Introduction

Members visited this site on 23rd October, 2007.

1. Site Description and Proposal

- 1.1 The site is a grassed area between Martins Close and St George's Church, a Grade II* Listed building. An iron railing fence bounds the site on its south side, a rubble stone wall runs along the boundary with the church and wooden panel fencing and hedges form the boundaries with Martin Close.
- 1.2 The site is located in the Woolhope Conservation and the Wye Valley Area of Outstanding Natural Beauty.
- 1.3 This application proposes a row of 3 dwellings that comprise 2, 2-bedroomed dwellings and 1, 3-bedroomed dwellings that will be available for rent.

4. Consultation Summary

Statutory Consultations

- 4.1 No statutory or non-statutory consultations required.

Internal Council Advice

- 4.2 The Traffic Manager - No reply received. Previously had no in principle objection.
- 4.3 The Conservation Manager - Support.

5. Representations

- 5.1 The applicant has submitted a Design and Access Statement:

- The dwellings will comply with the Housing Corporation Design Standards, Life Time Homes and Eco Homes Standards as well as Building Regulations and Secure by Design;
- The dwellings will be designed to a higher standard level of insulation to minimise energy costs and are orientated due south to maximise solar design during winter months;
- Extensive shading will protect the dwellings from excessive heat during the summer months;
- The dwellings will be constructed using a local timber supplier and the cladding will utilise locally sourced oak cladding as well as brick and render at lower levels;
- The dwellings have been positioned to minimise obstruction and overlooking to neighbours;
- Whilst being contemporary in appearance the dwellings reflect local characteristics and materials;
- The site is close to the village centre and is adjacent to the church;
- The site relatively flat and it is not envisaged there will be any change in levels requiring steps or ramps; and
- The surfacing of the car park and approaches to the dwellings will be wheelchair accessible.

- 5.2 Woolhope Parish Council unanimously oppose this application.

- "1. Access - insufficient width for access in view of existing lane to the church and there is a lack of visibility to motorists leaving the proposed development particularly on the left hand turn into the village. The road narrows here.
2. The quantity of proposed dwellings on the size of the plot will cause overlooking to neighbouring properties.

3. The application is within a conservation area and area of great landscape value and the style of the proposed dwellings are not in keeping with neighbouring properties especially in view of the close proximity to the church which is a listed building
4. The proposed dwellings do not meet the needs of parishioners because they may not come under a 106 Agreement

If permission is granted the Parish Council would like:

1. A section 106 on the properties to enable the local housing needs to be met
2. Adequate double glazing because of the close proximity to the church and there is a very enthusiastic bell ringing team
3. Windows, which blend in with neighbouring properties
4. Deliveries should be made before 8.30 to allow the school bus to pass through as the road to the village narrows
5. Colour of brick and roof tiles chosen to match the neighbouring old properties
6. The eco friendly features mentioned in the design statement to be adhered to."

5.3 6 letters of objections have been received:

- Scale and density of the development is not appropriate for this sensitive site in the Woolhope conservation area.
- It will be detrimental to the setting of the adjoining church, a Listed building.
- Unsuitable access.
- Adverse impact on adjoining dwellings.
- The style and type of houses are not appropriate.
- It will be an overdevelopment of the site.
- Our garden will be overlooked.
- Loss of trees.

The full text of these letters can be inspected at Southern Planning Services, Garrick House, Widemarsh Street, Hereford, and prior to the Sub-Committee meeting.

6. Officer's Appraisal

6.1 This application has been submitted following the refusal of DCSE2006/3612/F which, was refused for the following reason:

"In the opinion of the local planning authority the design, materials and fenestration of the proposed dwellings would be out of keeping with and cause harm to the character of this part of the Woolhope Conservation Area so as not to preserve or enhance its appearance. Accordingly, the proposal conflicts with policy HBA6 of the Herefordshire Unitary Development Plan 2007."

6.2 Principally this application is as the previous proposal. The appearance of the dwellings have been altered substituting brick and render for the previously proposed oak cladding. In addition, a simpler window pattern and chimneys are proposed. It is

considered these alterations solve the reason for refusal of the previous application. The dwellings are of a rural vernacular considered appropriate for this site.

- 6.3 The site is located in the smaller settlement of Woolhope. Housing development in smaller settlements is allowed but controlled by policy H6. The policy sets a criterion for consideration that allows development; house size, infill frontage and affordable housing on infill sites with frontages larger than 30metres and site over 350square metres where there is a proven housing need.
- 6.4 In terms of need, the Council's Strategic Housing Service undertook a housing needs study in Woolhope as part of the on-going surveys across the County. Residents were consulted as part of the Woolhope Parish Plan process early 2006. The result of this survey shows there is an affordable housing need for 8 dwellings. This application for 3 rented dwellings will fulfil part of that need. Detailed advice on affordable housing is given in policies H9 and H10. It will be necessary for a Section 106 Agreement to be completed and the proposed Heads of Terms are attached as an appendix.
- 6.5 The site is also located in the Woolhope Conservation Area and the Wye Valley Area of Outstanding Natural Beauty. Within conservation areas it is a statutory requirement for development either to preserve or enhance the characteristics of the area. In this matter the Conservation Manager comments the site is relatively secluded and the scheme will be most visible from the churchyard to the east. However, there is an appropriate degree of visual separation between the east elevation and St George's church so this proximity is not considered problematic as another recent development south of Martins Close has established a precedent. This revised application is somewhat more conservative than the previous scheme but its sustainability credentials remain central to its design and functional elements such as solar shading, which were seen, as "non-traditional" must be understood in this context. The design utilises prevailing local materials such as brick, plain tiles and render to establish continuity but its restrained modern aesthetic is nevertheless appropriate in its context. Accordingly, it is not considered the proposal will cause harm to the historic environment.
- 6.6 The submitted plan shows that the rear wall of the proposed dwellings to the gable flank wall of the neighbour to be a distance of 12metres. This is considered to be an acceptable minimum distance given that there are no living room windows in the gable elevation of the neighbouring dwellings so as to compromise outlook and to avoid the development being visually intimidating.
- 6.7 Access to the site is off an unsurfaced track, which also provides access to the church car park and Martins Close. The Traffic Manager has advised the means of access is substandard and its junction onto the C1297 is restricted. However, given the existing usage of the access it is not considered the proposal will cause significant disruption to the users of the highway.

RECOMMENDATION

- That 1. The Legal Practice Manager be authorised to complete a planning obligation agreement under Section 106 of the Town and Country Planning Act 1990 to ensure:**
