

## **2. Question from Mr Adrian Spong, Moreton on Lugg.**

2.1 *With reference to Planning Applications do Councillors attribute any importance to the views of neighbours and Parish Councils in the consultation process?*

2.2 *Do Councillors agree, in these times of food shortages/rising prices, that it is unacceptable, and sends the wrong signal, to develop prime agricultural land for use as a waste facility?*

2.3 *Herefordshire promotes and benefits hugely from tourism. A busy campsite, whose visitors benefit the local and Herefordshire economy to some £250,000 per year, is threatened by the proposal to situate a composting plant just 700 meters away. The Environmental Agency states that ALL composting sites produce odour problems.*

2.3.1 *Do Councillors agree that it is unacceptable to threaten the fragile rural economy?*

2.3.2 *Do Councillors agree that tourists would be deterred by this close proximity to a waste site?*
