

## **ANNUAL DEVELOPMENT REVIEW**

**Report by: Head of Planning Services**

### **Wards Affected**

County-wide

### **Purpose**

- 1 To facilitate the Annual Development Review of planning application sites.

### **Financial Implications**

2. None.

### **Background**

- 3 A review developments which have recently been completed is desirable as part of the process of monitoring quality in development control decision making. This used to take the form of an annual visit (with the working title "Development Review") by Members of a selection of unusual, controversial or otherwise interesting sites. It should be seen as part of the monitoring of quality in development control decision making.
- 4 A provisional date has been set for 30 June 2008 and the tour will start at 9.30am at Brockington with the return planned for around 4.30 pm. A coach will be provided.
5. The sites to be visited need to be known beforehand to arrange access where necessary. Officers will provide a list of appropriate sites, but Members may also wish to suggest sites which they consider to be important to demonstrate particular points in the management of development in the County. The final list of sites will be agreed with the Chairman and the Vice Chairman and circulated to all Members before the visits.

### **RECOMMENDATION**

#### **THAT:**

**The date of the Annual Development Review be agreed.**
