Between February and June 2023 the CQC conducted a well led inspection. Four core services were inspected (adult mental health inpatient wards, adult mental health place of safety and crisis service, adult mental health community services and physical health community services) as well as a well led inspection.

Using the framework of the 5 key questions:

- Are we safe?
- Are we effective?
- Are we caring?
- Are we responsive?
- Are we well led?

Initial end of week feedback for each core service was received, feedback was given following the well led inspection which led to the development of the improvement plan.
