Title	Programme Change to Fastershire Delivery
Purpose of decision	The Fastershire Broadband Strategy 2019-22 is in implementation through contracts to network suppliers and bespoke community and business programmes. Through that implementation there has been a number of factors nationally, within the broadband industry and through the delivery methods that are influencing a change of approach. Therefore the purpose of the report is to agree required changes in the programme combined with taking advantage of new opportunities. This is particularly relevant as the programme needs to address coverage to high cost premises along with the Government's commitment to reaching 85% of premises with gigabit capability by 2025 and ensuring rural areas are not left behind.
