Be responsible for the provision of appropriate resources and financial accountability of the project, given the risk to which the unsuccessful delivery of the Public Service Trust would represent for both organisations in financial and representational terms.

Be responsible for monitoring progress, ensuring that the individual work streams are managed as a whole to achieve the best possible results for the people and communities of Herefordshire.

Receive regular reports and updates from the Chairs of the Working Groups.

The Steering Group shall maintain an effective system of integrated governance, internal control and risk management, across the whole of its activities (both non-clinical and clinical), in support of the achievement of its aims and objectives.

- All risks and controls related to the proposal to establish a Public Service Trust including any external opinion or other appropriate independent assurances, prior to formal recommendation for endorsement by the Primary Care Trust Board and Council.
- The underlying assurance processes that indicate the degree of the achievement of corporate objectives and the effectiveness of the management of principal risks.
- The policies for ensuring that there is compliance with relevant regulatory, legal and code of conduct requirements.

In carrying out this work the Steering Group will primarily utilise its existing resources and if necessary the work of Internal Audit, External Audit and other assurance functions, but will not be limited to these audit functions. It will also seek reports and assurances from directors and managers as appropriate, concentrating on the overarching systems of integrated governance, risk management and internal control, together with indicators of their effectiveness.
