15 January 2019

Dear Mr Dale,

**SITE:** Existing roundabout junction of A49(T) and B4399, to a new roundabout with the A465, then joining the B4349,

**DESCRIPTION:** Application for approval of details reserved by condition 9 attached planning permission 151314 (partial discharge). For other approval of details applications see 184240, 184241, 184242, 184243, 184244, 184245 and 184246.

**APPLICATION NO:** 184535

**APPLICATION TYPE:** PP - Approval of details reserved by condition

I refer to your application that is accompanied by the Written Scheme of Investigation dated 13/4/2018. Condition 9 states:

**No development shall take place until the developer has secured the implementation of a programme of archaeological work in accordance with a written scheme of investigation which has been submitted to and approved in writing by the local planning authority. This programme shall be in accordance with a brief prepared by the County Archaeology Service. The development shall be carried out in accordance with the approved programme.**

We have consulted with the Councils Archaeologist and with Historic England and I am now able to confirm that the written scheme of investigation is considered to be acceptable. In accordance with the condition, the works shall be carried out in accordance with the agreed scheme and programme. If there are any changes to this, then a revised programme must be submitted for approval.

I am therefore able to discharge condition 9 of planning permission 151314.

This letter should be attached to the decision notice to avoid any doubt as to the nature of the approved scheme.

Yours sincerely,

**MR SIMON WITHERS  
DEVELOPMENT MANAGER**
