Subject: **Update on Fire Safety Measures and Ongoing Electrical Inspection**
Ratheepan Ramanathan, GWALIA STORES 27-29 BROAD STREET, ROSS ON WYE,
HEREFORDSHIRE, HR9 7ED

Dear Sir/Madam,

We would like to inform you that we have begun implementing several fire safety measures at our premises.

Emergency lighting and fire extinguishers have been installed. We have provided different types of extinguishers including foam, CO₂, and water. These extinguishers are positioned at four different locations within the premises to ensure easy access in case of an emergency.

We have also completed PAT Test for our electrical appliances.

Additionally, the ceiling panels have been replaced with fire-rated panels (British Gypsum gypresatinspar). The premises already has a fire alarm system installed both upstairs and in the shop area, which is controlled through a central fire alarm panel.

At present, we are in the process of completing the EICR. Once the inspection and related work are finished, we will provide the EICR certificate immediately.

Please let us know if any further information or documentation is required.

Yours faithfully,

K Squared Engineering
