

Licensing Authority proposed conditions – not agreed

Prevention of Crime & Disorder

The use of standard glass will be permitted within the cocktail bar (currently called Botanic – shaded in yellow on the plan dated 20.03.2025).

Where there is to be any transfer of customer between the cocktail bar and the night club (currently called Trilogy) through internal doors, then the cocktail bar shall only supply alcohol, in pet glassware from 2245 hours until the end of licensable activities. Standard glasses shall not be permitted within the nightclub – this condition is currently on the licence albeit with a different plan date

When both Botanic and Trilogy are in use, the interconnecting door between Botanic and the Trilogy VIP Lounge shall remain closed (unless there is a transfer of customers between the two). An audible alarm will be fitted to notify staff that the doors have been opened when the door is unmanned.

When a transfer of customers between Botanic and Trilogy through the internal door takes place, one (1) SIA Door staff will be deployed to supervise the door between the cocktail bar and the club, which is marked in pink on the plan dated 20.03.2025, to ensure no glassware is taken though to Trilogy.
