### 1. Site Description and Proposal

- 1.1 The Singing Stud occupies about 8ha of land between the A449 and the unclassified road that leads from Lyne Down and Old Pike to the north of Bodenham Farm. There is access off the unclassified road to the stud farm. On the south side of the access track that leads from the unclassified road is a riding arena and stables and to the south of these are 2 shelters, which this application proposes to retain and re-clad with, waney edged boards that will be stained dark brown to match other building in the stud farm complex. The shelters are adjacent to a small copse.

#### 4. Consultation Summary

##### Statutory Consultations

- 4.1 No statutory or non-statutory consultations required.

##### Internal Council Advice

- 4.2 The Traffic Manager has no objections to the grant of planning permission.
- 4.3 Public Rights of Way Officer - "The proposed retention of 2 field shelters would not appear to affect the use and enjoyment of public footpath MM11, which passes outside the field's north boundary some 90+ metres from the shelters, and the PROW Manager has no objections to this application."

#### 5. Representations

- 5.1 A Design and Access Statement has been submitted:

##### Existing site:

- The existing site and buildings occupy a location, which is sited so that it is not visible from outside the stud farm apart from a glimpse from the A449;
- The buildings are located against a backdrop of trees and are not silhouetted in the landscape;

##### Proposed use:

- The shelters are an essential part of the stud and they provide protection from the elements for the animals;
- The location means that the structures can serve a number of the paddocks and are central to the fields they serve;

- They are also within easy reach of the stabling and are further protected from the elements by the small coppice against which they are positioned;
- The shelters are an essential element for any equine stud and primarily for the well being of the animals;

Design and appearance:

- The size and shape of the structures are dictated by their function;
- The original finish will be improved by the cladding and capping which is easily applied;
- The colour will be a dark brown stain to match other buildings in the main complex and will blend in with the coppice background;

Landscape:

- The buildings are set into the field and no landscaping is proposed;

Access:

- This is only required by the animals from different paddocks;
- The gates are opened and closed as required.

5.2 Much Marcle Parish Council no reply received at time of report

5.3 Objections have been received from N Pope, Avenue Cottage, Much Marcle and Mr B Morgan, Bodenham Farm, Much Marcle:

- These are substandard buildings, of poor design and construction on a beautiful bank adjoining a parkland of national significance - they are an eyesore which new cladding will not disguise;
- These buildings have been erected without planning permission and enforcement action should be taken to remove them immediately;
- The continual expansion of this site with ever more buildings should be halted until a clear understanding of the financial viability of all the companies trading at the site has been carried out;
- An audit of the existing space available to the businesses and numbers of horses involved at this site and their Hillingdon Barn site should be carried out to ascertain why these buildings are required;
- The buildings are visible from our property, as well as the A449. The buildings are very much "silhouetted in the landscape" as seen from the A449 particularly during the winter months;
- The shelters cannot be an "essential part of the stud" as the last application asked for "the retention, for a temporary period of two years", only;
- The alterations described are minimal, and the buildings are already stained dark brown. The alterations will not affect the block house appearance of them on the skyline as viewed from the A449; and
- Having lived with these "obtrusive features" in an "attractive rural area" for over four years I ask they are refused again and the buildings removed forthwith.

## 6. Officer's Appraisal

6.1 Planning permission for continuation of use as a stud farm was granted in 2005, DCSE2005/0795/F refers. It was apparent that some of the buildings had not been granted planning permission and further structures were erected including these two

field shelters which are within the southern section of the stud farm and immediately to the north of a copse which partially divides this area of grazing. They are about 50 metres west of the A449, on elevated land. They can be glimpsed when travelling the A449. The unauthorised shelters are clad in plywood sheets (or similar sheet material) painted brown with a shallow mono-pitch roof. This application proposes to clad the shelters with waney edged boards to give the appearance of other stables in the locality.

6.2 This application has been submitted following the refusal of DCSE2006/1486/F when it was proposed to retain the buildings without improvement to their appearance. The application was refused for the following reason:

“The field shelters because of their appearance and open position would be obtrusive features in the landscape. Their retention would therefore be detrimental to the character of this attractive rural area and conflict with policy LA2 of the Herefordshire Unitary Development Plan 2007.”

6.3 Whilst it is acknowledged that the existing shelters are not attractive and do not form part of the two existing groups of stables (nearest is about 60m to the north) it is considered that the cladding of the buildings with waney edged boards that will be stained a colour to match other buildings at the stud farm, will blend the shelters into the landscape so as not to be detrimental and obtrusive features in the landscape. Also, it is considered the copse against which the shelters are seen help to assimilate the buildings into the landscape and accordingly on the key planning issue, the landscape impact, the application is recommended for approval.

**RECOMMENDATION**

**That planning permission be granted subject to the following conditions:**

- 1. **Within 3 months of the date of this permission the field shelters shall be clad in waney edged boards and stained a dark brown colour and thereafter maintained.**

**Reason: In the interests of visual amenity and to ensure the shelters comply with Policy LA2 of the Herefordshire Unitary Development Plan.**

**Informatives:**

- 1. **N19 - Avoidance of doubt - Approved Plans**
- 2. **N15 - Reason(s) for the Grant of Planning Permission**
