Officer: **Rachael Joy – Delivery Director Environmental Transformation**

Date **27th September 2022**

Actions on Phosphate Action Plan contributing to: (list out the actions- note this remains the same every update)

Phosphate Mitigation Schemes and Cabinet Commission

Actions on Phosphate Action Plan recent work has contributed to: (which actions have you delivered against).

- A. Phosphate Mitigation** - There is a limit to what can be reported for commercial reasons.
1. Work Continues on the first site at Luston, cells are near completion, planting commenced and the first treated effluent is expected from DCWW early in October.
 2. The planning process continues for a second site at Titley.
 3. A design build tender process is currently taking place for the Titley and Tarrington sites.
 4. Capital Provision has been made of £150k to commence a further study on the Wye and meetings have commenced with relevant parties.
 5. A review of NEs Dover Decision has commenced.
- B. Cabinet Commission**
1. Commissioners have been identified from Powys, Monmouthshire and Herefordshire
 2. The Commission Terms of Reference are due to be considered by Cabinet on the 29th September Further information about the terms of reference and the reasons why a commission is needed can be found here [Agenda for Cabinet on Thursday 29 September 2022, 2.30 pm - Herefordshire Council](#)
 3. In the light of the fluctuating national position on key environmental policy the terms of reference will be kept under review
 4. The Commission will work closely with industry and sector leads to undertaken a strategic review beyond regulation before making recommendations for partner organisations to consider.
