

Appendix B Political Group Consultation on a Key Decision: Consultation Response

Date	Response
29/08/2021	This capital investment is very welcome, in particular the extra money for market towns. My only concern is that will we need to use BBLP to deliver this extra infrastructure investment or is there any flexibility in the BBLP contract that would allow market towns like Ross to deliver their identified priority work through say their lengthsman. For frankly we would get more done for the same amount of investment, if we could use the latter.
