M Describe the steps you intend to take to promote the four licensing objectives:

a) General – all four licensing objectives (b, c, d and e) (please read guidance note 9)

All of the following conditions and responsibilities we volunteer in the paragraphs below are to ensure that we are doing our utmost to protect our staff, local residents and the general public in respect to all four licencing objectives. We believe that our regimented commitment to the promotion of the licencing objectives will eradicate any potential detriment our establishment could have within the community and will help us to safeguard local residents. We believe our restaurant's ethos will contribute to growth in the community in a culinary, culturally and economically beneficial way.

We take special notice of the fact that the establishment is at the edge of the Cumulative Impact Zone though we do not believe that we will negatively impact on the community in any way because of our focus on primarily being a restaurant and café and because of the premium nature of the business model and the demographic that will attract. Please note that although the premises is within this zone, it is not within the major trouble hotspot and sits very close to the edge of this zone.

We wish to have flexibility with operational timings as this is in keeping with intention of the 2003 licensing act which places more responsibility on the licensee. This flexibility will allow us to maximise our business's potential. We acknowledge that that any causes for concern would be met with a Licensing Review whose guidance and advice we would welcome to ensure we are doing everything possible to promote the four licensing objectives.

We are committed to being totally transparent to assist local authorities in any way we can and to ensure that we have a positive effect in our community. We will liaise freely with these authorities and will provide any documentation or footage to help their aims.

We have thoroughly studied the Model Pool of Conditions and will adhere to all of the mandatory conditions listed there in. We will also adopt many other procedures and voluntary conditions to ensure the promotion of the licensing objectives. We also welcome any additional advice these authorities may give.

I wish to highlight the wider positive impact a business of this nature will have within Hereford. I am excited by the opportunity we have to positively contribute to the local community, both economically, aesthetically and socially. We are pleased to be able to offer a number of new job opportunities and will provide extra training courses for staff. I am confident that the establishment created will be innovative and creative and will therefore actively bring more tourists into the area. I wish to actively involve myself and my business in Community Projects and be part of a larger regeneration of High Town. We wish to promote culture

in Herefordshire and would be happy to support theatre groups and other charitable groups with use of our space.

We intend on boosting local economy through use of local produce and stocking of local micro-brewery/distillery products. We will be an establishment that represents quality, not quantity and will therefore naturally as well as actively discourage excessive drinking.

We support the use of ethically produced meats and wish to increase awareness of its importance in our community, therefore helping to support local ethical farmers. We intend on being a flagship operation for responsibility in the community.

I would encourage you to consider this application in the context of its positive contribution to the community and to please avoid thoughts of unsubstantiated fears or speculations based on its location on the edge of the Cumulative impact zone as the main function of the premises is as a fine dining restaurant.

The 2003 act puts more responsibility in the hands of the Licensee's and we are pleased that this act gives us the opportunity to show how a licensed premises can effectively promote the licensing objectives even with increased flexibility. We believe the flexibility of the licensing hours listed will give the business the best possibly chance of flourishing. Used responsibly and managed effectively, these hours do not have to compromise our promotion of the licensing objectives.

The location of the premises within the Cumulative Impact Zone is an important consideration for us and below I have outlined what I believe are all the necessary policies, actions and equipment we need to effectively promote the licensing objectives within this area of high town.
