

Better Care Fund 2020-21 Year-end Template

1. Guidance

Overview

This template is for Health and Wellbeing Boards (HWBs) to provide end of year reporting on their Better Care Fund (BCF) plans. The template should be submitted to the BCF team by 24 May 2021. Since BCF plans were not collected in 2020-21, the end of year reporting will collect information and data on scheme level expenditure that would normally be collected during planning. This is to provide effective accountability for the funding, information and input for national partners and into national datasets.

Throughout the template, cells which are open for input have a yellow background and those that are pre-populated have a grey background, as below:

Data needs inputting in the cell

Pre-populated cells

Note on viewing the sheets optimally

For an optimal view each of the sheets and in particular the drop down lists clearly on screen, please change the zoom level to between 90% - 100%. Most drop downs are also available to view as lists within the relevant sheet or in the guidance sheet for readability if required.

The details of each sheet within the template are outlined below.

Checklist (all sheets)

1. On each sheet, there is a section that helps identify the data fields that have not been completed. All fields that appear as incomplete should be complete before sending to the BCF team.
2. The checker column will appear 'Red' and contain the word 'No' if the information has not been completed. Once completed the checker column will change to 'Green' and contain the word 'Yes'.
3. The 'sheet completed' cell will update when all 'checker' values for the sheet are 'Green' containing the word 'Yes'.
4. Once the checker column contains all cells marked 'Yes' the 'Incomplete Template' cell (below the title) will change to 'Complete'.
5. Please ensure that all boxes on the checklist tab are green before submission.

Cover

1. The cover sheet provides essential information on: the area for which the template is being completed; contacts; and sign off.
2. 'Question completion' tracks the number of questions that have been completed. When all the questions in each section of the template have been completed the cell will turn green. Only when all cells are green should the template be sent to **england.bettercarefundteam@nhs.net**
3. Please note that in line with fair processing of personal data we request email addresses for individuals completing the reporting template in order to communicate with and resolve any issues arising during the reporting cycle. We remove these addresses from the supplied templates when they are collated and delete them when they are no longer needed.

National Conditions

This section requires the Health & Wellbeing Board to confirm whether the four national conditions detailed in the Better Care Fund planning requirements for 2020-21 (link below) continue to be met through the year, at the time of the template's sign off.

<https://www.gov.uk/government/publications/better-care-fund-policy-statement-2020-to-2021/better-care-fund-policy-statement-2020-to-2021>

This sheet sets out the four conditions and requires the HWB to confirm 'Yes' or 'No' that these continue to be met. Should 'No' be selected, please provide an explanation as to why the condition was not met during the year and how this is being addressed. Please note that where a national condition is not being met, the HWB is expected to contact their Better Care Manager in the first instance.

The four national conditions are as below:

- National condition 1: Plans covering all mandatory funding contributions have been agreed by HWB areas and minimum contributions are pooled in a section 75 agreement (an agreement made under section 75 of the NHS Act 2006).
- National condition 2: The contribution to social care from the CCG via the BCF is agreed and meets or exceeds the minimum expectation.
- National condition 3: Spend on CCG commissioned out of hospital services meets or exceeds the minimum ringfence.
- National condition 4: The CCG and LA have confirmed compliance with these conditions to the HWB.

Income and Expenditure Actuals

The Better Care Fund 2020-21 pool constitutes mandatory funding sources and any voluntary additional pooling from LAs (Local Authorities) and CCGs. The mandatory funding sources are the Disabled Facilities Grant (DFG), the improved Better Care Fund (iBCF) grant, and the minimum CCG contribution.

Income section:

- Please confirm the total HWB level actual BCF pooled income for 2020-21. Please include income from additional CCG and LA contributions in 2020-21 in the yellow boxes provided.
- Please provide any comments that may be useful for local context for the reported actual income in 2020-21.

Expenditure section:

- Please enter the total HWB level actual BCF expenditure for 2020-21 in the yellow box provided.
- Please share any comments that may provide a useful local context to the reported actual expenditure in 2020-21.

Year End Feedback

This section provides an opportunity to feedback on delivering the BCF in 2020-21 through a set of survey questions which are, overall, consistent with those from previous years.

The purpose of this survey is to provide an opportunity for local areas to consider and give feedback on the impact of the BCF. Covid-19 had a significant impact on services and schemes delivered on the ground which may have changed the context. However, national BCF partners would value and appreciate local area feedback to understand views and reflections of the progress and challenges faced during 2020-21.

There is a total of 5 questions. These are set out below.

Delivery of the Better Care Fund

There are a total of 3 questions in this section. Each is set out as a statement, for which you are asked to select one of the following responses:

- Strongly Agree
- Agree
- Neither Agree Nor Disagree
- Disagree
- Strongly Disagree

The questions are:

1. The overall delivery of the BCF has improved joint working between health and social care in our locality
2. Our BCF schemes were implemented as planned in 2020-21
3. The delivery of our BCF plan in 2020-21 had a positive impact on the integration of health and social care in our locality

Part - Successes and Challenges

This part of the survey utilises the SCIE (Social Care Institute for Excellence) Integration Logic Model published on this link below to capture two key challenges and successes against the 'Enablers for integration' expressed in the Logic Model.

4. Outline two key successes observed toward driving the enablers for integration (expressed in SCIE's logic model) in 2020-21.
5. Outline two key challenges observed toward driving the enablers for integration (expressed in SCIE's logic model) in 2020-21?

As noted above, these are free text responses to be assigned to one of the following categories from the SCIE Integration Logic Model - Enablers summarised below. Please see link below for fuller details:

[SCIE - Integrated care Logic Model](#)

1. Local contextual factors (e.g. financial health, funding arrangements, demographics, urban vs rural factors)
2. Strong, system-wide governance and systems leadership
3. Integrated electronic records and sharing across the system with service users
4. Empowering users to have choice and control through an asset based approach, shared decision making and co-production
5. Integrated workforce: joint approach to training and upskilling of workforce
6. Good quality and sustainable provider market that can meet demand
7. Joined-up regulatory approach
8. Pooled or aligned resources
9. Joint commissioning of health and social care

Social care fees

This section collects data on average fees paid by the local authority for social care. This is similar to data collected in Q2 reporting in previous years.

The questions have been updated for 2020-21 to distinguish long term fee rates from temporary uplifts related to the additional costs and pressures on care providers resulting from the COVID-19 pandemic

Specific guidance on individual questions can be found on the relevant tab.

CCG-HWB Mapping

The final sheet provides details of the CCG - HWB mapping used to calculate contributions to Health and Wellbeing Board level.

Better Care Fund 2020-21 Year-end Template

2. Cover

Version 1.0

Please Note:

- The BCF end of year reports are categorised as 'Management Information' and data from them will be published in an aggregated form on the NHSE website. Narrative sections of the reports will not be published. However as with all information collected and stored by public bodies, all BCF information including any narrative is subject to Freedom of Information requests.
- At a local level it is for the HWB to decide what information it needs to publish as part of wider local government reporting and transparency requirements. Until BCF information is published, recipients of BCF reporting information (including recipients who access any information placed on the BCE) are prohibited from making this information available on any public domain or providing this information for the purposes of journalism or research without prior consent from the HWB (where it concerns a single HWB) or the BCF national partners for the aggregated information.
- All information, including that provided on local authority fee rates, will be supplied to BCF partners to inform policy development.
- This template is password protected to ensure data integrity and accurate aggregation of collected information. A resubmission may be required if this is breached.

Better Care Fund 2020-21 Year-end Template**3. National Conditions**

Selected Health and Wellbeing Board:

Herefordshire, County of

Confirmation of Nation Conditions

National Condition	Confirmation	If the answer is "No" please provide an explanation as to why the condition was not met in 2020-21:
1) A Plan has been agreed for the Health and Wellbeing Board area that includes all mandatory funding and this is included in a pooled fund governed under section 75 of the NHS Act 2006? (This should include engagement with district councils on use of Disabled Facilities Grant in two tier areas)	Yes	
2) Planned contribution to social care from the CCG minimum contribution is agreed in line with the BCF policy?	Yes	
3) Agreement to invest in NHS commissioned out of hospital services?	Yes	
4) The CCG and LA have confirmed compliance with these conditions to the HWB?	Yes

[^^ Link back up](#)

Scheme Type	Description
Assistive Technologies and Equipment	Using technology in care processes to supportive self-management, maintenance of independence and more efficient and effective delivery of care. (eg. Telecare, Wellness services, Digital participation services).
Care Act Implementation Related Duties	Funding planned towards the implementation of Care Act related duties.
Carers Services	Supporting people to sustain their role as carers and reduce the likelihood of crisis. Advice, advocacy, information, assessment, emotional and physical support, training, access to services to support wellbeing and improve independence. This also includes the implementation of the Care Act as a sub-type.

Community Based Schemes	Schemes that are based in the community and constitute a range of cross sector practitioners delivering collaborative services in the community typically at a neighbourhood level (eg: Integrated Neighbourhood Teams)	
DFG Related Schemes	The DFG is a means-tested capital grant to help meet the costs of adapting a property; supporting people to stay independent in their own homes.	
Enablers for Integration	Schemes that build and develop the enabling foundations of health and social care integration encompassing a wide range of potential areas including technology, workforce, market development (Voluntary Sector Business Development: Funding the business development and preparedness of local voluntary sector into provider Alliances/ Collaboratives) and programme management related schemes. Joint commissioning infrastructure includes any personnel or teams that enable joint commissioning. Schemes could be focused on Data Integration, System IT Interoperability, Programme management, Research and evaluation, Supporting the Care Market, Workforce development, Community asset mapping, New governance arrangements, Voluntary Sector Development, Employment services, Joint commissioning infrastructure amongst others.	
High Impact Change Model for Managing Transfer of Care	The eight changes or approaches identified as having a high impact on supporting timely and effective discharge through joint working across the social and health system. The Hospital to Home Transfer Protocol or the 'Red Bag' scheme, while not in the HICM as such, is included in this section.	
Home Care or Domiciliary Care	A range of services that aim to help people live in their own homes through the provision of domiciliary care including personal care, domestic tasks, shopping, home maintenance and social activities. Home care can link with other services in the community, such as supported housing, community health services and voluntary sector services.	
Housing Related Schemes	This covers expenditure on housing and housing-related services other than adaptations; eg: supported housing units.	
Integrated Care Planning and Navigation	Care navigation services help people find their way to appropriate services and support and consequently support self-management. Also, the assistance offered to people in navigating through the complex health and social care systems (across primary care, community and voluntary services and social care) to overcome barriers in accessing the most appropriate care and support. Multi-agency teams typically provide these services which can be online or face to face care navigators for frail elderly, or dementia navigators etc. This includes approaches like Single Point of Access (SPoA) and linking people to community assets. Integrated care planning constitutes a co-ordinated, person centred and proactive case management approach to conduct joint assessments of care needs and develop integrated care plans typically carried out by professionals as part of a multi-disciplinary, multi-agency teams. Note: For Multi-Disciplinary Discharge Teams and the HICM for managing discharges, please select HICM as scheme type and the relevant sub-type. Where the planned unit of care delivery and funding is in the form of Integrated care packages and needs to be expressed in such a manner, please select the appropriate sub-type alongside.	

Intermediate Care Services	Short-term intervention to preserve the independence of people who might otherwise face unnecessarily prolonged hospital stays or avoidable admission to hospital or residential care. The care is person-centred and often delivered by a combination of professional groups. Four service models of intermediate care are: bed-based intermediate care, crisis or rapid response (including falls), home-based intermediate care, and reablement or rehabilitation. Home-based intermediate care is covered in Scheme-A and the other three models are available on the sub-types.	
Personalised Budgeting and Commissioning	Various person centred approaches to commissioning and budgeting.	
Personalised Care at Home	Schemes specifically designed to ensure that a person can continue to live at home, through the provision of health related support at home often complemented with support for home care needs or mental health needs. This could include promoting self-management/expert patient, establishment of 'home ward' for intensive period or to deliver support over the longer term to maintain independence or offer end of life care for people. Intermediate care services provide shorter term support and care interventions as opposed to the ongoing support provided in this scheme type.	
Prevention / Early Intervention	Services or schemes where the population or identified high-risk groups are empowered and activated to live well in the holistic sense thereby helping prevent people from entering the care system in the first place. These are essentially upstream prevention initiatives to promote independence and well being.	
Residential Placements	Residential placements provide accommodation for people with learning or physical disabilities, mental health difficulties or with sight or hearing loss, who need more intensive or specialised support than can be provided at home.	
Other	Where the scheme is not adequately represented by the above scheme types, please outline the objectives and services planned for the scheme in a short description in the comments column.

Please provide any comments that may be useful for local context where there is a difference between the planned and actual expenditure for 2020-21

Underspend on schemes that could not be started or fully completed due to Covid-19 = £1.318m
Underspend on additional contributions for care home placements (mostly due to Covid-19) = £3.192m

Better Care Fund 2020-21 Year-end Template

7. Year-End Feedback

The purpose of this survey is to provide an opportunity for local areas to consider and give feedback on the impact of the BCF. Covid-19 had a significant impact on services and schemes delivered on the ground which may have changed the context. However, national BCF partners would value and appreciate local area feedback to understand views and reflections of the progress and challenges faced during 2020-21. There is a total of 5 questions. These are set out below.

Selected Health and Wellbeing Board:

Herefordshire, County of

Part 1: Delivery of the Better Care Fund

Please use the below form to indicate what extent you agree with the following statements and then detail any further supporting information in the corresponding comment boxes.

Statement:	Response:	Comments: Please detail any further supporting information for each response
1. The overall delivery of the BCF has improved joint working between health and social care in our locality	Agree	Joint working with each member taking responsibility for delivery of schemes or projects that they are leading on. Communications into and across organisations in order to ensure effective understanding of the planned activity and outcomes. Updates are provided on a quarterly basis covering Implementation, Outcomes, Finance &
2. Our BCF schemes were implemented as planned in 2020-21	Agree	A number of schemes are funded through the BCF in Herefordshire. Throughout the year all schemes have been implemented, as planned, albeit with some difficulties due to COVID.
3. The delivery of our BCF plan in 2020-21 had a positive impact on the integration of health and social care in our locality	Agree	The ongoing approach to integration continues to have a positive impact with partners continually working together to achieve this.

Part 2: Successes and Challenges

Please select two Enablers from the SCIE Logic model which you have observed demonstrable success in progressing and two Enablers which you have experienced a relatively greater degree of challenge in progressing.

Please provide a brief description alongside.

4. Outline two key successes observed toward driving the enablers for integration (expressed in SCIE's logical model) in 2020-21	SCIE Logic Model Enablers, Response category:	Response - Please detail your greatest successes
Success 1	5. Integrated workforce: joint approach to training and upskilling of workforce	In autumn 2020, the Practice Improvement Lead within Herefordshire Council, has been working closely with West Midlands Academic Science Network at Regional level on a project of 'Recognising the Deteriorating Resident and have interpreted this into a local level across Herefordshire. The aim of the project is to support staff on the front line to feel confident and competent to identify soft signs of deterioration as early as possible and as a result to possibly avoid hospital admission depending on the individual circumstance. Locally we are also working with the Wye Valley NHS Trust to offer to all care
Success 2	7. Joined-up regulatory approach	Our Reablement service has been fully response during the covid crisis and have supported the rapid discharge of patients from hospital With an integrated discharge team and an integrated response team, we are truly able to support each other with joined up training and operational support

5. Outline two key challenges observed toward driving the enablers for integration (expressed in SCIE's logical model) in 2020-21	SCIE Logic Model Enablers, Response category:	Response - Please detail your greatest challenges
Challenge 1	5. Integrated workforce: joint approach to training and upskilling of workforce	<ul style="list-style-type: none"> Due to the Covid 19 pandemic, delivery of training methods has had to change. Alternative methods of delivery have been established. Not being able to carry out follow up visits to evidence the training is embedded into practice.
Challenge 2	7. Joined-up regulatory approach	There have been some challenges trying to balance the "priorities", particularly during Covid. However we have now got joint management in place, and this has helped support the difficult decision making that staff sometimes are asked to make. The staff feel better supported

Footnotes:

Question 4 and 5 are should be assigned to one of the following categories:

1. Local contextual factors (e.g. financial health, funding arrangements, demographics, urban vs rural factors)
2. Strong, system-wide governance and systems leadership
3. Integrated electronic records and sharing across the system with service users
4. Empowering users to have choice and control through an asset based approach, shared decision making and co-production
5. Integrated workforce: joint approach to training and upskilling of workforce
6. Good quality and sustainable provider market that can meet demand
7. Joined-up regulatory approach
8. Pooled or aligned resources
9. Joint commissioning of health and social care

Other

Better Care Fund 2020-21 Year-end Template

8. Improved Better Care Fund

Selected Health and Wellbeing Board:

Herefordshire, County of

These questions cover average fees paid by your local authority (including client contributions/user charges) to external care providers for your local authority's eligible clients.
The averages will likely need to be calculated from records of payments paid to social care providers and the number of client weeks they relate to, unless you already have suitable management information.

We are interested ONLY in the average fees actually received by external care providers for your local authority's eligible supported clients (including client contributions/user charges). Specifically the averages SHOULD EXCLUDE:

- Any amounts that you usually include in reported fee rates but are not paid to care providers e.g. your local authority's own staff costs in managing the commissioning of places.
- Any amounts that are paid from sources other than eligible local authority funding and client contributions/user charges, i.e. you should EXCLUDE third party top-ups, NHS Funded Nursing Care and full cost paying clients.

Respecting these exclusions, the average fees SHOULD INCLUDE:

- Client contributions /user charges.
- Fees paid under spot and block contracts, fees paid under a dynamic purchasing system, payments for travel time in home care, any allowances for external provider staff training, fees directly commissioned by your local authority and fees commissioned by your local authority as part of a Managed Personal Budget.
- Fees that did not change as a result of the additional IBCF allocation, as well as those that did. We are interested in the whole picture, not just fees that were specifically increased using additional IBCF funding.

If you only have average fees at a more detailed breakdown level than the three service types of home care, 65+ residential and 65+ nursing requested below (e.g. you have the more detailed categories of 65+ residential without dementia, 65+ residential with dementia) **please calculate for each of the three service types an average weighted by the proportion of clients that receive each detailed category:**

1. Take the number of clients receiving the service for each detailed category.
2. Divide the number of clients receiving the service for each detailed category (e.g. age 65+ residential without dementia, age 65+ residential with dementia) by the total number of clients receiving the relevant service (e.g. age 65+ residential).
3. Multiply the resultant proportions from Step 2 by the corresponding fee paid for each detailed category.
4. For each service type, sum the resultant detailed category figures from Step 3.

Please leave any missing data cells as blank e.g. do not attempt to enter '0' or 'N/A'.

	For information - your 2019-20 fee as reported in Q2 2019-20	Average 2019-20 fee. If you have newer/better data than at Q2 2019-20, enter it below and explain why it differs in the comments. Otherwise enter the Q2 2019-20 value from the previous column	What was your anticipated average fee rate for 2020-21, if COVID-19 had not occurred?	What was your actual average fee rate per actual user for 2020-21?	Implied uplift: anticipated 2020-21 rates compared to 2019-20 rates	Implied uplift: actual 2020-21 rates compared to 2019-20 rates
1. Please provide the average amount that you paid to external providers for home care, calculated on a consistent basis. (E per contact hour, following the exclusions as in the instructions above)	£18.02	£18.17	£19.25	£20.06	5.9%	10.4%
2. Please provide the average amount that you paid for external provider care homes without nursing for clients aged 65+, calculated on a consistent basis. (E per client per week, following the exclusions as in the instructions above)	£625.58	£666.28	£695.73	£655.12	4.4%	-1.7%
3. Please provide the average amount that you paid for external provider care homes with nursing for clients aged 65+, calculated on a consistent basis. (E per client per week, following the exclusions in the instructions above)	£642.80	£658.12	£687.21	£683.27	4.4%	3.8%
4. Please provide additional commentary if your 2019-20 fee is different from that reported at Q2 2019-20. Please do not use more than 250 characters.		Variation in demand, intensity and location of placements affects the average hourly or weekly cost. Rural placements are considerably more expensive than urban placements				
5. Please briefly list the covid-19 support measures that have most increased your average fees for 2020-21. Please do not use more than 250 characters.		10% increase in home care fees for placements for hospital discharge				

79 characters remaining

182 characters remaining

Footnotes:

* * * in the column C lookup means that no 2019-20 fee was reported by your council in Q2 2019-20

** For column F, please calculate your fee rate as the expenditure during the year divided by the number of actual client weeks during the year. This will pick up any support that you have provided in terms of occupancy guarantees. (Occupancy guarantees should result in a higher rate per actual user.)
