CVs were not asked for in the question therefore have not been scored.	8.00%
Responsibilities are clear. Wider support explained. Principal resources may be directly employed or supply chain, which is not decided. QMS in place, this should encourage right first time, but this is not explained in the response.	
Elements answered well and shows a wealth of knowledge. I would have liked to have seen more in regards to evidence of similar work/projects carried out in line with this scope of works. I particularly like the CVs attached, organogram and the mention of the ISO - I think if there was more detail around the evidence of similar works that have been carried out previously in line with this scope then it may have improved the score.	
CVs provided with qualifications and skills listed, also attached the org chart. Experience listed for all except contract manager Ben Holmes.  Regular meetings with all involved will be used to support.  All subcontractors will attend a pre-start meeting to discuss risk assessments, method statements, all persons involved on org chart, no details of equipment.  Weekly meetings arranged to enable continuous improvement, all non-conformities are assessed, and workshops or training sessions arranged - further detail could be provided to show right first time approach.

<p>Dedicated team to work with client.</p> <p>Highway experience.</p> <p>H&amp;S lead in place.</p> <p>Base management structure in place.</p>	
<p>Overall a <b>good</b> answer and touches on all points raised in the questions.</p> <p><b>Detailed answer with a good approach</b> to how the scope of works will be met and in line with section 4. Each element has been answered showing their experience and knowledge of this type of work.</p>	
<p>Personal and consistent approach to add value - client review meetings and ensuring that the project is running to budget and to schedule.</p> <p>Few details provided so feel more could be given to answer this.</p> <p>Full details given about H&amp;S.</p> <p>Management of the work and team support provided.</p>
