

### HEREFORDSHIRE COUNCIL

#### TREASURY MANAGEMENT INVESTMENT STRATEGY 2004/05

##### 1. INTRODUCTION

- 1.1 Under CIPFA's Treasury Management Code of Practice, the Council is required to formulate a strategy each year regarding its investments. From 2004/05 onwards, the requirements of the Treasury Management Code have been supplemented by guidance from the Office of the Deputy Prime Minister (ODPM), designed to replace the terms of the Approved Investment Regulation 1990, which cease to have effect from 1st April 2004. Authorities are required to take the guidance into account under the terms of section 15(1)(a) of the Local Government Act 2003.
- 1.2 Owing to the late issue of the OPDM guidance in March 2004, this 2004/05 Investment Strategy has been prepared separately for approval from the Treasury Management Strategy. In future, the Investment Strategy will form part of the annual Treasury Management Strategy passed to Cabinet for endorsement before the start of each financial year.
- 1.3 This Annual Investment Strategy states which investments the Council may use for the prudent management of its treasury balances during the financial year under the headings of **Specified Investments** and **Non-Specified Investments** as detailed in **Annex A**.
- 1.4 This Annex sets out:
- The procedures for determining the use of each category of investment (advantages and associated risk), particularly if the investment falls under the category of "non-specified investments."
  - The maximum periods for which funds may be prudently committed in each category.
  - Whether the investment instrument is to be used by the Council's in-house officers and/or by the Council's appointed external fund managers (Investec Asset Management); and, if non-specified investments are to be used in-house, whether prior professional advice is to be sought from the Council's treasury advisors (Sector Treasury Services Ltd).

##### 2. INVESTMENT OBJECTIVES

- 2.1 All investments will be in sterling. The general policy objective for Herefordshire Council is the prudent investment of its treasury balances\*. The Council's investment priorities are:
- (a) the **security** of capital; and
  - (b) **liquidity** of its investments.

The Council will aim to achieve the optimum return on its investments commensurate with the proper levels of security and liquidity.

\* This includes monies borrowed for the purpose of expenditure in the reasonably near future (i.e. borrowed 12-18 months in advance of need).

- 2.2 The ODPM guidance maintains that the borrowing of monies purely to invest or on-lend and make a return is unlawful and the Council will not engage in such activity.

### **3. SECURITY OF CAPITAL: THE USE OF CREDIT RATINGS**

- 3.1 The Council relies on credit ratings published by *Fitch Ratings*, *Moody's Investors Service* or *Standard & Poor's* to establish the credit quality of counterparties and investment schemes. The Council has also determined the minimum long-term, short-term and other credit ratings it deems to be "high" for each category of investment in conjunction with its Treasury Management advisor.

#### **3.2 Monitoring of credit ratings:**

- All credit ratings will be monitored monthly: The Council has access to Fitch credit ratings and is alerted to changes from its Treasury Management advisor.
- If a counterparty's or investment scheme's rating is downgraded with the result that it no longer meets the Council's minimum criteria, the further use of that counterparty/investment scheme as a new investment will be withdrawn immediately. Any intra-month credit rating downgrade which the Council has identified that affects the Council's pre-set criteria will also be similarly dealt with. The Council will also immediately inform its external fund manager of the withdrawal of the same.
- If a counterparty is upgraded so that it fulfils the Council's criteria, its inclusion will be considered for approval by the County Treasurer.

### **4. INVESTMENTS DEFINED AS CAPITAL EXPENDITURE**

- 4.1 The acquisition of share capital or loan capital in any body corporate is defined as capital expenditure under Section 16(2) of the Local Government Act 2003. Such investments will have to be funded out of capital or revenue resources and will be classified as 'non-specified investments'.
- 4.2 Investments in "money market funds" which are collective investment schemes and bonds issues by "multilateral development banks" (both defined in Statutory Instrument Number 534), will not be treated as capital expenditure.
- 4.3 A loan or grant by this Council to another body for capital expenditure by that body is also deemed by regulation to be capital expenditure by this Council. It is, therefore, important for this Council to clearly identify if the loan has made for policy reasons (e.g. to the registered social landlord for the construction/improvement of dwellings) or if it is an investment for treasury management purposes. The latter will be governed by the framework set by the Council for 'specified' and 'non-specified' investments.
- 4.4 This Council will not use or allow its external fund managers to use any investment which will be deemed as capital expenditure.

## **PROVISION FOR CREDIT-RELATED LOSSES**

- 4.5 If any of the Council's investments appeared at risk of loss owing to default (i.e. this a credit-related loss, and not one resulting from a fall in price due to movements in interest rates), the Council will make revenue provision of an appropriate amount.

## **5. INVESTMENT STRATEGY**

- 5.1 The County Treasurer manages part of the Council's investment portfolio. Investments managed by the in-house team are generally temporary in nature and short-term. All decisions are made in the light of the Council's forecast cash flow requirements.
- 5.2 If, during the course of the year, the County Treasurer detects that the market's expectation for base rates has been too high, the strategy will be to keep investments as long as possible with a view to locking in higher rates of return than may be available at a later stage when market expectations are corrected.
- 5.3 The money market yield curve is currently anticipating rising base rates in 2004/05. This authority views the markets' expectation for base rates as being too low; investment maturities will generally be kept short (1-3 months), with a view to enabling returns to be compounded more frequently.
- 5.4 Investment returns are forecast to be less than the cost of new borrowing during most of the year. It may, therefore, be beneficial to finance new capital expenditure by running down cash balances.
- 5.5 Based on its cash flow forecasts, the Council anticipates its fund balances in 2004/05 to average around £15,000,000.
- 5.6 Giving due consideration to the Council's level of balances over the next three years, the need for liquidity, its spending commitments and provisioning for contingencies, the Council has determined that a maximum of £10,000,000 of its overall fund balances can be prudently committed to longer term investments (i.e. those with a maturity exceeding a year).
- 5.7 In relation to the Council's internally managed funds, the County Treasurer does not currently plan to invest over 364 days. However, the Council's External fund manager could have a maximum 50% of its investment portfolio invested for periods in excess of 364 days. The market will be continuously monitored for opportunities to lock in to higher, longer-term rates, if it is viewed that this will add stability and value to returns.
- 5.8 With investment returns at historically low levels, there is limited scope to generate higher returns. However, the County Treasurer continuously seeks to add value over general market levels of returns. To this end, Call Accounts and Money Market Funds are some of the recent investment opportunities which have added value to the internally managed funds. Internally managed investments have generally exceeded the benchmark return.

## **6. EXTERNALLY MANAGED FUNDS**

- 6.1 A cash fund of £6,822,721.42 (as at 31st March 2004) is currently managed by Investec Asset Management on a discretionary basis. The Council, in conjunction with the Council's Treasury Management adviser, will monitor the external fund manager's performance in 2004/05.
- 6.2 The fund management agreement between the Council and Investec Asset Management formally documents the instruments it can use within pre-agreed limits.

## **7. COMPLIANCE WITH INVESTMENT STRATEGY**

- 7.1 All internally managed investments must be carried out in accordance with this Investment Strategy.
- 7.2 The contract with the External Fund Managers will be amended to ensure that the investments managed by them comply with the Council's Annual Investment Strategy.

## **8. END OF YEAR INVESTMENT REPORT**

- 8.1 At the end of the financial year, the Council will prepare a report on its investment activity as part of its Annual Treasury Report.
