

MEETING:	Council
MEETING DATE:	26 September 2014
TITLE OF REPORT:	Review Of Polling Places, Polling Districts And Polling Stations
REPORT BY:	Returning Officer

Classification

Open

Key Decision

This is not an executive decision.

Wards Affected

Countywide

Purpose

To approve a new scheme of polling places, polling districts and polling stations.

Recommendation

THAT: the polling districts, polling places and polling stations scheme as set out in Appendix B to the report be adopted.

Alternative Options

- 1 Council can, if it wishes approve alternative options for polling places, polling districts and polling stations, but in doing so it would need to comply with statutory guidance and would also need to be supported by demonstrable evidence

Reasons for Recommendations

- 2 The council is required to conduct a review of polling places, polling districts and polling stations following a review by the Local Government Boundary Commission for England. The recommendations are the result of this review

Key Considerations

3. The Representation of the People Act 1983 makes every relevant local authority in the UK responsible for dividing its area into polling districts for UK parliamentary elections and for keeping the polling districts under review. Following the introduction of new warding arrangements in Herefordshire, it has now become necessary to undertake such a review.

Conduct of the Review

4. Schedule A1 to the Representation of the People Act 1983 sets out the steps the council must follow in undertaking any review. The review took place between 3 February 2014 and 25 April 2014. Details of those consulted are attached as appendix A to this report. The council was required to seek representations from such persons it thought had particular expertise in relation to:
 - Access to premises or
 - Facilities for persons who have different forms of disability.
5. Such persons must have been given the opportunity to make representations and to comment on the proposals being put forward. Disability awareness groups were therefore, invited to take part in this review. In addition, any elector could make proposals to the council.

The Role of the Returning officer

6. The council was required to consult the acting returning officer for the Parliamentary constituencies within the area, who was required to make representations to the council, which must include information as to the location of polling stations (both existing and proposed) within polling places (both existing and proposed). Within 30 calendar days of their receipt the council was required to publish these representations.

Guidelines

7. The following statutory considerations have been taken into account when drawing up the proposals:
 - The council must seek to ensure that all electors have such reasonable facilities for voting as are practicable in the circumstances.
 - The council must seek to ensure that so far as reasonable and practicable every polling place is accessible to electors who are disabled.
 - Every parish shall be a separate polling district.
 - Ideally the polling place should be in its own polling district.

Timetable for the review

Notice of start of review:	29 January 2014
Publication of returning officer's proposals:	3 February 2014
End of consultation period:	25 April 2014
Proposals are to be implemented as from:	7 May 2015

Completion of the review

8. On completion of the review the council is required to give reasons for its decisions in respect of the designation of both polling districts and polling places and must publish:
- All correspondence sent to the returning officer in connection with the review and all correspondence sent to any person whom the authority thinks has particular expertise in relation to access to premises or facilities for persons who have different forms of disability.
 - All representations made by any person in connection with the review.
 - The minutes of any meetings held by the authority where details of the review have been considered.
 - Details of the actual designations of polling districts and polling places agreed as a result of the review.
 - Details of where the results of the review have been published.

Revised Polling Districts and Polling Places

9. The table set out at Appendix B provides full details of the designated polling districts and polling places for each new ward of the council following the publication of The Herefordshire (Electoral Changes) Order 2014. In all cases, accessibility issues were considered and informed by reports from inspections of existing buildings and proposed buildings.
10. As the number of wards has increased from 40 to 53 single member wards, all polling districts have had to be allocated new polling district codes. Where the only change to polling district is the allocation of a new polling district code, these polling districts have not been included in the table below.
11. The following changes are proposed:

Community Impact

12. Legislation stipulates that ideally there should be no more than 2,500 electors to each polling place.
13. The council is also required by law to ensure that all electors have access to such reasonable facilities for voting as practicable in the circumstances. The review has aimed to ensure that this requirement has been complied with as far as possible.
14. The proposals have been mindful of further development in the county as identified in the Local Plan – Core Strategy.

Equality and Human Rights

15. It is a statutory requirement that as far as it is reasonable and practicable every polling place is accessible to electors who are disabled. This review has taken this requirement into account. However, due to the ages of some of the buildings used and their location, disabled access is not always as effective as the council would normally require and therefore special measures have had to be put in place when the building is used as a polling place, an example of which is the provision of wheel chairs and mobile ramps.

Financial Implications

16. There are no direct financial implications arising from the review. The costs of hiring and equipping venues for voting are met from within existing budget provision. Costs incurred in relation to European, General, Parish or Police and Crime Commissioner elections are recouped from the relevant funding body; where elections are running concurrently the costs are apportioned as appropriate.

Legal Implications

17. As set out in the body of this report.

Risk Management

18. Failure to agree a polling scheme would mean that the council would be in breach of its statutory duty and electors would be disadvantaged. The Electoral Commission could intervene and direct the council to alter any polling arrangements that arise from the review and the commission could make these alterations itself if the council failed to respond.

			car park		
Ledbury West	Ledbury (West) LEW01N	Strongly agree with polling district and polling station	The Primary School appears to be the most appropriate for this new ward.	Online response	<i>Not completed</i>
Ledbury West	Ledbury West LEW01N LEW02 LEW03N	Strongly disagree to all polling districts and polling stations	The Ledbury Primary School campus is not an appropriate venue for a polling station due to the likelihood of need for closure, lack of parking provision and children safeguarding issues. Suggest the use of a mobile polling station which could possibly be situated in a large business car park, such as Homebase, or other suitable space within the polling district. The Town Council would like to re-iterate its previous comments: Historically the allocation and operation of polling		Organisation Ledbury Town Council
