Record of operational decision

Decision title:	Appointment of a provider to undertake a Community Wellbeing Survey
bedision title.	for Herefordshire to provide baseline data for Talk Community and monitor
	change over time
Date of decision:	19 th November 2020
Decision maker:	Director for Adults and Communities
Authority for	The strategic approach for Talk Community was confirmed by Cabinet in
delegated	September 2020 and operational decisions were delegated to the Director
decision:	of Adults and Communities in relation to implementation of the agreed
	approach.
	The Director also has the necessary authority within the financial
	procedure rules. The council's contract procedure rules, which form part of
	the council's constitution, state that a minimum 3 competitive quotes
	should be sought from appropriately qualified and competent suppliers for
	contracts valued between £5,001 to £75,000.
Ward:	Countywide
Consultation:	Adults and Communities Directorate Leadership Team, Adults and
Consultation:	Adults and Communities Directorate Leadership Team, Adults and Communities Commissioning Board, Cabinet Member briefing.
	Communities Commissioning Board, Cabinet Member Briefing.
Decision made:	To appoint DJS Research Ltd to undertake a representative community
	wellbeing survey across Herefordshire by the end of June 2021 for those
	aged 18 and over with the option for the council to instruct the provider to
	undertake a second impact survey in 2023, to monitor change.
	The cost of the first survey will be £29,450 and the second survey cost will
	be £19,900.
	JC 113,300.
Reasons for decision:	Talk Community has been developed over the last two years in
	Herefordshire as an innovative approach to strengthen independence and
	wellbeing of our residents, focused in local communities.
	The strategic approach was approved at the Cabinet meeting on 24
	September 2020 and operational decisions were delegated to the Director
	of Adults and Communities in relation to implementation of the agreed
	approach.
	This survey is to assess the community wellbeing of the residents of
	Herefordshire linked to the development and achievement of the County
	Plan, assess the impact of the 2020 flooding and covid-19 pandemic and to
	act as baseline data for the roll out of the Talk Community approach.
	This contract will include:
	Development of a set of questions utilising best practice and
	standard questions where relevant
	Identifying and ensuring the representative sample
	Distributing the survey
	Inputting the data
	Analysis of data including sub categories

	 Proposing key indicators and outcomes for impact
	measurement
	Report of results
	Presentation of results
	In addition to the initial survey, a second exercise will be required during
	2023 to measure the impact of the Talk Community approach and
	contribution to the wellbeing elements of the wider County Plan.
	As the contract value is below 75k, quotes were requested through the
	tender portal (Supplying the South West). Five organisations were asked to
	quote and three supplied a compliant response which were assessed by a
	panel of council officers and partner organisations following the
	appropriate procurement processes.
1	A business case and options appraisal was undertaken prior to asking for
risks/finance/legal/	quotes for this work to ascertain the best approach.
equality	
considerations:	The specification outlined that suppliers needed to ensure that any
	communication needs would be met.
	No data will be supplied by the council to the provider to identify survey
	participants, this will be undertaken independently by the provider and all
	internal information governance procedures will be followed.
	Funding for the first survey will allocated from the Talk Community budget
	as outlined in the Cabinet paper mentioned above. Funding for the second
	survey will be provided by the public health grant.
Details of any	A range of options were considered, these included:
alternative options	Do nothing – there has been no such representative sample survey
considered and	in Herefordshire since 2012. Given the strategic direction of the
rejected:	council it was considered an appropriate approach in order to
rejected.	assess change and impact over time.
	Complete in house – it was identified that there was not sufficient
	capacity within the council to complete this exercise
Details of any	None
