

Meeting:	Cabinet
Meeting date:	29 July 2021
Title of report:	To set out the councils new Integrated Waste Management Strategy and Waste Handling Pilots
Report by:	Cabinet Member, Commissioning, Procurement and Assets

A further quality check identified three factual changes that needed correction and we have taken the opportunity to make minor clarifications in five places. None of these amendments are significant enough to change the findings or conclusions of the strategy review in any way. Because the findings and conclusions have not change then the targets or action plans do not need to change either.

Please note that appendix one to the report has been updated with the following amendments:

Page number	Original document	Amendment
3	Recycling rate - Calculated as the proportional value (%) of municipal waste recycled from the total municipal waste, including recycling, that is generated.	Recycling rate - Calculated as the proportional value (%) of Council collected municipal waste recycled from the total municipal waste collected, including recycling, that is generated.
4		Glossary updated to include: Worcestershire waste collection authorities The six waste collection authorities in Worcestershire, comprising Bromsgrove District Council, Malvern Hills District Council, Redditch Borough Council, Wychavon District Council, Wyre Forest District Council and Worcester City Council
7	Reducing waste overall therefore helps to decrease costs and increase recycling rates which, in turn, helps to meet national statutory targets.	Reducing residual waste overall therefore helps to decrease costs and increase recycling rates which, in turn, helps to meet national statutory targets.
8	Updated housing growth figure: The number of households in the County increases by an average of just over 10% each year (an average of 9,250 new homes built per year).	The number of households in the County is projected to increase by an average of just under 1% each year (an average of 825 new homes built per year)

ITEM 5 – To set out the councils new Integrated Waste Management Strategy and Waste Handling Pilots

Page number	Original document	Amendment
9	Paragraph 3.3 Municipal waste is waste collected from households and from businesses where waste is 'household like' (sometimes referred to as Local Authority Collected Waste).	Local Authority collected waste is municipal waste collected from households and from businesses where waste is 'household like'.
9	Correction to tonnage figure: In 2019/20, a total of 199,459 tonnes of municipal waste was collected in Herefordshire	In 2019/20, a total of 86,811 tonnes of municipal waste was collected in Herefordshire
11	This is around the same level as two local authorities which have very similar demographics and the same waste and recycling collection services as Herefordshire: Malvern Hills District Council (achieving a 39.8% recycling rate) and West Lindsey District Council (achieving 42.9%).	This is around the same level as two local authorities which have very similar demographics and the same waste and recycling collection services as Herefordshire, although neither of them operate HWRCs: Malvern Hills District Council (achieving a 39.8% recycling rate) and West Lindsey District Council (achieving 42.9%).
26	Minor change to recycling rate figure: The recycling rate currently averages 74.9%, totalling 75% (2019/20)	The recycling rate currently averages 75.4%, including soil and rubble (2019/20)
