	Pages
8. CHILDREN'S SERVICES IMPROVEMENT PLAN - IMPLEMENTATION REVIEW UPDATE	3 - 100

Title of report: Children's Services Improvement Plan

Meeting: Children and Young People Scrutiny Committee

Meeting date: Tuesday 18 July 2023

**Report by: Corporate Director - Children & Young People, Service Director
Improvement, Project Lead**

Classification

Open

Decision type

This is not an executive decision

Wards affected

(All Wards);

Purpose

To provide an overview and update on progress against the Children's Improvement Plan as a benchmark for future scrutiny activity in this first meeting of the children and young people scrutiny committee since the local elections in May.

Recommendation(s)

That:

- a) **The children and young people scrutiny committee note the current position with regard to progress against the children's improvement plan; and**
- b) **Indicate which specific areas of the plan the committee might want to consider in more detail the future (recognising the role of the Improvement Board in monitoring progress overall).**

Alternative options

1. The Children and Young People Scrutiny Committee could choose to not consider this update report, however given the importance of the subject matter it is being presented to this meeting. This is not recommended.

Further information on the subject of this report is available from

Unknown document property name.**

Key considerations

2. On 21 September 2022, Ofsted published a [report](#) rating Herefordshire Council children's services as inadequate following an inspection that took place between 19 and 29 July 2022 and the council was given three months to prepare an improvement action plan in response.
3. Following the publication of the Ofsted report a [statutory direction](#) was issued by the Secretary of State to Herefordshire Council and Eleanor Brazil was appointed as Commissioner for Children's Services in Herefordshire.
4. The [Children's Services Improvement Plan](#) was updated setting out how the council is addressing each of the areas identified for improvement by Ofsted and a tenth area identified following a recent Local Government Association Special Educational Needs and Disabilities Peer Review.
5. Having been presented to [Scrutiny Committee on 13 December 2022](#), Scrutiny Committee recommended for Cabinet to endorse the Improvement Plan and for Cabinet to authorise for the Improvement Plan to be submitted to Ofsted.
6. The Improvement Plan was endorsed by Cabinet on Thursday 15 December 2022 and submitted to Ofsted on 20 December 2022. The Plan aims to improve the outcomes for children and young people across the county.
7. Progress against the improvement plan is overseen by the Improvement Board, independently chaired by Gladys Rhodes White (Department for Education Improvement Advisor). The Board meets on a six-weekly basis and has adopted a thematic approach in its focus on the outlined areas of the overall plan according to the pathway of the child through the service and specific areas of interest and/or concern.
8. The most recent progress cover report and updated Improvement Plan submitted to the Improvement Board for its meeting on 7 June 2022 is shared with the Children and Young People Scrutiny Committee as Appendix 1 and Appendix 2 for information. The next Improvement Board is scheduled for 19 July 2023.
9. The Improvement Plan is very detailed and comprehensive and runs to 86 pages. The format of the Improvement Plan incorporates a progress update on all the priority improvement actions, of which there are 64 in total, each time the Improvement Board meets. The Improvement Board also receives a cover report which provides an introduction and overview with updates about the direction of travel, key highlights, notable risks and issues as well as a summary and conclusion with any recommendations.
10. The updated plan and covering report are informed by the delivery dashboards reporting on the improvement activities that are tracked with assistance from the corporate Project Management Office. The delivery dashboards are enhanced by consultations and discussions with Senior Responsible Officers and Service Leads plus a review of the performance management and quality assurance reporting.
11. There are ten priority improvement areas in the Improvement Plan. This includes the nine improvement areas identified by Ofsted following the July 2022 inspection, plus a tenth priority improvement area focusing on improvements identified from the Local Government Association (LGA) Peer Review (October 2022) which focused on Special Educational Needs and / or Disabilities (SEND). Each of the ten priority improvement areas include a number of priority improvement actions. For ease of reference the ten improvement priority areas include the following:
 - i. Corporate responsibility for the help and protection of children and those in care and care leavers, so this is prioritised and embedded across the council and partnerships.
 - ii. The sufficiency and stability of staff across the workforce, including sufficient numbers of foster carers, so children receive a timely response to having their needs identified and met across the service.

- iii. The timely and robust identification and multi-agency response to children and young people who are at risk of harm, including, but not limited to, the response to pre-birth children and babies, 16- and 17-year-olds who present as homeless, children living in private fostering arrangements and children who go missing from home and care.
 - iv. The quality of practice including assessments, plans, planning and purposeful visits that are responsive to risk and need.
 - v. Timely and effective multi-agency arrangements to ensure children are protected and enter care when required.
 - vi. Monitoring and tracking to prevent drift and delay. This includes the monitoring and tracking of children in the Public Law Outline (PLO), permanence planning, children subject to deprivation of liberty orders and those placed in unregistered children's homes.
 - vii. The availability of support and services to meet children and young people's needs, including timely access to therapeutic interventions, access to dentistry, life-story work, emotional and mental health support, help for young people to support transitions into independence and sufficient suitable accommodation.
 - viii. Management oversight and grip across the service to include clear structures and service pathways, and regular and effective supervision.
 - ix. Performance and quality assurance arrangements to support and test service improvements.
 - x. Services to support children and young people with Special Educational Needs and / or a Disability (SEND)
12. Each improvement priority area includes a discreet number of 'Measures that Matter' which are shown within the Improvement Plan underneath each relevant section. The 'Measures that Matter' are some key performance indicators and service measures that help to determine the impact of practice and service delivery and the difference that is being made to improve outcomes for children, young people and their families. The 'Measures that Matter' are mostly quantitative measures but some qualitative measures are included and these are taken from the monthly auditing programme as part of the Quality Assurance Framework.
13. The Improvement Plan includes a 'BRAG' rating outlining the progress status of each of the priority improvement actions. More recently the improvement plan has been developed to also include a 'BRAG' rating to begin measuring the improvement outcomes to help evaluate and determine if the improvement activities are improving outcomes for children, young people and their families. The latter is work in progress and each work stream is being encouraged and supported to identify and report on outcome measures to help determine what difference is being made to improve outcomes for children, young people and their families. Currently, and increasingly over time, this will be further tested by a range of quality assurance activities and punctuated by the feedback from the Ofsted monitoring visits.
14. Ofsted also monitor progress against the improvement plan and conduct a series of monitoring visits following an inadequate inspection judgement. The first monitoring visit to Herefordshire children's services took place in March 2023 and the feedback letter was presented to [Cabinet](#) on 22 June 2023. The second monitoring visit took place on 28-29 June 2023 and focused on children in need and child protection activity. It is expected that the feedback letter will be published on the [Ofsted website](#) on 2 August 2023.
15. After the June 2023 Improvement Board, at the point the Improvement Plan had been operational for 6 months, a rationalisation exercise was undertaken. This exercise aimed to

streamline and coordinate the improvement infrastructure, improve accountability and increase the pace of improvement. The Improvement Board infrastructure is now supported by three, as opposed to seven, Transformation Delivery Boards (including Practice and Service Delivery; Workforce; and Commissioning and Resources) and the four key Partnership Boards (including the Herefordshire Safeguarding Children Partnership; Corporate Parenting Board; Children and Young People's Partnership; and the SEND Strategic Board). The Senior Responsible Officers for the Transformation and Partnership Boards will be reporting directly to the Improvement Board moving forward and this will begin at the 19 July 2023 Improvement Board.

16. Progress against the improvement plan is overseen by the Improvement Board and will continue to be reported upon to the Children and Young People's Scrutiny Committee and Cabinet at regular intervals.

Community impact

17. The Ofsted inspection judgement of 'Inadequate' has a direct and indirect effect on the lives of both current and future children and families in Herefordshire.
18. Keeping children safe is one of the most important things this council does and the details in this report support whatever action is required to ensure children and families receive the services they deserve.

The County Plan 2020-24 includes the ambition to 'strengthen communities to ensure everyone lives well and safely together', specifically the Council aims to:

- Ensure all children are healthy, safe and inspired to achieve;
- Ensure that children in care, and moving on from care, are well supported and make good life choices; and
- Protect and improve the lives of vulnerable people.

Environmental Impact

19. There are no specific implications for the environment arising from this report.

Equality duty

20. Under section 149 of the Equality Act 2010, the 'general duty' on public authorities is set out as follows:

A public authority must, in the exercise of its functions, have due regard to the need to –

- a) eliminate discrimination, harassment, victimisation and any other conduct that is prohibited by or under this Act;
- b) advance equality of opportunity between persons who share a relevant protected characteristic and persons who do not share it;
- c) foster good relations between persons who share a relevant protected characteristic and persons who do not share it.

21. The public sector equality duty (specific duty) requires us to consider how we can positively contribute to the advancement of equality and good relations, and demonstrate that we are paying 'due regard' in our decision making in the design of policies and in the delivery of services.

Resource implications

22. There are no resource implications associated with this report. The resource implications of any recommendations supported by the Scrutiny Committee will need to be considered by the responsible party in response to those recommendations or subsequent decisions.

Legal implication

23. The Council was issued with a statutory direction by the Department for Education on 21 September 2022. To comply with this notice, the Council must adhere to a number of measures, which includes complying with any instructions of the Secretary of State or the Children's Services Commissioner in relation to the improvement of the council's exercise of its children's social care functions.

24. If there is a failure to comply with this notice or should ministers not be satisfied with the council's progress at any stage, ministers may choose to invoke their statutory powers of intervention (s497A Education Act 1996) to direct the council to enter into an appropriate arrangement to secure the improvements required in children's services.

Risk management

25. There are no new risk implications identified emerging from the recommendations in this report.

Consultees

26. None.

HEREFORDSHIRE COUNTY COUNCIL

CHILDREN'S IMPROVEMENT BOARD 7 JUNE

IMPROVEMENT PLAN PROGRESS UPDATE COVER REPORT

1.0 Introduction

1.1 This cover report addresses the progress updates that have been added to the Improvement Plan for consideration at the June 2023 Improvement Board. These updates are based on information outlined in the Transformation Programme Delivery Dash Boards, feedback from Project Managers, Senior Responsible Officers and Service Leads as well as quality assurance and performance reporting. The Improvement Plan reflects the most up to date data and information for the month of May 2023.

2.0 BRAG Breakdown

2.1 Overall, the general direction of travel continues to be positive in respect of progressing agreed improvement priority actions as the majority of these continue to remain on track. Of the 64 priority improvement actions, 32 (50%) are now BRAG rated Blue which reflects a positive shift towards 'business as usual'. When adding the Green BRAG rated priority improvement actions, this figure increases to 43 (67%).

2.2 The overall improvement activity and impact summarised below:

	Previous Improvement Activity	Previous Improvement Impact	Current Improvement Activity	Current Improvement Impact
Grey	1 (1.53%)	33 (49.23%)	0	29 (45.31%)
Blue	28 (46.66%)	0	32 (50%)	0
Red	8 (13.33%)	1 (1.53%)	2 (3.13%)	2 (3.13)
Amber	4 (6.15%)	20 (30.76%)	18 (28.13%)	22 (34.37%)
Green	24 (36.92%)	11 (16.92%)	12 (18.75%)	11 (17.19%)
Total	65	65	64	64

2.3 Whilst improvement actions remain broadly on track the impact of these is not yet being reported on a consistent basis. Overall, the impact of improvement activity is broadly the same as previously reported to the Improvement Board in April 2023. A key reason for this is that impact measures have not been agreed for all priority improvement actions yet. Whilst most activity has been progressed or completed it is not always clear what difference this has made and whether children, young people and families are better off as a result. This highlights the need to ensure that impact measures are agreed as a matter of priority and routinely reported to future Improvement Boards, starting at the July 2023 Board. It is anticipated that the review proposals outlined below in section 4 will assist.

2.4 Another issue concerning the BRAG ratings relates to a number of priority improvement deadlines which, upon reflection, may have been overly optimistic when they were first set, particularly given the low base for many of these. Having said this, all priority improvement actions have now started and an increasing proportion are now progressing well or have already become business as usual, as indicated by the Green and Blue BRAG ratings. The pace of improvement will however remain a key concern and it is important that the service, council and wider partnership continue to build and maintain focus and momentum moving forward.

2.5 Overall, the number of Red BRAG rated priority improvement actions has decreased from 8 to 2 and in terms of impact this has increased from 1 to 2. The details of the Red BRAG rated improvement activity and impact are outlined below:

#	Improvement Activity	Commentary	Deadline
2.1	Impact of workforce strategy to recruit social work practitioners and managers	Despite the improvement activity undertaken to date, the impact of this has not had desired effect. The recruitment of new permanent social work practitioners and team managers remains very low. Reporting for the past period indicates 0 appointments and 2 conversions from agency to permanent contracts. The DCS has escalated this with the Corporate Leadership Team.	March 2023
2.4	Foster carer recruitment campaign	Improvement activity and impact of this are both RAG Rated Red. Improvements in the Fostering Service have been focused on rebuilding the trust and confidence of current foster carers. Following the recent appointment of the new Marketing Officer the launch of the Foster Carer Recruitment Campaign can now begin. This will be further strengthened and supported by the recent developments in respect of the Communications Strategy which will address priority improvement campaigns, including the Foster Carer Recruitment Campaign.	March 2023
7.5	Care experienced young people's health histories	To date, there is no evidence that this priority improvement action has been progressed. Some health related priority actions (7.1 and 7.2) have however been scoped. More focused work is underway but not reported yet. Following consultation with the Improvement Board Chair, it is proposed that Health partners are asked to present a report to the next Improvement Board in July 2023 to outline the improvement activity that has been progressed and the impact this is having, including 7.1, 7.2 and 7.5 regarding health histories.	March 2023

3.0 Top 5 Improvements

3.1 The top 5 improvements was introduced for the first time in the previous Improvement Board. This development has not yet been fully embraced by the delivery boards, which have been slow at identifying areas of improvement to highlight and celebrate. This will hopefully become more of a focus as more impact measures are developed and as a result of the proposed changes that are set out in section 4 below.

3.2 The top 5 improvements for this Improvement Board are SEND related and are set out below:

#	Improvement activity	Improvement Impact
1	SEND Strategy (10.1)	Setting priorities - Children and families report being clearer about Herefordshire’s priorities and how these respond to what they have said about what needs to change and improve.
2	SEND strategic oversight and direction for improvement (10.2)	Performance - The Strategic Board report confidence in the SEND Action Plan which is gaining traction. For example, EHC plans issued within 20 weeks = 100% in April 2023. Plus the LGA (April 2023) follow up to review focusing on the quality of completed EHC plans reported positive findings: <i>‘We were impressed with the professional and dedicated team of case workers who were appreciative of the demands placed on other agencies but determined to complete the ECHPs. The common theme was the safety of children, their well-being and the opportunity to develop to their full potential.’</i>
3	SEND partnership (10.3)	Co-production with children and young people - Work to develop engagement and participation is a particular priority with children and young people’s views informing and shaping the focus of the SEND Strategy
4	SEND offer (10.4)	Parent Carer feedback – parents and carers report that the offer adaptations are easier to navigate and improves access to information.
5	SEND sufficiency (10.7)	Sufficiency – sufficiency planning for September 2023 is on track to open: <ul style="list-style-type: none"> ➤ 4 new mainstream Autism bases (2 x Primary & 2 x Secondary) offering 24 additional places ➤ New Satellite Hub for SEMH

		<p>➤ School's Re-Building Programme - Westfield Special School will be prioritised for re-building</p> <p>Pupils with SEND will now be able to access suitable local education provision to meet their assessed needs and be supported to reach their potential.</p>
--	--	--

4.0 Improvement Board Infrastructure Review and Rationalisation

4.1 Since the last Improvement Board in April 2023, there has been a review to rationalise the improvement infrastructure. The review was undertaken by Gladys Rhodes White, Gail Hancock and Joni Hughes and proposes a number of recommendations to streamline and coordinate improvement activity in order to improve accountability and pace.

4.2 The proposals have been shared and agreed with all Senior Responsible Officers and, subject to feedback from Improvement Board members, the proposed way forward will hopefully mark a step change in current arrangements.

4.3 A summary of the review proposals is as follows:

- a) The seven transformation programme delivery boards will be reduced to three and will include: Practice and Service Delivery; Workforce; and, Commissioning and Resources.
- b) Each delivery board will have nominated senior responsible officers as Chair and Vice Chair. They will possess the relevant technical knowledge, skills and experience and have the necessary leadership to drive improvements forward.
- c) The four key partnership boards will become directly responsible for progressing relevant priority improvement actions and will be asked to report directly to the Improvement Board.
- d) The four partnership boards will include; the Herefordshire Safeguarding Children's Partnership; the Children and Young People's Partnership; the Corporate Parenting Board; and, the SEND Strategic Board.
- e) The Project Management resources will be reconfigured to continue supporting the three delivery boards and also provide additional support to the four partnership boards
- f) All existing priority improvement actions contained in the Children's Improvement Plan will be assigned to the appropriate delivery or partnership board

4.4 The senior responsible officers, who will be the chairs and vice chairs for the delivery boards are as follows:

- Practice and Service Delivery (SROs: Rachel Gillott / Gail Hancock)
- Workforce (SROs: Tracey Sampson / Darryl Freeman)
- Commissioning and Resources (SROs: Hayley Doyle / Victoria Gibb)

4.5 The senior responsible officers, chairs and service lead for the four partnership boards are as follows:

- Herefordshire Safeguarding Children's Partnership (HSCP) (SRO: Kevin Crompton)
- Corporate Parenting Board (CPB) (Chair: Councillor Ivan Howell, SRO: Victoria Gibb and Service Lead: Julie Mepham)
- Children and Young People Partnership (CYPP) (SRO: Matt Pearce), and the;

- SEND Strategy Board (SRO: Liz Farr).

4.6 There will be an expectation that Quality Assurance and Performance reporting will be core for all partnership boards, although the Children’s Services SRO, Victoria Gibb, who is the new incoming permanent Service Director starting on 4 June 2023, will continue to oversee the reporting of the established monthly auditing and performance reports for Children’s Services.

4.7 A standard agenda and reporting template have been developed to ensure a comprehensive and consistent approach. The Improvement Board will receive delivery board reports at every board meeting. The Improvement Board will receive Partnership reports every other board meeting and will adopt the following pairing and reporting pattern set out below:

- HSCP and CPB – starting with reports to the 19 July and then 11 October Improvement Boards
- CYPP and SEND Board – starting with reports to the 30 August and then 22 November 2023 Improvement Boards

5.0 Summary of Board Requests:

- a) To endorse the review proposals, as outline in section 4
- b) To endorse the proposal to seek a Health report at the next Board, as outlined in section 2.5

6.0 Arrangements for presenting this report

5.1 Due to annual leave, this cover report will be presented by Bart Popelier, Improvement Lead. Gladys Rhodes White, DfE Independent Improvement Board Chair, will address section 4 which relates to the review of the Improvement Board infrastructure and related proposals.

Gail Hancock

Interim Service Director (Improvement)

Background

Children’s Services were inspected by Ofsted in July 2022 under the Inspecting Local Authority Children’s Services (ILACS) framework.

The inspection report was published on 21 September 2022 and is available on the Ofsted website¹.

The overall judgement was that Herefordshire Children’s Services are ‘inadequate’. The judgements contributing to this outcome are as follows:

Judgement	Grade
The impact of leaders on social work practice with children and families	Inadequate
The experiences and progress of children who need help and protection	Inadequate
The experiences and progress of children in care and care leavers	Inadequate
Overall effectiveness	Inadequate

Following the inspection, we have moved openly and swiftly to acknowledge the key areas for improvement, many of which we had already identified and incorporated into our existing Transformation Programme. We have taken immediate action to increase capacity where it was needed to strengthen our MASH (Multi-Agency Safeguarding Hub) and other frontline services for children and young people.

At the time of the inspection, we were already developing a number of practice priorities within the service and were focussing on addressing some wider systems issues. We have increased the pace of this activity and we know that in order to realise our vision and aspiration for improved children’s outcomes, a comprehensive transformation of our service is required to achieve the long-term and sustainable changes that local children, young people and families in Herefordshire need, deserve and expect.

This high-level Improvement Plan has been prepared in collaboration with a range of stakeholders including children, young people, parents and carers, our workforce and our multi-agency / cross sector partners. Some of this engagement has been very challenging, particularly given the impact and legacy of inadequate service delivery. It has been necessary to do this however so that we can confront and abate the current problems and make improvements as quickly as possible. We intend to continue engaging with our stakeholders to further develop a local conversation whereby we will listen, address feedback and take appropriate action as an integral part of our improvement journey as we move forward.

¹ <https://files.ofsted.gov.uk/v1/file/50192875>

Our transformation programme

Our plan sets out the first phase of our post-inspection improvement activity as a direct response to receiving the inspection feedback and report. Having accepted the service's shortcomings, we are focusing on what we need to do to deliver safe and effective core services as quickly as possible. It focuses on the next 12-18 months although the transformation activity will necessarily take longer than this and the plan will be reviewed, refreshed and further developed as required. This builds upon the activity undertaken before the inspection to diagnose the extent of existing weaknesses and is followed up with a focus on strengthening core systems, clearing backlogs, securing thresholds and stabilising the service. We will continue to work at pace to problem solve and assure the quality of our practice moving forward.

The plan carries forward the key elements of the previous plan and reflects changed priorities following the recent Ofsted inspection. Our transformation programme has a number of Projects, including Workforce, Service and Practice Development, Performance and Quality Assurance, Commissioning Resources, Early Help and Partnerships, Corporate Parenting and Special Educational Needs and / or Disabilities (SEND). Improving outcomes for children with Special Education Needs and/or Disability is not restricted only to the SEND work stream and is included in each of the work streams. Each work stream has a member of the Corporate Leadership Team as the Senior Responsible Officer (SRO)

The corresponding project plans have all been reviewed and aligned to address the high level actions for each of the priority improvement areas identified by Ofsted inspection, and the LGA peer review of SEND services. A diagram outlining the governance arrangements is included at Appendix A and outlines the relationship between the Projects, the plan, and the Improvement Board.

For ease of accountability, responsible leads are primarily senior officers of the council but there is an increased focus on partnership working reflected in the various task and finish groups and in the project plans that sit behind this high-level plan.

Our improvement activity will be supported and driven by strengthened performance management and quality assurance arrangements, with clear lines of accountability that are overseen by single and multi-agency governance arrangements reporting into our Improvement Board, which is independently chaired by our Department for Education (DfE) Improvement Advisor.

We will be reflective and embrace the learning opportunities that are afforded to us from working in partnership with our Commissioner, Sector Led Improvement Partners and through an open dialogue with support and challenge provided by our colleagues in the DfE and Ofsted.

How we will achieve success

Success is dependent upon a county-wide approach working together with the Service, the Council and all stakeholders, including working in partnership with parents and carers and taking full account of children and young people's voices.

High support and high challenge will be essential, backed by robust governance arrangements and effective partnerships. In addition to the work of the Improvement Board, key partnerships including the Herefordshire Safeguarding Children Partnership (HSCP), Corporate Parenting Board, Children and

Young People’s Partnership, SEND Partnership Group, Health and Wellbeing Board and Community Safety Partnership will each have a significant contribution to make to deliver improved services and achieve better outcomes for children, young people and families in Herefordshire.

Our workforce

Our workforce is our greatest asset and we are building an organisational culture characterised by strong relationships, high support and high challenge. We are committed to working with our workforce and have established a Staff Reference Group, have appointed a Principal Social Worker and developed other engagement fora, to ensure our workforce has a voice that is championed to inform and influence our improvement activity. The Staff Reference Group meets monthly and their representation is heard at the Improvement Board.

Evidencing Improvement Activity and Impact

Improvement priorities set out in this plan will be measured in terms of progressing the pace of improvement activities as well as the impact that these are having on outcomes for children, young people and families. The progress reporting will provide a BRAG rating to determine if the progress of improvement activity is on track as well as BRAG rating the impact it is having. BRAG Ratings will be informed by the Transformation Programme Delivery Dash Boards, including consultation with Senior Responsible Officers and Service Leads as well as analysing quality assurance reporting about the standard of practice and performance reporting in respect of management information data.

Impact ‘BRAG’ rating guide:

The BRAG ratings will report on the status of both the improvement activity (the tasks/actions) and the overall impact and outcome of these in respect of improving outcomes with children, young people and their parents, carers and families. This will show the status of the activity being undertaken both in terms of its timeliness and progress as well as confirming if it is having the desired impact to deliver improved outcomes. Details of the BRAG descriptors are as follows:

Blue ratings in terms of improvement activity will indicate when activity has been completed according to agreed plans. In terms of impact, the improvement activity delivers a consistently good or better impact on practice and performance that is secure, embedded and improves outcomes for all/vast majority of children.

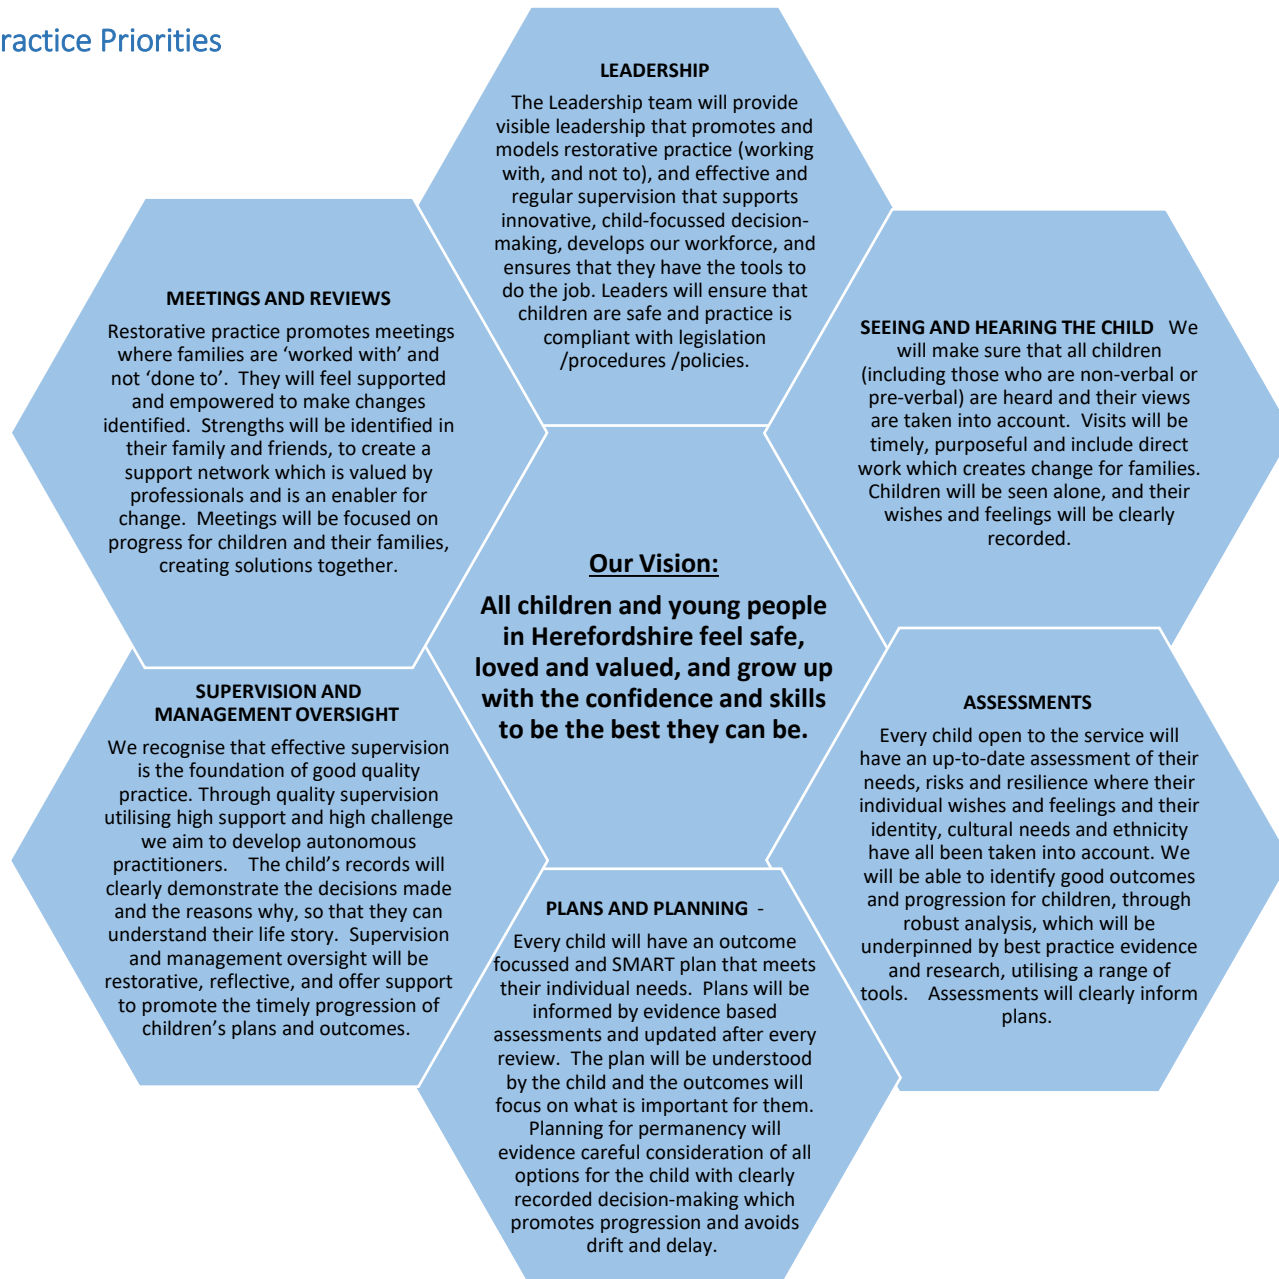

Red ratings in terms of improvement activity will indicate where activity has not started, has stalled or stopped due to unresolved issues which are preventing progress, causing delay and presenting significant risks. Inevitably, this has an adverse impact so children, young people and their parents/carers experience very limited or no positive outcomes.

Amber ratings in respect of improvement activity will indicate where activity has started and although some issues have been identified these are being dealt with but are causing some delay. In terms of impact, an Amber BRAG rating indicates that whilst there is some positive impact this is not yet consistent or widespread for all/most children.

Green ratings in terms of improvement activity will indicate when activity has started, is on track and progressing according to agreed plans. In terms of impact, a Green BRAG rating indicates that this is impact is positive with most children and young people experiencing a consistently good service that improves outcomes.

<p>Activity/Impact Key</p>	<p>Activity Not yet due to start Impact Activity not started/too early to measure impact yet</p>	<p>Activity Started and on track Impact Mostly positive and consistent impact which delivers improved outcomes for children and young people</p>	<p>Activity Started with some issues/delay Impact Some positive impact but this is variable and does not consistently improve outcomes for children and young people</p>	<p>Activity Not on track and at risk Impact Very limited or sporadic impact on improving outcomes for a few children and young people</p>	<p>Activity Completed and now 'business as usual' Impact Achieves consistently good and better impact that delivers improved outcomes for children and young people</p>

Our Practice Priorities

Areas for Improvement

The Ofsted inspection report identifies the following nine improvement areas which provide the framework for this high level Herefordshire Children's Services Improvement Plan:

1. Corporate responsibility for the help and protection of children and those in care and care leavers, so this is prioritised and embedded across the council and partnerships.
2. The sufficiency and stability of staff across the workforce, including sufficient numbers of foster carers, so children receive a timely response to having their needs identified and met across the service.
3. The timely and robust identification and multi-agency response to children and young people who are at risk of harm, including, but not limited to, the response to pre-birth children and babies, 16- and 17-year-olds who present as homeless, children living in private fostering arrangements and children who go missing from home and care.
4. The quality of practice including assessments, plans, planning and purposeful visits that are responsive to risk and need.
5. Timely and effective multi-agency arrangements to ensure children are protected and enter care when required.
6. Monitoring and tracking to prevent drift and delay. This includes the monitoring and tracking of children in the Public Law Outline (PLO), permanence planning, children subject to deprivation of liberty orders and those placed in unregistered children's homes.
7. The availability of support and services to meet children and young people's needs, including timely access to therapeutic interventions, access to dentistry, life-story work, emotional and mental health support, help for young people to support transitions into independence and sufficient suitable accommodation.
8. Management oversight and grip across the service to include clear structures and service pathways, and regular and effective supervision.
9. Performance and quality assurance arrangements to support and test service improvements.

In addition to the nine improvements areas outlined above, the plan also includes a tenth improvement area that focuses on Special Educational Needs and/or Disabilities (SEND). This improvement priority has been included following a SEND Peer Review undertaken by the Local Government Association (LGA) in October 2022.

1: Corporate responsibility for the help and protection of children and those in care and care leavers, so this is prioritised and embedded across the council and partnerships.

Action	Lead	Deadline	Progress	Activity BRAG	Impact BRAG
1.1 Allocate additional corporate resources with dedicated project management support to strengthen strategic and operational planning for the improvement and transformation activity.	Director of Programme Management Office & Performance	October 2022	<ul style="list-style-type: none"> Post-inspection, Corporate Senior Responsible Officers and Service Leads were aligned with the Transformation Programme Delivery Boards Programme Management Officer resources were allocated New Improvement Director appointed (October 2022) These corporate/service enablers and activities has largely addressed the 2022 inspection concerns that “Improvement planning requires further strengthening to provide strategic cohesion and detailed operational plans, with clear timescales to inject pace, prioritisation and accountability.” (pg. 9) Greater pace is required to address improvements. The March 2023 Ofsted monitoring visit letter stated: “While leaders understand the scale of improvement, and have started to implement a comprehensive improvement plan the pace of improvement is too protracted.”

----------------------------	---	--	--	--	---

			<ul style="list-style-type: none"> ○ HSCP Quality & Effectiveness Sub Group standard agenda item – update report due at next Improvement Board in July 2023 		
--	--	--	--	--	--

Expected Outcomes (how we will know)
<ul style="list-style-type: none"> • Elected Members and the Corporate Leadership Team (CLT) will take timely and necessary action, supported by accurate data that makes a difference for children and young people. (Performance data and records of decisions) • Multi-agency partners will hold equal responsibility and accountability for children who are identified at risk. This success will be seen in the reduction of children on repeat child protection plans and children requiring court intervention. (Performance data and quality assurance activity) • All of those with corporate parenting responsibilities will have sufficient understanding of their role to offer robust challenge to ensure positive outcomes for children in our care and those that we have previously looked after. (Feedback)

Expected Outcomes (how we will know)
<ul style="list-style-type: none"> • Workforce profiling data, average caseload data, and improving performance data will together evidence increased capacity to implement and achieve improvement at pace, supported by strong leadership. (Performance data) • Children and young people will experience minimal changes in allocated worker. (Performance data and feedback) • All new starters will have a meaningful induction on joining children’s services to ensure that our workforce understand what is expected of them, what support is available, and key systems and processes. (Performance data, and feedback) • More families will be supported to continue caring for their own children and young people where this is safe and in their best interest to do so (Performance data, and feedback) • More foster carers will be recruited and retained to provide local placements for local children and young people when they are unable to remain living with their own family (Performance data)

			<p>which are due to be completed in August 2023.</p> <ul style="list-style-type: none"> • Next steps to include: Child protection; Supervision; and request to convene a meeting. 		
9.4 Develop and launch refreshed recording standards setting out clear expectations about what good quality children’s records and reports look like and including ‘Language that Cares’ guidance used with and about children and young people is appropriate	Service Director (Improvement)	March 2023	<ul style="list-style-type: none"> • Review of recording standards policy, including Language that Cares – complete • Fit for purpose and not requiring a change or refresh • Instead, draft Practice Guidance has been prepared ready for SMT consultation and sign off - June 2023 		
9.5 Work collaboratively with other agencies across the safeguarding partnership to develop and publish a quarterly multi-agency data set to safeguard children and young people.	Herefordshire Safeguarding Children’s Partnership / Independent Scrutineer	April 2023	<ul style="list-style-type: none"> • Scoping and development of multi-agency data set in conjunction with Worcestershire SCP – complete • HSCP meeting to consult on proposal - April 2023 • HSCP meeting to agree a targeted data set - June 2023 • HSCP to confirm regular reporting 		

Expected Outcomes (how we will know)

Activity/Impact Key	Activity Not yet due to start Impact Activity incomplete/too early to measure impact	Activity Started and on track Impact Mostly positive and consistent impact which delivers improved outcomes for children and young people	Activity Started with some issues/delay Impact Some positive impact but this is variable and not yet consistent enough to improve outcomes for most children and young people	Activity Not on track and at risk Impact No/very limited impact on improving outcomes for children and young people	Activity Completed and now ‘business as usual’ Impact Achieved consistently good and better impact that delivers improved outcomes for children and young people
----------------------------	---	--	--	--	---

- The quality assurance and performance frameworks and the system that supports them are robust, reliable and routinely provide evidence and analysis to support and drive continuous improvement and assurance. (Performance data, quality assurance activity)
- The day to day management of operational practice and performance is supported by quantitative data, information and intelligence that is readily available and easy to access so practitioners and managers have a clear view and appreciation of what this shows and what it means for them and the children, young people and families they are supporting at an individual, team and service level. (quality assurance activity, feedback)
- The focus, findings and follow up to quality assurance activity provides a shared narrative based on qualitative evidence of what the service has done, how well it has done it and what is required to address recommendations and remedial action to improve outcomes for children and young people (Performance data, quality assurance activity)
- The partnership achieves and maintains a shared appreciation of quantitative and qualitative data, information and intelligence to fulfil its statutory functions to assess the effectiveness of help being provided to children and families, whether partners are fulfilling their obligations, assure the quality of joint practice and identify lessons, as well as monitoring and evaluating the effectiveness of training.

Expected Outcomes (how we will know)
<ul style="list-style-type: none"> SEND Strategy is shared publically and with all stakeholders; Strategy widely supported and used to shape/complement other areas of work supporting children and young people. (feedback) Data dashboard in place and all partners/service providers provide timely and accurate information; Each sector has a clear data matrix which defines the specific measures being used to evaluate individual success of the strategy Pathways identified on the Local Offer and can be easily found and understood by families and young people. (Feedback) Graduated approach co-produced and published Phase transfers are completed within statutory timescales ensuring that children / young people have an updated Education, Health and Care Plans for their next setting and parents are assured where their child / young person will be attending.(Performance data, quality assurance activity, feedback) There is an increase in the proportion of Education, Health and Care Plans published within statutory timescales. (Performance data)
