

M RIVETT + N. HATTON

Jacobs Court.

On Saturday 24<sup>th</sup> October 2015, the noise coming from Yates <sup>into my</sup> flat was louder than it had been before.

There are doors from <sup>the</sup> dance floor into back garden, there are 3, and the noise comes from here I think. So if any of these doors are opened it causes a problem. This started at about 11.30, or 12.30 ~~we left the flat at 12.30, it would end~~ and ~~have~~ continued until Yates stopped playing music, around 2.

You do get used to it after about 20 minutes, but it is disturbing and a nuisance. We work shifts <sup>am</sup> 6-4<sup>pm</sup>, <sup>pm</sup> 2-10<sup>pm</sup>, <sup>am</sup> 6.30-9.30<sup>pm</sup>, so am awake at nights, we have to turn the tv up to mask the music from the floor or outside, its stops us from sleeping.

We did not write this letter as we  
only signed it with the set of minutes  
from meeting didn't realise what we  
signed
