

## Herefordshire Pharmaceutical Needs Assessment Consultation Response Log

Response Number	Response Date	Responder	Section of PNA	Consultation Response	Consideration given in revised draft	Decision to amend the PNA (y/n) and date
1	05/08/22	Practice Manager	Part A, Section 1 (Tables, maps and text)	On the draft PNA it states that the South & West PCN has 3 Dispensing Practices but it does however have 4 (5 if you included Peterchurch branch surgery). We have Ewyas Harold, Kingstone, Much Birch and Fownhope all being Dispensing Practices. It is possible that Fownhope has been put in the City PCN but that is not the case.	<p><b>Clarification provided by Herefordshire Intelligence Team:</b></p> <p>‘Fownhope Medical Centre should be included in ‘South &amp; West’ but not in the Hereford City. This is according to the SHAPE tool. Previously I used its postcode to lookup the PCN, which belongs to Hereford City. I have now re-calculated the figures accordingly.</p> <p>There are 10 dispensing practices, of these 3 have more than one branch:</p> <ul style="list-style-type: none"> <li>-Mortimer Medical Practice has two branches; Leintwardine &amp; Orleton</li> <li>-Weobley Surgery has one branch: Staunton-On-Wye</li> <li>-Golden Valley Practice has one branch: Peterchurch’</li> </ul> <p><b>Amendments made on page 14</b></p>	Yes 12/09/2022
2	11/08/22	LPC	Part C, Recommendations	Recommendations say ‘consider extending opening hours of	<b>Amendments made on pages 82, 84 &amp; 89</b>	Yes 12/09/2022

			(p.82, 84 & 89)	<i>pharmacies.</i> This needs to be a commissioned ROTA if required and not for pharmacies to just open longer they only have to do 40 core hours a week (apart from handful of 100 hour pharmacies)		
3	11/08/22	LPC	Part C, Recommendations (p. 82 & 89)	Recommendations say <i>'Pharmacies in areas of high deprivation should be prioritised for the continued implementation of blood pressure checks.'</i> This is a national service open to all pharmacies - needs to be encouraged.	<b>Amendments made on pages 82 and 89</b>	Yes 12/09/2022
4	11/08/22	LPC	Part C, Recommendations (p. 86 , 88)	Recommendations say <i>'a network of pharmacy Health Champions must be established in partnership with the local public health team...'</i> Not sure this is a must - more that agreed local support and resources to align with any national NHSEI mandated promotional activity.	<b>Amendments made on pages 86 and 88</b>	Yes 12/09/2022
5	11/08/22	LPC	Part C, Recommendations (p. 85 & 89)	Recommendations say <i>'Pharmacies should provide tailored opportunistic advice about child oral health and consider this issue for awareness campaigns, particularly in areas of high deprivation'</i> Campaigns are dictated nationally – local resources and support for some agreed additional campaigns possible.	<b>Amendments made on pages 85 and 89</b>	Yes 12/09/2022
6	11/08/22	LPC	Part A, Section 2 (p.33)	<i>'Patients across England can now download the NHS App which will allow them to order repeat prescriptions,</i>	<b>Amendments made on page 33</b>	Yes 12/09/2022

				<p><i>check their patient record or book and manage GP appointments. GP practices will need to review some of their IT system settings to enable patients to access the app's full range of functions. This should be encouraged in order for patients to be able to order their medicines safely through this digital offer The Electronic Prescription Service (EPS) is also being implemented as part of the dispensing service.'</i></p> <p>This is personal choice – not sure the App bit fits in with dispensing. The EPS part is more relevant.</p>		
7	11/08/22	LPC	Part A, Section 2 (p. 35)	<p>Managed repeats should not be under essential services.</p>	<p>It is made explicit in the text that this is not an essential service, but as it is closely related to an essential service, we feel it fits best in this section. No amendment made.</p>	No 12/09/2022
8	11/08/22	LPC	Part A, Section 2 (p. 34)	<p><i>'Public Health (Promotion of Healthy Lifestyles) Each financial year (1st April to 31st March), pharmacies are required to participate in up to six health campaigns at the request of NHSE&amp;I.'</i></p> <p>Needs to be clear that this is a total of 6 max as determined by NHSEi nationally. Any additional local arrangements as agreed through the LPC and would be voluntary.</p>	<p><b>Amendments made on page 34</b></p>	Yes 12/09/2022
9	11/08/22	LPC	Part A, Section 2 (p. 36)	<p><i>'Community Pharmacy Claims associated with initial local engagement in preparation for delivering GP referral</i></p>	<p><b>Enquiry ongoing</b></p>	

				pathway of the CPCS (started late 2021, data to follow)' NHSEi have this data.		
10	02/09/22	NHS Contracts Manager for Boots UK Limited	Part C (p. 88)	'Extended opening hours of pharmacies including weekends should be considered'. The option of extending opening hours on locally commissioned rota basis to extend existing contractors hours as an 'out of hours' service should be explored in the first instance	<b>Amendments made on pages 82, 84 &amp; 89</b>	Yes 12/09/2022
11	02/09/22	NHS Contracts Manager for Boots UK Limited	Part A (p. 28)	Urban/rural classification on the maps i.e. figure 12. It would be helpful it was clear what source had been used for the classifications given and, for the avoidance of doubt, how these compare to the areas currently classified as rural (controlled) for the purpose of the pharmaceutical regulations.	<b>Amendments made to page 28</b>	Yes 12/09/2022
12	02/09/22	NHS Contracts Manager for Boots UK Limited	Appendix 3b	Possibly due to the timing of production of this draft, the recent changes in the opening hours of a number of Boots pharmacies may not have been reflected in the draft PNA. These changes were notified to the NHS England team who should have a list of the current opening hours of our pharmacies.	<b>Amendments made to Appendix 3b</b>	Yes 12/09/2022
