

Questioner:	Peter McKay, Leominster
Question: Would you review the text of the Long List item in your work programme to ensure that it covers both the specific highway and path record issues I suggested be a topic for scrutiny back in December 2022, namely the process for addressing long standing anomalies, etc., in our highway and path records, such as those that Leominster Town Council has requested be addressed as part of the 2021-41 Place Shaping Local Plan, and the Green Lanes shown as footpaths that come about due to use of the non-statutory term CRF, which your research guidance glossary advises where intended to be shown as RUPP's, but were shown as footpaths with use by others than walkers being extinguished in 2031, along with some indication of when could expect scrutiny of these two specific aspects of the highway and path records?	
Response: Yes, the committee will review the Long List as requested and will respond on the substance of the question at the next public meeting.
