Mr & Mrs Watts,

Further to your email of 4th September 2020 consulting BHS ref. the proposed diversion of Bridlepath 'Michaelchurch ME3', I confirm that BHS has engaged with local riders including the BHS Access Group for this area.

Herefordshire BHS has no objection to the proposed diversion on the condition that any gates along the diverted route are rider friendly (per BS5709 'Gaps Gates and Stiles) and that the new route will be clearly waymarked.

I have attached a copy of the BHS's guidance on Gates for your perusal.

If you have any queries please do not hesitate to contact myself or Wendy Bannerman, who is copied into this email.

Kind regards

From: Vowchurch Parish Clerk

Dear Mr & Mrs Watts

Thank you for meeting with Councillor May recently and explaining your diversion proposals.

This was discussed at the Parish Council meeting last week and was agreed that the Parish Council has no objections and would support your proposal to divert Bridleway ME3.

Kind regards

Linda

Mr & Mrs C J Evans

Dear Mr & Mrs Watts

Pre-Order Consultation – Bridleway Michaelchurch Esley ME3

Thank you for your letter dated 4th September 2020 about legally diverting bridleway Michaelchurch Esley ME3, as shown on your drawing. The delay in replying is regretted.

We have no objection to or comment on your proposal.

Michaelchurch Esley is a very long way outside our area of interest from a PROW protection consideration although we may very occasionally stray that far for a walk. Indeed we do not understand why you have presumably been advised to consult us. This is perhaps something you should mention to Herefordshire (or BBLP?).

Yours sincerely

W M Everitt
Rights of Way Secretary

Dear Mr & Mrs Watts,

With reference to the proposed diversion of bridleway ME3 around Llanbadon Farm, Michaelchurch Escley, Herefordshire Ramblers have no objection to this proposal.

Yours Sincerely. Philip Bauer for. Herefordshire Ramblers

Rob,

I am supportive of this change on the grounds that it is not sensible to have paths through the middle of farm yards given all the inherent dangers from moving equipment and livestock in such situations and with the additional biosecurity risks that are now well recognised.

Regards,

Peter

Cllr Jinman
