant cost savings and income-generating opportunities but only as a result of cultural change. For example [guidance](#) from the Association For Public Service Excellence emphasises that commercialisation cannot simply be a reaction to budget deficits – it requires an embedded strategy, a commercial mindset within the local authority, clear governance, and a well-developed understanding of risk.

To assist the Cabinet in developing a budget to propose to council Scrutiny Management Board will undertake a working group of members investigating how the council could increase income in the short and medium term alongside greater commercialisation.

Initial recommendations will be provided informally to the Cabinet by the end of November,

Short- and Long-Term Opportunities

Short term: The working group will examine the opportunities of:

- reviewing and adjusting fees and charges,
- maximising income from council assets (such as property leases and car parks), or exploring asset repurposing or disposals.
- benchmarking against neighbouring authorities could identify under-priced services as well as gaining an understanding of work that has already been undertaken in this area and
- other opportunities for income generation

The working group will seek to understand the impact and the risks associated with any short term operations

Longer term: The working group will identify opportunities to increase income and to drive efficiency in future years across the life of the medium-term financial strategy including, but not limited to those opportunities presented by commercialisation.

Given the timescale the working group's recommendations, especially for future years may be quite high level. The working group will deliver the best-founded recommendations it can within the fixed (and tight) timescale.

Overall approach

We propose a three-stage approach

- Herefordshire council is already working on commercialisation and income generation. The working group will consider current plans and arrangements, challenge these and work with officers to identify areas that they may not have considered.
- The working group will also have regard to the impact of their proposals on local people and the risks that may be associated with them.
- If there is time the working group will also investigate the strategic issues relating to commercialization and make recommendations for the cabinet to consider.

The Working Group will also have regard to guidance and experience across the sector in regards to areas such as (not an exhaustive list):

- The purposes of commercial activity, namely the balance between maximising income (for example, through fees, charges, or property ventures), supporting broader social value and strengthening community resilience.
- How the council might operate in markets without distorting competition and maintaining fairness to local businesses-governance and risk management
- The cultural dimension, which cannot be overstated. Officers and members must share a mindset that sees prudent risk-taking as legitimate. Without organisational readiness – training, leadership commitment, and internal capability – commercial ambitions will fail.

The scrutiny process must therefore explore how Herefordshire can build this culture safely, balancing entrepreneurial ambition with its statutory duty to protect public assets. It must also concern itself both with the immediate opportunities to increase income and the longer-term changes required to inculcate greater commercialisation.
