5.	QUESTIONS FROM MEMBERS OF THE PUBLIC	3 - 4

	Mr Declan Hill
Scrutiny Meeting:	10 January 2024
Question:	
concerning reduced inc departments in the Loca	7, Appendix E (Economy & Environment Directorate Delivery Plan 2024/25), particularly page 3 which anticipates a ome of £1.3 for Development Planning, which I assume to be the Development Management Team, one of the few al Authority which usually brings in a small surplus to Council coffers and does not appear to account for the rise in me into effect in December.
SMB ascertain via the currently occupied' inclures ources and staff at	n predicament that the Development Management Service has been under for much of the last five/six years, could the Cabinet Members for Planning and Finance whether the 'Proposed Saving' of 'Delete vacant permanent posts not udes that of Planning Officers? This is of considerable concern to an already overstretched department which lacks the best of times compared to adjoining Local Planning Authorities, seeing the ever considerable turnover of osts. Could a figure be provided as to current staffing levels by Area Team/Majors?
Response:	
in planning applications are set but government. introducing them has me that the savings related Authorities we have end	r 2023/24 is lower than forecast. However, due to wider economic circumstances there has been a national downturn , particularly for larger housing schemes. The forecast includes an allowance for the increased planning fees which It was anticipated that these increased fees would be introduced earlier in 2023/24. The national delays in eant they could only be brought in from December 2023 for the final 4 months of the financial year. We can confirm to 'Delete vacant permanent posts not currently occupied' does not include planning officers. Like all Local
moment. The current le	countered difficulties in recruiting, however we are actively recruiting three senior planning officer post at the evels of staffing in the Area and Major Teams is 17 FTEs.

Questioner:	Ms Reid, Hereford		
Scrutiny Meeting:	10 January 2024		
Question:			
	roposals recommended for 2024/25' includes the Children and Young People directorate saving £2.5 million. One ould be to reduce the number of Section 47 enquiries. The Children's Services Commissioner's report (12/23)		
Neighbours (158 proportionate an	uiries continue to be significantly higher than the England average (180 per 10,000 children) and that of our Statistical per 10,000 children). Additional management oversight is being undertaken to ensure S.47 enquiries are d this has resulted in a steady decrease in the number of Section 47 enquiries from a rate of 520 (per 10,000 ch 2023, to a rate of 260 in July 2023."		
In what ways will the nu so that they are proport	mber of S47 enquiries be reduced during 2024-25 to a rate similar or lower than the council's Statistical Neighbours onate?		
Response:			
suffering or is likely to s	Children Act 1989, the council has a duty to make enquiries if there is a reasonable cause to suspect that a child is uffer significant harm. Significant care needs to be taken to consider the number of section 47 enquiries as a potential set targets in respect of this.		
It is recognised however that the higher rate of section 47 enquiries indicates a cautious approach and we are continuing to safely and robustly manage this process alongside our partners. This has resulted in a safe and steady reduction of the number of section 47 enquiries undertaken. The council and its partners are increasingly able to provide appropriate challenge where there appears to be a risk averse approach.
