Quantification and Classification of Internal Control Levels

Control Level	Definition
Good	A few minor recommendations (if any).
Satisfactory	Minimal risk; a few areas identified where changes would be beneficial.
Marginal	A number of areas have been identified for improvement.
Unsatisfactory	Unacceptable risks identified, changes should be made.
Unsound	Major risks identified; fundamental improvements are required.

The Audit Opinion is based on a number of factors including the number of Level 1 and, to a lesser extent, Level 2 recommendations. Weighting is given to different aspects of the Audit e.g. a high weighting for budgetary control. It is expected that larger systems and establishments will receive higher numbers of recommendations and allowance is made for this.
